

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

REPORT

OF THE

HOSPITAL FOR CHILDREN

AND

TRAINING SCHOOL

FOR

NURSES.

1890-1891.

NEW YORK:

PUBLISHED BY THE HOSPITAL FOR CHILDREN.

125 WEST 12TH STREET, NEW YORK.

1891.

## OBJECTS OF THE HOSPITAL

---

1st. To provide medical and surgical care for sick *proletaria*, this being the main object of the institution. No deserving case is ever refused.

2d. To provide medical and surgical aid for women at \$10 per week and upwards. This is one source of our revenue.

3d. To educate nurses, the design being to fit healthy married women to engage industriously in this work by a two years course of reading, lectures and practical nursing.

Daily clinics are held at the Dispensary, 1016 Mission Street, from 9 to 10 A. M. and from 3 to 4 P. M. for the sick poor.

The Resident Physicians will be constantly in attendance at the Hospital to receive applications for admission.

# ARTICLES OF INCORPORATION

## OF THE

### HOSPITAL FOR CHILDREN AND TRAINING SCHOOL FOR NURSES.

---

Known all men by these presents, that we, the undersigned, have this day voluntarily associated ourselves together for the purpose of forming a corporation under the laws of the State of California. And we hereby certify:

First. That the name of said corporation is, "Hospital for Children and Training School for Nurses."

Second: That the purposes for which it is formed are: To obtain and receive by gift, bequest, devise, barter or purchase, land or property in the City and County of San Francisco, State of California, and to erect buildings to be used for the purposes of a hospital and of a training school for nurses, for sick women and children; also to support and maintain and furnish competent and educated medical attendance; also to buy and sell medicines and medical instruments and appliances for sick women and children; also for the purpose of establishing and maintaining a dispensary of medicines; also to assist to educate women in the study and practice of medicine, and to aid them to become competent and intelligent nurses. That pecuniary profit to the members thereof is not the object of this corporation.

Third. That the place where its principal business is to be transacted shall be in the City and County of San Francisco, State of California.

Fourth. That the term for which it is to exist is fifty years from and after the date of its incorporation.

Fifth. That the number of its Directors or Trustees shall be five, and the names and residences of those who are appointed for the first year and until their successors are elected and qualified are:

Irving M. Scott . . . . .residing at San Francisco.  
 Andrew S. Hallidie . . . . .residing at San Francisco.  
 Pierre B. Cornwall . . . . .residing at San Francisco.  
 John F. Merrill . . . . .residing at San Francisco.  
 W. Frank Whittier . . . . .residing at San Francisco

Sixth. That there is no capital stock and no shares.

Seventh. That no capital stock has been subscribed for.

Eighth. That a meeting of the members of this association has been held on the 25th day of November, A. D. 1885, at the City and County of San Francisco aforesaid, in accordance with the rules and regulations of this association, at which the undersigned Mrs. Emma G. Harrington was duly elected President, and Mrs. Martha A. Burke was duly elected Secretary, and Mrs. Caroline Hardy was duly elected Judge of Election. And Mrs. Mary S. Merrill and Mrs. E. L. Murray were duly elected Tellers of Election, and that at such meeting a majority of the members of said association were present and voted at the election herein mentioned, and that at said meeting an election for directors was held, and that the five persons hereinbefore named were duly elected Directors of this Corporation.

In witness whereof, we, the undersigned, have on this seventh day of December, 1885, signed our names hereto:

MRS. E. L. MURRAY,  
 MRS. L. D. LATIMER,  
 MRS. M. A. RAYMOND,  
 MRS. M. E. C. LOGAN,  
 MRS. C. E. GREEN.

---

STATE OF CALIFORNIA, }  
*City and County of San Francisco.* } ss.

On the Seventh day of December, A. D , one thousand eight hundred and eighty-five, before Mr. Edward Chattin, a Notary Public, in and for said City and County residing herein, duly commissioned and sworn personally appeared E. L. Murray, L. D. Latimer, M. A. Raymond, M. E. C. Logan and C. E. Green, known to me to be the individuals described in, whose names are

subscribed to and who executed the annexed instrument, and they severally acknowledged to me that they executed the same.

In witness whereof, I have hereunto set my hand and affixed my official seal at my office in the City and County of San Francisco, the day and year last above written.

EDWD. CHATTIN,

Notary Public.

County Clerk.

WM. A. DAVIES,

Notary Public.

BY-LAWS

—OF THE—

HOSPITAL FOR CHILDREN

—AND—

TRAINING SCHOOL FOR NURSES.

---

PREAMBLE.

25th NOVEMBER, 1885.

WHEREAS, the members and stockholders of the corporation incorporated as the "Pacific Dispensary for Women and Children," by certificate filed in the office of the Clerk of the City and County of San Francisco, State of California, on the 23d day of March, 1875, have found that the objects and purposes expressed in said certificate are not as extensive as the work which is required of said corporation, and the members and stockholders of said corporation desire to extend their work, and to incorporate themselves as a benevolent corporation, under the provisions of the Civil Code of the State of California; now, therefore,

*Resolved*, That all persons who are members, honorary, life or annual, and all stockholders of the "Pacific Dispensary for Women and Children" are associated together for the purpose of forming a corporation for the erection of a *hospital for children and a training school for nurses*; and that such association will assume and pay all the contracts, obligations and indebtedness of the said dispensary, and in consideration thereof shall receive and be entitled to have, own and possess all the assets of every kind and nature belonging to or owned by the said "Pacific Dispensary for Women and Children," and we adopt the following code of By-Laws :

### ARTICLE I.

The name of this society shall be HOSPITAL FOR CHILDREN AND TRAINING SCHOOL FOR NURSES.

### ARTICLE II.

#### OBJECT.

The object of this society shall be : To obtain and receive by gift, devise, barter or purchase, land and property in the City and county of San Francisco, or in the adjoining counties of the State of California, and to erect buildings, to be used for the purpose of a hospital and for a training school for nurses for sick women and children ; also, to support and maintain and furnish competent and educated medical attendance ; also, to buy and sell medicines and medical instruments and appliances necessary for the use of sick women and children in said hospital , also, for the purpose of establishing and maintaining a dispensary of medicines ; also, to assist to educate women in the study and practice of medicine, and to aid them to become competent and intelligent nurses.

Pecuniary profit is *not* the object of this society.

### ARTICLE III.

#### MEMBERSHIP AND VOTING.

SECTION 1. Any person making a single payment of fifty dollars to the funds of the society shall be a life member. Any person making a single payment of twenty dollars shall be an honorary member, and any person making an annual payment of two and one-half dollars shall be an annual member. At any meeting of the society, all life and honorary members shall be entitled to cast for each officer one vote each. Also, all annual members who shall have paid their yearly dues from the time of joining the society may vote at every meeting of the society held during the next three years following the date of the incorporation of this society ; and every life and honorary member of the " Pacific Dispensary and Hospital for Women and Children " shall be like members of this corporation, with same right to vote at all meetings of this society.

SEC. 2. At all meetings of the Board of Managers, seven members shall constitute a quorum.

SEC. 3. At meetings of the society, a quorum shall consist of not less than fifteen members present, representing not less than thirty votes as present, or by proxy.

#### ARTICLE IV.

##### OFFICERS.

SECTION 1. The officers of this corporation shall be a Board of five Directors and a Board of Managers, composed of twenty-four ladies, all of whom shall be elected annually by the members of the association, at its annual meeting, and the Directors and Managers first elected shall hold office until the annual election of January, A. D. 1887, and until their successors are elected and qualified.

The Board of Managers shall choose from their own number a President, two Vice Presidents, Recording Secretary, Corresponding Secretary and Treasurer of said Board, and such Committees as they shall find necessary.

SEC. 2. The Board of Directors shall elect their own President, Secretary and Treasurer at their first meeting after their election.

#### ARTICLE V.

##### MEETINGS AND ELECTIONS.

SECTION 1. The meetings of the Board of Managers shall be held on the second Wednesday of each month. The annual meetings of the association shall be held on the second Thursday in January of each year, at which time the election of officers shall take place. All elections shall be by ballot, and all officers shall be chosen to serve for one year, and until their successors shall be elected and qualified. One Judge of Election and two Tellers shall be chosen by a majority vote of the meeting, the Tellers to receive the ballots, the Judge to count the votes in presence of the Tellers, and the persons receiving the highest number of votes to be declared elected.

The President of the Board of Managers, or in her absence the Vice President; or in case both are absent, any member present elected by the meeting, shall preside at all meetings, both of the Board of Managers and of the Association. The President, or in her absence the Vice-President, or any three members concurring, shall have the power to call a special meeting.

SEC. 2. After each election of Directors the Judges of election shall issue a certificate of election, which it shall be the duty of the Recording Secretary to file with the Clerk of the City and County of San Francisco, as required by law. Also to notify the Directors of their election and of the filing of such certificate.

SEC. 3. At least five days' notice of all meetings of members and of the association shall be given by publication in some daily newspaper published in San Francisco, unless such meeting is held pursuant to adjournment for a short time.

## ARTICLE VI.

### DUTIES AND POWERS OF DIRECTORS.

SECTION 1. As provided by law, the Directors shall be Trustees of the corporation, and shall exercise, conduct and control its corporate powers, business and property, but without derogation to these their legal powers; it shall be their duty, in all important matters to consult with the Board of Managers, as a whole, or by committee. At each annual meeting they shall render to the society a full report of all property, real and personal, held in trust by them, and of the condition of the corporation.

SEC. 2. In all records and transactions of the society in which the Trustees are mentioned, it shall be held and understood that the Directors are meant and that the terms are synonymous.

SEC. 3. Vacancies in the Board occurring between yearly meetings, may be filled by election by the remaining Directors.

## ARTICLE VII.

### DUTIES AND POWERS OF MANAGERS.

SECTION 1. In order to carry out the objects of the society as specified in Article II, the Board of Managers, shall have power to devise and adopt measures for that end, to make such contracts as may be necessary thereto, and to control such funds of the society as may be necessary and applicable for its current expenses generally. They shall make their own by-laws and fill any vacancies in their own board, which may occur between its annual meetings.

SEC. 2. The Treasurer shall have charge of the funds to the order of the Board; shall keep an accurate account receipts and expenditures, and shall report their amount monthly meetings, as also at the annual meetings of the society. She shall also keep a list of the names of the members of the society and of donors.

SEC. 3. The Board of Managers shall appoint the Resident and Consulting Physicians and prescribe the duties of each; make all the rules and regulations of the hospital, the school and dispensary.

SEC. 4. The Recording Secretary shall keep a record of the proceedings of every meeting, and make an annual report. It shall be the duty of the Recording Secretary, or of some other person appointed for the purpose, to keep a correct record of the names of the inmates admitted to the hospital, the date of admission, their names and nationalities, those of their parents and whether they are alive or dead, and what was their last residence.

SEC. 5. The Corresponding Secretary shall make acknowledgment of all donations, notify the Board of Managers of any of its special meetings which may be called, and of the names of the members of the society, qualified to vote, of its annual meeting.

The Corresponding Secretary, or some other person appointed for the purpose, shall keep a record of all children admitted into homes, the full name, occupation and residence of each, and of the persons to whom sent, preparing indentures when necessary, and conducting with them such correspondence as may be deemed desirable.

## ARTICLE VIII.

### AMENDMENTS.

SECTION 1. These By-Laws may be amended by a vote of two-thirds of the members present at any regular or special meeting of the society; *provided*, such alteration or amendment has been proposed at a meeting of the Board of Managers at least one month previous.

SEC. 2. In these By-Laws the terms Association and By-Laws shall be deemed synonymous.

## ARTICLE IX.

These By-Laws shall stand in lieu of all By-Laws previously adopted.

## SECRETARY'S REPORT.

---

The publication of the annual report of the Pacific Dispensary Hospital for the year 1885 having been delayed, that report is now given in connection with those for the first and second years of the Hospital for Children and Training School for Nurses—a corporation duly organized under the laws of the State, having the same objects as the Pacific Dispensary Hospital which it succeeds.

---

### REPORT FOR 1885.

From the organization of the Pacific Dispensary Hospital to the close of 1885, the number of women receiving care and medical treatment was 459; of this number 13 died. Fifty-four children were born in the Hospital, and 460 were cared for. Among the latter were several incurable cases, from homes of want and misery, but their last days were made more comfortable by the labors and sacrifice of loving hearts and skilled hands.

From the establishment of the Dispensary to the close of 1885 the number of prescriptions filled was 32,604, for which compensation was received only in a few instances. A branch dispensary was opened during the year at the Boys and Girls Aid Society, and another at the Methodist Episcopal Mission for Chinese Girls, 916 Washington street.

The total cash receipts of the Institution from 1875 to the close of 1885 was \$49,847.48, amount disbursed \$48,178.45; remaining on hand December 31st, 1885, \$1,669 03.

In July, 1885, Dr. E. J. Fifield resigned the position of Attending Physician at the Hospital and at the Boys and Girls Aid Society. Drs. I. and E. Lowry were elected to fill the vacancy.

Dr. E. Sargent established an eye and ear clinic at the Hospital and Dr. George H. Powers also gave his valuable services in the same capacity.

Dr. Henry M. Sherman joined the corps of Attending Physicians and established a clinic for orthopædic cases.

To Drs. Newman and Le Fevre, who retired during the year, the Board of Managers are under obligations for services gratuitously rendered to patients at the Hospital.

Dr. M. Gilmore, graduate of Ann Arbor, Mich., Medical College, was appointed Resident Physician.

The branch of the work of the Hospital devoted to the instructions of trained nurses continued to make satisfactory progress, having at this date been in operation five years, the graduates numbering eight, all of whom when through with their work at the Hospital at once entered a field of usefulness.

The Young Women's Christian Association were this year granted the privilege of sending their District Nurse to the Hospital to gain instruction, in order to facilitate her labors among the sick poor of San Francisco.

The year was one of unusual prosperity to the Hospital and it approached nearer to a self-supporting condition than at any former period. The meetings of the Board of Managers numbered 12 regular and 10 special, all of which were well attended, showing that as the work increased and the scope of the usefulness of the Hospital widened, the interest shown by all concerned was more active, and the services performed were more arduous.

---

#### REPORT FOR 1886.

The Pacific Dispensary Hospital having incorporated under the title of The Hospital for Children and Training School for Nurses, the year 1886 was the first in the history of the new organization. The year was one of hopes, and also one of great anxiety, but the friends of the Hospital labored without ceasing, cheered by the belief that God was with them; a faith which has since been fully rewarded.

The Board of Managers worked diligently. Twelve regular meetings were held during the year to attend to the usual routine work, and twelve special meetings were also called for the purpose of devising ways and means to secure funds for current expenses, as a large percentage of the sums received from friends of the Hospital, was appropriated for the building fund,

for the erection of a new hospital building, and therefore could not be used for its maintenance. For this reason our worthy treasurer often found her bank account greatly reduced, but by strict economy the good work did not suffer, as it was often feared might be the case by the officers.

The Nurses' Training School continued to show good results, and the success of this branch of the work gave our friends much encouragement. During the year two more nurses completed their course of training, and graduated. The Clinics of the Dispensary were crowded daily.

Beginning with August, Dr. E. R. Field assumed charge of the Dispensary at the Boys' and Girls' Aid Society, succeeding Drs. Lowry, and continued to have charge of that on Washington street.

In 1886 ninety-two patients were treated at these Dispensaries, and the inmates of the Hospital numbered 156—total, 248. This will give those interested in our work some idea of what has been accomplished, and the hard work done.

Dr. M. Gilmore having resigned her position as Resident Physician at the Hospital, the number was increased to two resident physicians, and Drs. M. D. Fletcher and M. E. Bennett, graduates of Cooper Medical College, were appointed to these offices.

The most notable event of the year was the gift to the Hospital by Nathaniel Gray of a fifty-vara lot, situated on California and Maple streets, which generous aid gave us assurance that we should now be able to secure the accommodation which we had so long needed. We were also remembered by others with generous gifts of money, Mrs. E. Pond being the first among the number to contribute the handsome sum of \$1000. With these donations, and with the entertainments so admirably planned and carried out by many whose names will be found elsewhere, the building fund rapidly accumulated until July, 1886, when Mr. John Taylor, treasurer of the building fund, was enabled to report a total on hand of nearly \$10,000. Work was therefore commenced on the Childrens' Hospital.

In 1886 several vacancies occurred in the Board of Managers, which were duly filled by the election of others. Several life

memberships were taken during the year by some of our generous friends.

The income of the Hospital was the greatest since its establishment, aggregating \$1,684.85, leading us to hope that when located in our new building the institution would reach a self-sustaining position.

---

#### REPORT FOR 1887.

Early in 1887 the new building on California and Maple streets, erected for the Childrens' Hospital and Training School for Nurses, was occupied, the formal opening taking place in March. At this date the building and its furnishings had been paid for in full, the only liability being a balance of \$1,500, due on the purchase of an additional fifty vara lot, adjoining the Hospital premises, which was considered necessary to provide space for the enlargement of the Hospital at some future period. This debt is not yet discharged, but it is hoped that some of our public spirited citizens will generously provide for its payment.

The work of arranging and furnishing the rooms called for great care and economy; the merchants of San Francisco responding promptly to requests for supplies for that purpose, many giving furniture and other articles, and others making liberal discounts upon purchases. We were aided in this work by Mrs. C. P. Huntington, of New York, who contributed the sum of \$1,000 for furnishings.

On account of removal we were compelled during the year to rent a building at No. 1,016 Mission street, for a dispensary, in which clinics are held each week day, from 8 to 12 A. M. This dispensary is in charge at present of Drs. Le Fountain and Park, and is also visited daily by our attending physicians. Six hundred and sixteen patients have been treated, and 2,489 prescriptions furnished. The income from this source has been \$609.10, this sum being for medicines; no charge being made for services. At the hospital the patients for the year numbered 240, of these 142 were children. In 1887 Dr. Yates and Gallimore were elected as Resident Physicians for the ensuing year.

Dr. E. Sutro Merritt, having returned to her home in San Francisco, has become a valuable member on our staff of attending physicians, and has also been elected to take charge of the dispensary at the Boys' and Girls' Aid Society, in place of Dr. E. R. Field who resigned. Dr. H. P. Carlton was invited to become the dentist at our hospital, an important and useful position which he kindly accepted, and has been for some months of valuable assistance.

The usefulness of the Training School is being more strongly demonstrated each year. At present sixteen nurses are being taught the practical details of this profession, the course of instruction covering a period of two years. We are assured by those who have availed themselves of the services of our graduated nurses, or have employed others whose training is yet incomplete, that their skill and care is beyond all praise. A superintendent of nurses has been employed for a portion of the year, Mrs. S. A. Clough, a graduate of the New Haven, Conn., Training School. Her duties are to give practical instruction in the work, to maintain discipline and attend to other matters in her special department. The course of instruction and practice for nurses includes diseases of women and children and treatment, and maternity cases. A course of lectures is given by the attending physicians each Saturday from 10:30 to 11:30 A. M. Reading by the Resident Physician and instruction by the Superintendent of nurses are given each day and evening, covering all important points in reference to their duties, thus fitting them to perform their work skillfully after graduation. That we shall be sustained in this branch of our work by the public who are thus so greatly benefited, their past generosity to the Hospital leaves no room for doubt. At present the matron of the Hospital is Mrs. Fell, a person of christian character, admirably adapted to perform the duties of a position which demands a rare combination of good sense and executive ability. The term of the attending physicians of the Hospital has been increased from one month to three months. This plan has been found to work most satisfactorily to all concerned.

During the year two foundlings, left at the Hospital, have been adopted by worthy and responsible families, which assures

for the little waifs of humanity a brighter future, perhaps, than had they been left to the care of their parents.

Mamie Ryan, well known to all our kind friends, who has been with us for years still remains. Her presence despite her sad bodily infirmities has cast a ray of sunshine on all, and by the children especially she is greatly beloved.

The income of the Hospital in 1887 was \$4,109.80. The Board of Managers held twelve regular and ten special meetings.

The change in the Board of Managers during the year was greater than ever before, and we were obliged to part with several who have labored faithfully in the good work in years past. Among the resignations of the officers, we regret to report that of Mrs. O. W. Easton, who for many years so acceptably performed the often arduous duties of treasurer. This vacancy was filled by the election of Mrs. J. H. Dickinson. Mrs. E. Burke, our faithful recording secretary, also retired, and has been succeeded by Mrs. L. L. Dunbar.

The Board of Managers are under personal obligations to the attending and consulting staff of physicians for their untiring devotion and self-sacrifice, their work often being of a very exacting character, and for which they receive no compensation, only in the consciousness of having relieved human suffering. We deem it a fact worthy of mention that this hospital is the only institution on this coast at which women receive the attention of physicians of their own sex. The maternity work of the Hospital has increased during the year, many married women seeking to avail themselves of its advantages and comforts. Had we another building which could be devoted to this purpose, our usefulness in this direction might be greatly increased, to the benefit and encouragement of the unfortunate, and, perhaps, save many of this class from lives of misery.

Several memorial beds have been established during the year, and a number of rooms furnished through the liberality of some of the members of the Board, and other friends of the Hospital. The names of these benefactors, and of those who have generously aided us by contributions of money or supplies during the past three years, are appended to this report. Especial care has been taken to make the list complete, but should any gifts have

been omitted, we ask the indulgence of our friends for the oversight.

In closing this report, the Board of Managers desire to express to the Trustees, Messrs. A. S. Hallidie, John F. Merrill, John Taylor, P. B. Cornwall, and W. F. Whittier, hearty appreciation of their untiring and unselfish labors in securing funds toward the erection of our new building, and supervising its construction. Without their services, co-operation and advise, the work of the past two years could not have been accomplished, and our improved condition is largely due to the successful efforts of our Board of Trustees.

## PHYSICIAN'S REPORT.

---

A few words of recapitulation of the history of our Hospital are in order at this time. The Pacific Dispensary was incorporated March 13, 1875. In October, 1878, our managers placed six beds in the Dispensary building at 228 Post Street, and so began in a quiet way the work of a Hospital. In February, 1879, the demand justifying it, they leased the 14-roomed house S.E. corner of Franklin and Oak Streets, where we remained for nearly a year, again out-growing our building. The large airy house corner 22nd and Mission Streets became our home about the end of 1879, enabling us to offer more advantages to sick children than ever before, and here was opened our children's ward—the first of its kind on the Pacific Coast. Here were performed the first of our operations for orthopedic cases, three for disease of the hip joint, besides several cases of club foot, etc. Ovariectomies too began about this period. Quite an amount of obstetrical work was done while in this building, as it afforded excellent facilities for that kind of work. The Training School for Nurses admitted its first pupil in December, 1880, she was followed in February and March by two other pupils, all of whom have made for themselves an honorable record. In March, 1881, the Hospital made yet another move, to an 18-roomed house at 221 and 223 Thirteenth Street, where for six years it remained and may be said to have made its reputation. The building, unsuited in many ways to the work, was adapted as well as possible by our managers to its purpose and with forbearance and patience on the part of our several matrons and pupil nurses, most excellent work was done. February 1st, 1887, saw us moving into our *own* hospital building, the foundation, we trust, of a work for women and children, the training of nurses and the medical education of women which will endure here in San Francisco for all time. The building we now occupy contains 25 rooms and wards, besides its kitchen, laundry, servants rooms, bath-rooms, and diet kitchen. It is called the Children's Hospital, and we look forward to the time—speed the day—when it will be devoted exclusively to their care as it is so well adapted in all respects for that work. As yet our free beds are entirely

reserved for children. There is, however, one exception—a surgical bed for women which is always occupied by a patient from among the laboring poor of our Dispensary Clinic. Often by a few weeks care here some such sufferer is restored to health and “bread-winning” again. We have also six rooms where women who can afford to pay may find the best of care, and so far we have been enabled to add to the income of the house materially from this service, besides securing experience for our pupil nurses and restoring to health not a few grateful patients. Our Training School has been increased so as to afford accommodation for 16 pupils. Since December, 1880, we have graduated 13 nurses, two of whom are married and one has died. The others are busy workers, earnest and most worthy of the motto “Be ye faithful.” In November, 1887, a Superintendent of Nurses became a necessity, and we were glad to find in our city a graduate of an Eastern training school, who seemed fitted to take the position—Mrs. Clough. Many nurses have entered our school, but it will be seen that comparatively few have graduated. Our limited accommodations in time past, account for this in part, but the same experience as the Eastern schools had, has been our lot. We have found the need of educating the public as to the *kind* of pupils we desired for trained nurses, viz: women of good education between the ages of 21 and 31, healthy, of high moral aspirations, good address, earnest of purpose and with willing hands, who are ready to devote two years for fitting themselves for their profession. To such, the Training School offers a home, instruction by books, lectures, and by the bedside and spending money enough for incidentals. It is hoped that this year may see a Home erected near the Hospital for the residence, out of working hours, of these pupils, that study and recreation as well as rest may be undisturbed by hospital sounds. Miss Lucy M. Fay, 901 Sutter Street, is the Chairman of the Training School and to her all communications on this subject may be directed. The medical education of women has never been forgotten as part of our purpose, but till the past year the opportunity has been wanting. Nevertheless, the following persons have resided in the hospital at various times: Miss S. E. Bayard, 4 months as Medical Student; Dr. Elizabeth Follansbee, 15 months as Resident Physician; Dr. Kate N. Post, 2 years 9 months as Resident Physician; Miss Mary E. Freeman, 11 months as Medical

Student; Dr. Francis Wetmore, 1 month as Resident Physician; Dr. Marcia Gilmore, 15 months as Resident Physician; Dr. M. D. Fletcher, 1 year as Interne; Dr. M. E. Bennett, 1 year as Interne; Dr. E. M. Yates, term unexpired as Interne; Dr. Elizabeth Gallimore, term unexpired as Interne; Dr. E. C. Lafontaine, term unexpired as Externe; Dr. T. C. Park, term unexpired as Externe.

Thus it will be seen that at present the authority of the Hospital is in the hands of the Attending Physician during the quarter for which she serves. The Internes, recent graduates of medicine, *reside* at the Hospital and carry out the details of the work. The Dispensary at 1016 Mission street, has during the past year suffered two "moves," hence the falling off in the number of patients. General clinics are held daily from 9 till 11 in the forenoon and special ones from 3 till 4 in the afternoon. Monday, Wednesday and Friday afternoons are devoted to the eye and ear clinic, the orthopædic, the lungs and heart and the skin clinic being held on the intervening days. Two externes—recent graduates—have been appointed as assistants at these clinics, and the hope is cherished by the Medical Staff that our outside clinic, or house visitation, may be gradually worked up in connection with the Dispensary. A few cases of diphtheria during the past year, to which have been sent pupil nurses in addition to the Dispensary physicians, have shown how easily lives may be spared, even in the most unfavorable surroundings, when cared for by skilled hands. Thus we have in a small way begun to utilize our hospital for educational purposes. The increasing number of women students of medicine in the two medical colleges of this city, makes us hope to have an experienced resident physician at no distant day, so that the work may be most systematically carried out in every detail, the attending physicians from their manifold duties being unable to give as much time to instruction as they desire. A Maternity Cottage is one of our pressing needs, both for cases which apply to us, and as a means of educating our nurses. Repeated cases during the past year point to the need of a cottage for infectious diseases, near, but not adjacent to the hospital. Where homes are ill-fitted to give them suitable care, cases of measles, diphtheria, some forms of ophthalmia

and skin diseases, as well as scarlet fever and whooping cough, should be treated at the hospital, but so far money has been wanting for this work. We add a report from our clinic at the Boys' and Girls' Aid Society and, also, statistics from the clinic at the M. E. Chinese Mission. In connection with this institution we would say that as the girls marry and go out from the Mission to homes of their own, they cling to the women physicians, and perhaps in thirty families no authority is higher than that of the doctor who is consulted in all important matters. So too, at all our clinics, the medical work is only one part of the advice for which the women come to their doctors.

Thanks are extended to the Consulting Board for their interest, counsel and faithfulness in attendance when called upon, especially since the distance of our new hospital makes the ride a long one. The interests of the Hospital have demanded some changes in our Board, but though not printed on our Consulting Staff, the names of Drs. C. G. Kenyon, J. H. Wythe, L. L. Dorr, Samuel Newman, as well as the clinicians, Drs. E. Sherman, Josephine Woods, Abbie Besom and Ella J. H. Fifield, will be remembered as having each helped to carry on and build up the work.

Thanks, too, seem fitting from us to the Managers and Trustees for their faithful, untiring work of collecting funds for building and current expenses, etc. None can appreciate their labors better than the physicians who have seen them daily and hourly working to secure the new building, its furnishing, and its current expenses. As new faces appear on our Board of Managers from time to time, let none of our old friends think they are forgotten. The work of each one is remembered by us all, and will be apparent in "that day when He counteth up His jewels."

## CHINESE M. E. MISSION.

---

During the year 1883, this department came under the care of women physicians, Dr. C. B. Brown being the first to take up this kind of work, and faithfully carried it on; making frequent visits until September, 1885, when she desired the Managers of the Mission to permit me to carry on the work she had so fully established. During the remainder of 1885 there was very little sickness—only requiring ten visits and thirty-one prescriptions. In 1886 there was a great deal more sickness, some requiring attendance every day. In this year we had two deaths; one from phthisis pulmonalis, and one child from pneumonia. There was seventy-three visits made and one hundred and twenty-four prescriptions. In 1887 there were forty-seven visits, with only thirty prescriptions, and one death from peritonitis, showing quite an improvement in the general health of the girls, which, I think, is due to the change of diet—some changes in the manner of dress.

EDNA<sup>a</sup> R. FIELD, Attending Physician.

REPORT OF THE CLINIC  
OF THE  
BOYS' AND GIRLS' AID SOCIETY,

Corner of Grove and Baker Streets.

---

The following is the report of the physician in charge for 1885:

At the beginning of the present year it was deemed advisable by the Managers of the Children's Hospital to establish a dispensary at the rooms of the Boys' and Girls' Aid Society, making it a branch of the first-named institution. With the consent and co-operation of the Superintendent and Board of Managers of the Aid Society this was done, and I was appointed to take charge of this branch of the work. It was something entirely new at the Aid Society, and necessitated the outlay of some money in the way of providing drugs and appliances, and a suitable place to keep the same, but everything necessary was provided promptly and willingly.

Before the establishment of this branch of this Dispensary, all children of the Aid Society who were sick or ailing were obliged either to get along as best they could without medical advice, or be sent to the Children's Hospital. In case the child was sick enough to demand constant medical care as well as nursing, it was sent to the hospital. All minor ailments, however disagreeable or annoying they might be, were of necessity allowed to go unattended.

Under the present arrangement, each child who has any disease, or is out of health in any way, is carefully examined, advised and prescribed for, at least once each week, and as much oftener as the case demands. In the event of any child being sick enough to require constant care and nursing, it is sent to

the Children's Hospital, where it is cared for as faithfully and tenderly as though it were one of the most favored ones of earth.

During the months of May and June we had an epidemic of measles, which required extra medical attendance, and also the services of a nurse, as patients afflicted with contagious diseases are not admitted to the Hospital. All the cases recovered, with no unpleasant sequelæ.

During the time since the establishment of this Dispensary there has been one death, that of a little girl who died of meningitis.

One case—that of a colored girl some eighteen years of age, who was deemed unfit to be an inmate of either the Aid Society or the Children's Hospital, was sent to the City and County Hospital.

The sanitary condition of the premises I consider as good as possible with the present location. If a change of location could be made, where the children could have pure air and more cleanly surroundings outside of the building itself, there would be less need of the services of a physician or the use of drugs.

I wish to express my thanks to the Superintendent, Mr. Dooley, and the others connected with the institution, for their uniform kindness and the prompt and efficient manner in which all my wishes and instructions have been carried out.

The following brief report will give some idea of the amount and kind of work that has been done:

Number of visits made to Boys' and Girls' Aid Society.....	60
Number of patients treated.....	120
Number of boys.....	51
Number of girls.....	69
Sent to Children's Hospital.....	5
Returned cured.....	4
Died.....	1
Sent to City and County Hospital.....	1

ELLA J. FIFIELD, M. D.,  
Attending Physician.

Superintendent E. T. Doley in his annual report says in regard to the Children's Hospital: A branch clinic of this genuine and effective charity has been maintained in our depot during the year. Skillfully and successfully, and with a tenderness that only woman displays (reaching deeper than the mere *physical* ailment) have our many sick children been treated by these good ladies.

Mrs. Dr. Ella J. Fifield has been the attending physician, coming regularly once a week and responding promptly and cheerfully to our many calls beside—often twice and occasionally three or four times during the week—throughout the year, and all without compensation.

The peculiarly delicate and harrowing nature of much of the work of this department could not be intelligently detailed in any report, even if propriety permitted the attempt.

In 1886 Mr. Dooley writes under the heading, "Sanitary and Medical." Mrs. Dr. Ella J. Fifield, who was our attending physician last year, resigned, shortly after the last annual report was issued, to take up her residence in Petaluma. In her departure, we lost a skillful physician and the effective co-operation of an excellent woman. In her place, the Misses Dr. Agnes and Isabel Lowry were appointed, and they have served us faithfully and well, without compensation, up to the present time. For details of their work, I refer to the physician's report elsewhere.

---

#### THE DOCTORS LOWRYS' REPORT FOR 1886.

In August last (1885) we were appointed Physicians to the Boys' and Girls' Aid Society, and since that time have paid as many visits as were found to be necessary. There was much sickness during the winter, and attendance several times a week was often required. This, however, has gradually diminished, and at present the general health of the Home is better than it has been for a year. When the migration to purer air and more commodious quarters occur we hope, by attention to hygienic and preventive measures, to reduce the sick roll to still smaller proportions.

The lack of many sanitary arrangements, which we look forward to having in the new building, inefficient drainage, and the location in a crowded district of the city, have been held responsible for a large part of the illness. But account must also be taken of the enfeebled constitutions and inherited tendencies to disease with which so many of these little beings are ushered into the world, as well as that total neglect of moral and physical well-being from which they are so frequently rescued. The details of some of these cases have been of a most painful character, and, perhaps, no one has better opportunities than the physicians for realizing and appreciating the saving nature of the work done by this Society.

Each child, who seems at all ailing, is the object of careful supervision, and when possible is prescribed for at the clinic, and retained at the Aid Society. Good food and the Matron's excellent care do much in the building up of those who come into the institution in poor general health. But the total absence of suitable accommodations for patients seriously ill, necessitates the admission of the graver cases to the Hospital for Children. Ten boys and seven girls were received there and cared for, for an aggregate of fifty-seven weeks. All were returned benefited, with the exception of one, a boy, who escaped from the building. In cases of over-crowding of the Children's Hospital, or where it was deemed inexpedient, six cases were sent to the City and County Hospital, two children were sent to the Home for Feeble-minded Children, and whenever practicable, efforts have been made to have delicate children, who would be thereby benefited, sent to country homes. One of these, a young Russian girl with pulmonary consumption, was sent to Los Angeles (where she was boarded at the Society's expense), with the hope that removal to a warmer climate might retard the progress of her malady. Visits have also been made when required to the wards of the Society at the Infants' Shelter, or in their own homes.

No serious epidemics have visited the institution. Mumps and whooping-cough at one time threatened to reign supreme, and there have been occasions when all the boys have coughed in chorus and been dosed in squads, but minor ailments and speedy recoveries have been the rule. A few serious cases of pneumonia,

pleurisy, convulsions, and a badly fractured limb gave cause for anxiety for a time, but no deaths have occurred.

In all our work we have received most efficient aid and co-operation from Mr. Dooley and others in the Society. Dr. Elizabeth Sargent has kindly assisted us by taking charge of the eye cases, and Redington & Co. have supplied us with many of the drugs required free of charge.

ISABEL LOWRY, M. D.

AGNES LOWRY, M. D.

---

#### REPORT OF THE CLINIC FOR 1887.

The Clinic has been actively carried on during the year. The greater part of the time it was under the efficient charge of Dr. E. R. Field. Upon the resignation of Dr. Field I was appointed to fill the vacancy. The Clinic has been under my care since November 1st.

The health of the children has been good as it should be in the new house. Nevertheless, quite a number of sick children have been brought to the Society and have been attended by us. Some of them were sent to the Children's Hospital where they were treated and nursed for an aggregate of two hundred weeks. The Clinic is now in a flourishing condition. Visits are made regularly once a week and oftener when occasion demands.

During the year the

No. of visits made was.....	41
No. of patients treated.....	152
No. sent to Children's Hospital.....	33
No. sent to County Hospital.....	1
No. of deaths.....	0
No. of prescriptions put up.....	129

On three separate occasions all the inmates requiring it were vaccinated.

EMMA S. MERRITT, M. D.,  
Attending Physician.

JOHN F. MERRILL .....	Corner Market and Beale streets
JOHN TAYLOR.....	63 First street
W. F. WHITTIER.....	S. W. Corner Pine and Front streets

The Trustees are pleased to say to the many friends of this institution, that the Hospital Building is completed, furnished, equipped, and is now occupied by the many little ones under its care, and the Trustees sincerely congratulate the Board of Managers upon the successful termination of its long, earnest and patient efforts.

The two-story building just completed is 114 feet long by 89 feet deep, and occupies a piece of property having a frontage of 257½ feet on California street by 132½ feet on Maple street, which is entirely enclosed by a substantial tight-board fence, within which are sheds, cow-house, chicken yard, etc.

The Hospital is easily reached by the Geary, Sutter and California street cable cars to Central Avenue, and thence by Cali-

fornia street horse cars, which pass by the building. All who take an interest in the work this beneficence has in charge will be received with welcome.

The Hospital buildings and the grounds have been acquired entirely through voluntary subscriptions, and to those who have given, a knowledge of the good done through their noble and generous contributions, is a sufficient recompense, but the Trustees desire that all who have contributed to the founding of the Hospital for Children and Training School for Nurses, may know in what manner the money, property and material have been expended and utilized.

The statement is as follows:

JESSIE ASTREDO *	WINNIE OSBORN *
BESSIE KIRKE,	LOTTIE CAFFALL †
KATIE DEWAR,	MRS. ANNA E. HUNT,
CORA HICKS,	MOLLIE MURPHY,
CLARA GOSTICK,	BELLE McALLESTER,
KITTIE ESTEP,	MARY McAULIFFE,
HATTIE WILSON.	

---

N. B.—\* Married since graduated. † Died.

## TRAINING SCHOOL FOR NURSES.

---

The Directors of the Hospital for Children and Training School for Nurses have made arrangements for giving a two years' training to women desirous of becoming professional nurses, at Hospital, 3700 California Street, San Francisco.

Persons wishing to receive this course of instruction must apply to Miss Lucy M. Fay, 901 Sutter Street, San Francisco, Cal.

The most desirable age for candidates is from twenty-one to thirty-one years; they must be in sound health, and must present, on application, a certificate from some responsible person as to their good character. After approval by the Superintendent of the School, and the Resident Physician of the Hospital, they are received for one month on probation. During this month they are boarded and lodged at the Hospital, but receive no compensation.

They are under the authority of the Resident Physician and the Superintendent, and are subject to the rules of the Hospital. Their fitness for the work, and the propriety of retaining or dismissing them at the end of the month of trial, is determined by the Resident Physician of the Hospital and the Superintendent and Directors of the School; and the same authorities may also discharge them at any time, in case of misconduct or inefficiency. They reside in the Hospital, and serve as assistant nurses in its wards.

### TRAINING.

Those fulfilling the conditions of the probationary month are accepted as pupils. They must sign a written agreement to remain at the school for two years, and to conform to its rules.

The instruction includes:

1. The dressing of burns, sores and wounds; the preparation and application of fomentations, poultices and minor dressings.
2. The application of leeches and subsequent treatment.
3. The administration of enemias.

4. The best method of friction to the body and extremities.
5. The best means for the moving of patients, changing their clothing, giving baths in bed, and preventing bed sores.
6. Bandaging; making bandages and rollers; lining splints.
7. Making patients' beds; changing sheets while a patient is in bed.

They are taught to prepare food for the sick, and to secure, as far as possible, proper ventilation; to observe accurately the state of the secretions, expectorations, pulse, skin, appetite, temperature, sleep, eruptions, effect of diet, or of stimulants or medicine. They are also instructed with regard to the management of convalescents. This instruction is given mainly by the Superintendent and by the head nurses. Lectures, recitations, demonstrations, also take place at stated periods.

Examinations will take place from time to time, relative chiefly to practical points.

The pupils are employed as assistant nurses in the wards of the hospital, and are paid ten dollars (\$10) a month, during the first year, for their clothing and personal expenses. This sum is in no wise intended as wages, it being considered that their education during this time is a full equivalent for their services.

At the expiration of one year they receive such increase of pay as the Directors shall see fit. During both years of the course they board and lodge at the hospital.

When the full term of two years is completed, the nurses thus trained receive (after final examinations) diplomas certifying to their knowledge of nursing, their ability, and good character.

The directors reserve the right to terminate the connection of any nurse or pupil with the school, for any reason which they may deem sufficient.

This paper is to be filled out (in the candidate's own handwriting) and sent to Miss Lucy M. Fay, 901 Sutter Street, San Francisco, Cal.

1. Name in full and present address of Candidate.....
2. Are you a single woman or widow?.....
3. Your present occupation or employment?.....

4. Age last birthday, and date and place of birth? .....
5. Height?.....Weight?.....
6. Where educated? .....
7. Are you strong and healthy? And have you always been so?.....
8. If a widow, have you children? How many? Their ages? How are they provided for?.....
9. Where (if any) was your last situation? How long were you in it?.....
10. The names in full and addresses of two persons to be referred to. State how long each has known you. If previously employed, one of these must be the last employer.....  
                                     has known me        years.                      has known me        years.
11. Have you read, and do you clearly understand the Regulations?.....  
                                     I declare the above statement to be correct,

Date .....18

Signed, .....  
                                     Candidate.

## INFORMATION

### AS TO THE FOUNDING AND MAINTENANCE OF BEDS.

In response to numerous enquiries, the Managers of the Hospital for Children and Training School for Nurses beg to state as follows:

1. By furnishing bed and bedding, and the additional gift of \$100.00, the donor will be entitled to name a bed, the name to be continued so long as the necessary furnishings are kept in order. By consent of the Board of Managers, the donor may suggest who shall occupy the bed, subject to the rules of the Hospital, it being understood that this amount does not support a free patient.
2. Any church association or individual contributing three hundred dollars in one payment is entitled to control one bed for one year, and to name the occupant for the same.
3. Any church, association or individual contributing three thousand dollars is entitled to control one bed for thirty-three years, and if this amount be increased to five thousand dollars within two years after the original payment is made, said control is made perpetual.
4. Any church, association or individual contributing five thousand dollars is entitled to control one bed perpetually.

## LIFE MEMBERS.

---

By the payment of \$50.00, at one time, a person can become a Life Member. The following are Life Members:

MRS. A. L. STONE,	MRS. LUCY M. FAY,

Office hours, 1 to 3 P. M.

*Wednesday and Saturday*—7 to 8 P. M.

Mary W. Moody, M. D. . . . . 2520 Howard Street  
Office hours, 1 to 3 P. M.

## President's Address.

---

### *Members of the Board of Managers and Friends :*

Except for the unusual difficulty which for a good part of the year attended procuring funds for carrying on the work of the Hospital, the record for the year has been for the most part a repetition of previous experience. In common with other charitable institutions dependent on contributions from the public, our revenue was much reduced, owing to the business and financial depression which has affected all classes.

The outlook at times during the past six months was discouraging in the extreme, but thanks to the generous response to our appeal for aid issued just before Christmas and to the fact that the bequest of the late Mrs. Hewes—which we had hoped to use towards discharging the mortgage on the Hospital property—was used for paying bills contracted for current expenses, we are enabled to enter upon the new year in much better condition than we had anticipated. We hope that 1894 will see a revival of public prosperity, for on this the welfare of the Hospital, in the absence of an endowment sufficient to carry on the work, in no small measure depends.

When the incomes of the rich are much reduced and those of moderate means greatly curtailed, or perhaps temporarily cut-off, it is obvious that contributions for charity must proceed from a spirit of self-sacrifice, not to be expected upon any extended scale.

I desire to again call the attention of the members of the Board to a subject which has been referred to in previous reports—a subject that in view of the experience of the past year seems to demand prompt and careful consideration. This is the securing of monthly subscriptions to an amount which will obviate the necessity of frequent appeals to the public to patronize entertainments given on behalf of the Hospital. The work attending these, including the disposal of tickets, involves so much time and labor and is attended with so many annoyances, that it would be a great

advantage if the monthly subscription plan was substituted. To do this it is only necessary for each of the thirty ladies on the Board of Managers to secure subscriptions to the amount of \$25 each month. This would bring to our treasury \$750 for that period—a sum, which in addition to the income from adult patients and what might be expected from donations—would render the giving of entertainments, for the purpose of raising funds, quite unnecessary. The giving of a monthly sum, however small, to the Hospital by each of a considerable number of persons, is calculated to greatly extend the public knowledge of its beneficent work, which in some quarters is to a surprising extent lacking. Each donor naturally feels a personal interest in an institution which his benevolence helps to support, for we have the Master's word for it that where the treasure is there will the heart be also.

It is at this period, when we review the condition of the Hospital, that its growth in usefulness becomes most apparent. As we visit it from time to time in the performance of our duties this growth is not noticed, but when facts and figures are presented, we are surprised at the extent and success of the work in its various departments. The year just ended, as will be shown by the reports of your Secretary and Treasurer, records a larger number of patients cared for than during any similar period in the history of the Hospital. In this connection it may be stated that statistics presented at the recent Congress of Nurses at Chicago shows that ours is the largest Children's Hospital in the United States, yet despite this there are not a few among the citizens of San Francisco who are ignorant of its existence. When this fact becomes more widely known in our city and State, may we not hope that the name of the Children's Hospital will not so often be conspicuous by its absence in the wills of charitably disposed persons who have failed to inform themselves of our claims upon their generosity.

The year, as regards the work of our Training School for Nurses, has been highly successful. Its reputation as a place for the education of nurses of high character, skill and general efficiency in that humane profession has been fully maintained. The attainment of that object has this year been facilitated by the lectures and demonstrations given to the classes in training by the

Physicians and Surgeons of the Medical Staff. For this service we are under deep obligations to those by whom it has been so generously performed.

We have hoped that before this time we should have been able to erect upon our grounds a building for a "Nurses' Home" for which there is a great necessity. In similar institutions in the East and elsewhere this is found a necessary adjunct—as it is only by having a separate building in which rooms are provided exclusively for the use of nurses when not on duty—that their health and comfort is best secured.

The Maternity Cottage has more than fulfilled anticipations as to its usefulness in the noble work for which it was designed, and abundantly proved the wisdom of the gift which made possible its erection as an addition to the Hospital, thereby affording a more complete education in that branch of nursing of such vital importance to our school.

The number of births at the Cottage for the year was 40 against 9 for the year previous. All who have sought the kindly care and enjoyed the abundant comforts to be found there, without exception, are loud in their praises of this humane and useful department of the Hospital.

The Dispensary has during the year been removed to a new location, affording better facilities for carrying on its useful work. The demands upon the Physicians in charge of the Clinics for treatment have been heavy.

As showing the reputation of the Hospital abroad, it is worthy of note that applications for the position of Interne have been received not only from all parts of our own country, but from England, in some of the Hospitals of which our work seems to have become well known. While this is a gratifying circumstance, we have not departed from our rule of giving to capable graduates of local Medical Schools the preference in making such appointments.

It is with a feeling of grief that for the last time a name which has rarely been absent from these reports is mentioned here—Mamie Ryan, who entered into rest only the other day—long shared in the bounty of the Hospital. I will not call it bounty, for the poor child, in her example of constancy and love, gave far

more than she received. In all kindly hearts who knew her, her memory will long be treasured.

During the year, much to our regret, we were compelled to accept the resignation of Dr. Hagadorn, ill-health forcing her retirement before her term as Resident Physician had expired. Dr. Hagadorn was succeeded by Dr. Overacker—who has filled her position with much credit to herself and the advantage of the Hospital.

We are under renewed obligation to our efficient Superintendent of Nurses, Miss Wallace, and to our very capable Matron, Mrs. Fuller. The success of the Hospital work has been much promoted by their careful and unwearied attention.

The report of your Treasurer shows in detail the names of our generous friends and the sum of their gifts during our Donation Days. The total of these benefactions is the largest we have ever received on these occasions and the quantity of supplies sent was a most timely addition to our stock. That this should have been the case, at a period of unusual distress and privation, is a touching circumstance and one which should make us grateful to Him who thus inspired the hearts of those who so kindly remember our little ones in their time of need.

I have again occasion to thank my fellow-members of the Board of Managers for their kind and hearty co-operation in the work of the year, and also desire to express to our Trustees our appreciation of their efforts on behalf of the Hospital.

It has been a period of storm and stress. At times it has seemed as if the vessel with its precious freight—so dear to our hearts—was perilously near the rocks. Thanks to kind Providence, the headland light of charity and love again sheds its beneficent rays upon us. May its kindly beams never be obscured to all whose toil it is to make life's voyage happier to others.

Respectfully submitted,

MRS. WILLARD B. HARRINGTON,

*President.*

## Secretary's Report.

---

*To the Board of Trustees, the Board of Managers and Members of the Association of the Hospital for Children and Training School for Nurses:*

LADIES AND GENTLEMEN: We present for your consideration the following report of the work of the Hospital, Training School and Dispensary for the year ending December 31, 1893:

The Board of Managers has held sixteen meetings during the year—eleven regular, four special and the annual. All were well attended. Since our last annual meeting, we have had the misfortune to lose two of our best workers, Mrs. J. F. Merrill and Mrs. W. J. Dutton, who were compelled, on account of ill health, to lay down their work for a time. Their interest has continued unabated, and we hope to have them with us again at no distant day. Another of our members, than whom none has done more earnest and efficient work, Mrs. Henry Dutton, Jr., has not been with us for a number of months, owing to illness. We have missed her very greatly, and the heartfelt sympathy of her fellow workers goes out to her.

After very efficiently fulfilling the arduous duties of Treasurer for nearly six years, Mrs. J. H. Dickinson resigned at the last annual meeting, much to the regret of the Board, and Mrs. F. H. Green was elected her successor.

There has been a great deal of illness among the members of the Board during the year, and those who have been able to work have found the burden heavy, but have carried it cheerfully. Entertainments for the benefit of the Hospital have been few, and only one—the baseball game between the Bohemian and University clubs—has been given under the auspices of the Board. This one was very successful, netting the Hospital \$809.70, and the San Francisco Polyclinic, with which we were agreeably associated, a like amount. It was a timely benefit, as our treasury

had become sadly depleted. Not for many years have we had such a struggle as during the past year. Owing to the financial stringency, many of our regular subscribers discontinued their subscriptions, and donations were fewer. For the same reason, we were called upon to care for more sick women and children free of charge. It has been a hard year, and our faith has been sorely tried. When the outlook seemed the darkest, the time for our annual "Donation Days" arrived. The earnest appeal made to the public brought forth the most gratifying response—over \$4000 (\$1000 of which was a gift from Mrs. A. J. Pope, and \$500, Mr. J. L. Flood's annual donation) were received, besides provisions, clothing and toys and a number of monthly subscriptions, for all of which the Board of Managers returns hearty thanks. Through this munificence, our Treasurer has been enabled to pay all bills, many of which were of long standing. Our tradespeople have been very generous with us, for which we are most grateful.

With the settlement of the estate of Mrs. Anna M. Hewes, five \$1000 bonds were received. It had been the desire of the Board to apply these to the payment of the mortgage on our building, but it was found necessary, instead, to realize on them in order to meet current expenses.

There have been in the Hospital, during the year, 248 women and 315 children ; the average number in the hospital each month was 37 women and 79 children. There were 40 births and 24 deaths ; of the latter, 19 were children. One hundred and twenty-five more women and children were cared for in 1893 than in the preceding year. Of the deaths, one, that of Mamie Ryan, was of special interest. She had been an inmate of the Hospital so many years that we looked upon her as almost a part of it. By her happy, sunny disposition, she had endeared herself to all. Her life was one long lesson in patience, cheerfulness and Christian resignation never to be forgotten. Her gift to the Hospital of \$10, money received from friends from time to time, has been placed in the Endowment Fund to bear interest and aid in carrying on the good work. Like the "widow" of old, she "gave not of her abundance," but "cast in her all"—and who can calculate the good that it may do?

At the annual meeting, Drs. Von Hoffmann, Blake and Murray were added to the Hospital Staff. Dr. Von Hoffmann was

placed in charge of the Obstetrical service ; Dr. Blake, the Medical service, with Dr. Wanzer and Dr. Murray, the Contagious service. On account of departure from the State, Dr. Murray resigned in February, and Dr. A. P. Woodward was appointed to fill the vacancy. The Hospital Staff has worked devotedly and untiringly for the good of the Hospital, and the Board of Managers extends to them its grateful acknowledgments. The calls upon them have been many, but they have responded to them cheerfully.

In September, Dr. Hagadorn, our Resident Physician, was compelled to resign on account of ill health, much to the regret of all connected with the Hospital. By her courteous manner, and her faithful and conscientious discharge of her duties, Dr. Hagadorn had gained the respect and admiration of all with whom she came in contact. She has the sympathy and best wishes of the Board, which hopes that in the milder climate of Southern California she may regain her health. Dr. Overacker was appointed to fill the vacancy, and is doing good work.

Of the Internes, Dr. Croacher's term expired in May, but she kindly consented to remain until the last of June ; Dr. Nixon's expired with the close of the year. Drs. Taft and Hutchins entered in July, and Drs. Walker and Van Harlingen have been appointed for the coming year. Miss Potter, our Druggist, has divided her time between the Hospital and Dispensary, rendering valuable services to both institutions. In August, Mr. A. Auchie Cunningham was appointed Chemist to the Hospital.

The Contagious Cottage has had its full quota of cases. Scarlet fever, measles, whooping cough and chicken-pox have found their way into the Hospital, but so promptly have the cases been removed to the Contagious Cottage that there has been no epidemic.

Our Maternity Cottage, as the real estate advertisements say, "must be seen to be appreciated." Nowhere can be found a more dainty, beautifully equipped and cared for institution. While Dr. Von Hoffmann is the Attending Physician at the Cottage, any physician in good standing may place his patients therein and care for them himself. There have been 40 births in the Cottage this year.

Our Training School has continued to improve until it now

stands second to none. The credit of this is largely due to Miss Wallace, the very efficient Superintendent of the School. Loving her work herself, she has succeeded in inspiring the nurses with the same loyalty and devotion to a profession than which there is none nobler. Ten nurses have graduated this year. Of our graduates, the majority settle in this city or State, but some have gone abroad. Three are at present in Honolulu, and one recently left a lucrative position in this city to take up missionary work in Northern India.

Dr. Jennie M. Simpson has again given her services as Dentist to the Hospital, for which the Board of Managers desires to thank her.

Our Kindergarten, so unlike any other in the city or, in fact, in the entire country, as we believe our Hospital is the only one having a Kindergarten in connection with it, is a place of great interest. The little bodies of those attending it may be misshapen, deformed and diseased, but the little minds are bright and active, and the desire to learn is as strong in them as in their more fortunate brothers and sisters. In Miss Griswold they have an enthusiastic teacher. The children under her care are constantly changing, and a teacher less in love with her work would become discouraged. The good accomplished in this little corner of the Hospital will never be known; many a little one will look back to it as an oasis in an otherwise barren life.

Mrs. Fuller has discharged her duties as Matron conscientiously and well, as the condition of the Hospital bears witness. Miss Welton and Miss Shattuck have done good work in the office.

Two memorial beds have been established this year,—the "Flora," by Mrs. E. L. Goldstein, and the "Clark Crocker," by Mrs. Clark W. Crocker.

A very great improvement in the appearance of the Hospital, as well as an expensive one, was caused by the paving of Maple street and California street the entire length of our property. For the improvement of our grounds, we are indebted to Mr. Adolph Sutro, who gave the plants and the services of his gardener.

The Board of Managers desires to cordially thank the Golden Circle of King's Daughters of the Presidio, of which Mrs. Graham

### Maternity Cottage Report—1893.

---

On hand January 1, 1893. . . . .	\$ 869 20
Received in May from Mrs. C. B. Alexander . . . . .	500 00
Received from Patients . . . . .	2,330 85
	<u>\$3,700 05</u>
Expenditures for 1893. . . . .	2,998 49
On hand January 1, 1894 . . . . .	<u>\$ 701 56</u>

There have been 40 births in the Cottage during the year.

Thanks to Mrs. C. B. Alexander, the Cottage is a most comfortable home, as all who have been inmates can say ; its appointments are quite complete, and give patients the assurance that its comforts cannot be found in boarding houses or hotels.

Patients from the country, as well as from the city, desiring to avail themselves of the advantages of the Cottage are furnished with the services of the most skilled medical practitioners. Charges \$12.50 to \$30 per week, according to rooms.

## The Endowment Fund.

The year 1893, a year of financial stringency for everybody, has been one demanding exceptional economy on the part of the Board of Managers, and making it necessary that all moneys coming into the treasury be used for current expenses. For this reason, the Endowment Fund has not been added to.

Mr. Donald de V. Graham's annual concert for the benefit of the fund was this year to have been replaced by Mr. H. J. Stewart's opera, "Bluff King Hal," given under the care of Mr. Graham and Mr. Stewart, but the only possible date for it conflicted so seriously with other engagements of the Managers that the giving of the opera was reluctantly postponed.

The extreme difficulty of meeting the current expenses this year makes the Managers all the more anxious that there shall be soon an Endowment Fund worthy of the name, so that, assured of a permanent and sufficient income, they may look forward to the perpetuity of the institution for which they have all worked so hard.

### REPORT OF TREASURER OF THE ENDOWMENT FUND.

MRS. I. N. WALTER,  
*Treasurer.*

## The Crutch and Splint Fund.

### Trustees:

SIDNEY V. SMITH,                      WINFIELD S. JONES,  
J. LEONARD ABBOTT, JR.

The income of the fund has been paid by the Trustees to the Orthopedic Surgeon of the Hospital, and by him has been expended in the manner indicated in the subjoined statement. It would be difficult to estimate the help this fund is in the technical work of the entire Orthopedic Staff of the Hospital in addition to its original and intended beneficent work for the patients. It is, too, a cause of much solace that its effects are to be always enjoyed—for the principal is never touched, the income alone being expended.

### RECEIPTS.

ELIZA S. BLAKE,  
*Treasurer.*

This fund, though not yet of very large proportions, is already aiding in the support of the Hospital. Large sums rarely come to the Treasurer of the Hospital, and the heavy expenses have to be met by the aggregate of many small—some of them very small—amounts. It is a relief to be able to feel that each half year a certain and increasing sum of money may be confidently expected from the Berkeley Surgical Ward Fund.

## Report of Resident Physician.

*To the President, Ladies of the Board and Friends of the Hospital:*

It is my pleasure to present to you a few facts concerning the work done in the Hospital during the year 1893:

Number of Patients in Hospital January 1, 1893 . . . . .	71
Number of Patients received during 1893 . . . . .	563
Number of Children treated during 1893 . . . . .	315
Number of Adults treated during 1893 . . . . .	248
Number of Free Beds for Children during 1893 . . . . .	114
Number of Free Beds for Adults during 1893 . . . . .	26
Number of Births . . . . .	40
Number of Deaths. . . . .	24
Number of Operations . . . . .	300
Number of Prescriptions filled . . . . .	4224

### NATIVITY OF PATIENTS.

KATE OVERACKER,  
*Resident Physician.*

## Rules.

I. The Institution shall be under the charge of the Resident Physician and Matron.

II. Patients admitted and discharged by the Resident Physician, subject to the approval of the Attending Physician. No patient allowed to leave the Hospital except by permission of the Resident, or Attending Physicians.

III. Meals shall be served punctually at 7 A. M. (for patients, 8 A. M.), 12 M. and 5 P. M. Children allowed lunch, morning and afternoon.

IV. Visitors are not allowed to distribute food, fruit, confectionery or liquors to any patients.

V. Patients must pay for any extras they desire.

VI. Visiting days are Tuesdays, Thursdays and Sundays, from 2 to 4 P. M. No one admitted in the evening.

VII. Lights in the Wards must be out at 8 P. M., and all lights in the Hospital must be out at 10 P. M. During the hours from 9 P. M. to 6 A. M. the house must be kept quiet.

VIII. All complaints must be made directly to the Attending or Resident Physicians; and, in case of their inability to remove the difficulty, they shall report to the Managers.

IX. A kind and courteous demeanor is expected on the part of nurses and other employees toward all with whom they come in contact.

X. Neatness and punctuality are expected from all the inmates of the Hospital.

## Information as to the Founding and Maintenance of Beds.

In response to numerous inquiries, the Managers of the Hospital for Children and Training School for Nurses beg to state as follows:

1. By furnishing bed and bedding, and the additional gift of \$100, the donor will be entitled to name a bed, the name to be continued so long as the necessary furnishings are kept in order. By consent of the Board of Managers, the donor may suggest who shall occupy the bed, subject to the rules of the Hospital, it being understood that this amount does not support a free patient.
2. Any church, association or individual contributing \$300 in one payment is entitled to control one bed for one year, and to name the occupant for the same.
3. Any church, association or individual contributing \$3,000 is entitled to control one bed for thirty-three years; and if this amount be increased to \$5,000 within two years after the original payment is made, said control is made perpetual.
4. Any church, association or individual contributing \$5,000 is entitled to control one bed perpetually, or in lieu thereof, may name a room of one or more beds, and such room shall be known thereafter by such name.
5. The gift of \$150 will entitle any person or society to support a child's bed for one year.

### LIST OF FURNISHINGS FOR ENDOWMENT BED IN THE CHILDREN'S HOSPITAL.

Spreads,	One pair White Blankets, size, 66
Two Pillows,	by 80 inches; to be cut in two
Six Sheets, 2½ yds. long, 1½ yds. wide.	and folded, as no crib blankets are long enough.
Eight Pillow-slips; length, 24 in.; width, 17 in.	One pair of Colored Blankets, to be used instead of mattress.
One dozen Towels.	One case of Drawers.
Two Bath Towels.	One Iron Bedstead.
One Hot-Water Bag.	One small Chair.
	One Rubber Blanket.

Bedding to be marked with name of Bed in red French cotton.  
Any extra article can be furnished as the donor wishes.

## Report of the Training School.

---

### *To the Board of Managers of the Hospital for Children and Training School for Nurses:*

LADIES : The annual report of the School, which I now have the pleasure of presenting to you must necessarily be a short one, recording as it does a year's work quietly pursued in connection with the Hospital.

In its routine duties daily accomplished there is not much to record, while in revolutionary periods many obstacles are met which, though tending to interesting narrative and ultimate harmony and good, are not so pleasant to encounter and live through. I think I may safely say we have passed through our revolutionary period and are now organized into a Training School, with its different departments nearly complete.

Our last effort has been to establish district nursing in connection with our School, and, through the physicians at the Dispensary on Mission street, this work has been most successfully carried on. The work has met with the most willing co-operation of the Nurses in its establishment. Much good has been accomplished, for in this work we prove nursing is a work which does develop all that is best and highest and most womanly.

Occasionally the question is asked, "Is not our present mode of nursing very expensive compared to what it would be without a Training School?" Let us see. As the Hospital is now, we should require at least twenty-five untrained persons to do the nursing. Their wages per month would, at \$25 per month, be \$625; board and laundry, \$240.50. Total per annum, \$10,386. In addition, it would be necessary, from time to time, for the Hospital to engage, for patients requiring extra care, nurses who charge from \$20 to \$25 per week, and you know, as a rule, the patients themselves could not defray it. With the present arrangement, the pay roll—which includes the salary of the head of the

Training School and what is allowed the Nurses for their uniforms and text books, and not as a remuneration for services given—does not exceed \$340 per month; board and laundry work, \$329. Total per annum, \$8,028. From this deduct the earnings of the School, which are about \$1,100, and it will be seen that it does not cost the Hospital quite \$7000 a year in actual disbursements.

A kindly interest in the School and its work seems to be increasingly evinced by friendly outsiders, and the Guild of St. Barnabas for Nurses has to thank Dr. Brown and other kind friends for their entertainments once a month.

The Training School, as it now stands, is composed of thirty-three Nurses and a Superintendent; connected with the School is a Board of Lecturers and Examiners; and, finally, there is a Board of Managers, which is ultimately responsible for its direction and management.

We have had over 280 applicants for entrance into the School during the year. Of these, 26 were admitted on probation, 21 of whom proved desirable and were appointed pupil-nurses. Six Nurses have been dropped from the School for various reasons, and a class of 10 Nurses graduated.

We have to thank our Visiting Physicians and Surgeons for the lectures so kindly given once weekly, and for the care and trouble they have taken in conducting the examinations; and the House Staff, for much kindness and instruction given to the Nurses while on duty in the wards.

And, in concluding, we would thank our Board of Managers, through whose support and encouragement we have been enabled to develop the work of the School and bring it to its present state of efficiency and usefulness.

Respectfully submitted,

ELSIE WALLACE,

*Superintendent.*

## Regulations for the Training School for Nurses.

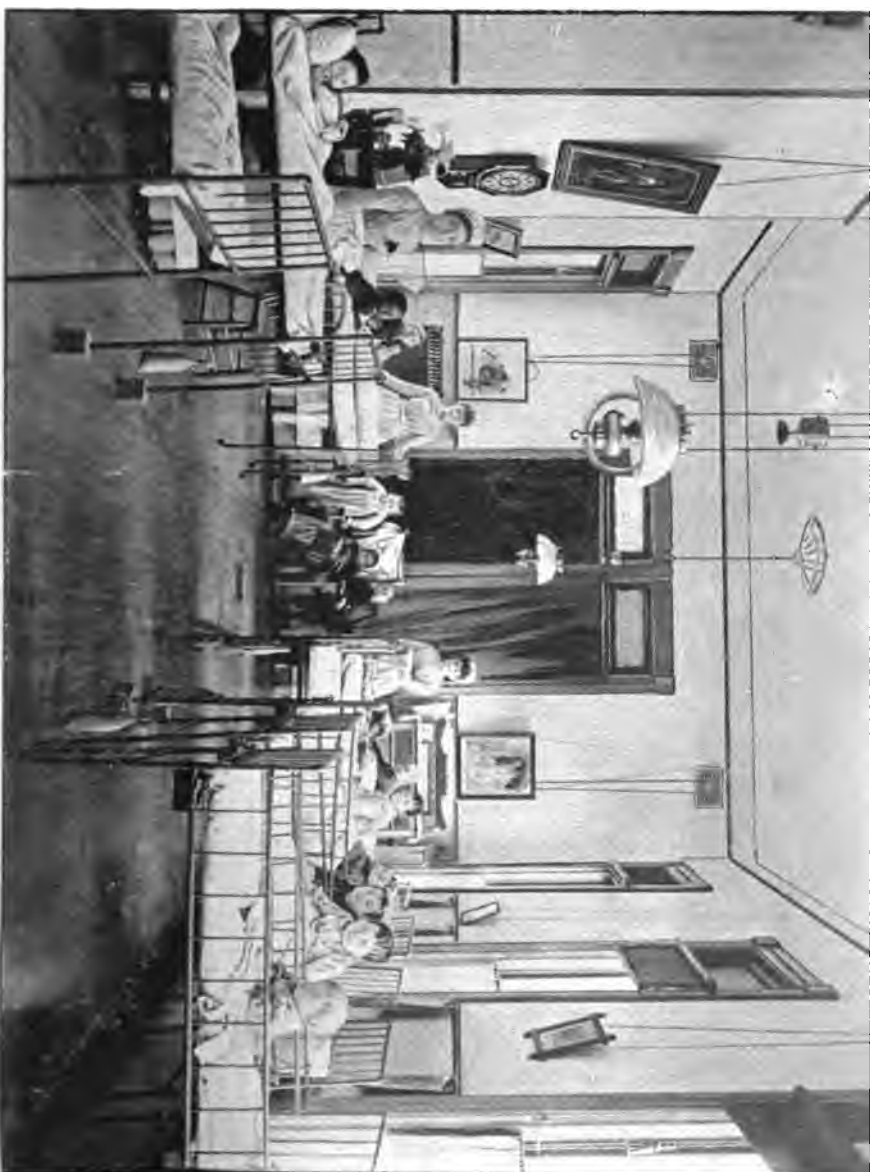

---

The Directors of the Training School for Nurses connected with the Children's Hospital have made arrangements for giving a two years' training to women desirous of becoming professional nurses.

Those wishing to obtain this course of instruction must apply, personally or by letter, to Miss Elsie Wallace, Superintendent of the Training School, 3700 California street, San Francisco, Cal. The most desirable age for candidates is from 21 to 31 years. They must be in sound health, and must present on application a certificate from some responsible person as to their good character. After approval by the Superintendent of the School and the Resident Physician of the Hospital, they will be received for two months on probation. During the months of trial, and previous to obtaining a position in the School, the applicant must be prepared for an examination in reading, penmanship, simple arithmetic and English dictation. The examination is to test the applicant's ability to read aloud well, to write legibly and to take notes of lectures. This amount of education is *indispensable* for a member of the School, but applicants are reminded that women of superior education and cultivation, when equally qualified as nurses, will be preferred to those who do not possess these advantages. Applications from the domestic class are not accepted.

During these months of probation, the pupils are boarded and lodged at the Hospital, but receive no other compensation. They are not expected to wear the uniform of the School, but must come provided with dresses and aprons of washing material for use in the Hospital. A physical examination will also be made by the Resident Physician.

They are under the authority of the Resident Physician and

SURGICAL WARD, CHILDREN'S HOSPITAL.

the Superintendent, and are subject to the rules of the Hospital. Their fitness for the work, and the propriety of retaining or dismissing them at the end of the two months, are determined by the Resident Physician of the Hospital, the Superintendent and Directors of the School; and the same authorities may also discharge them at any time in case of misconduct or inefficiency.

Nurses are required when on duty to wear the dress prescribed by the School, which is of blue gingham, simply made, white apron, cap, and linen collar and cuffs. They serve for the first year as assistants in the wards; the second year they are expected to perform any duty assigned them by the Resident Physician of the Hospital or the Superintendent of the School, either to act as head nurses in the Hospital or to be sent to private cases among the rich or poor.

Those fulfilling the conditions of the probationary months are accepted as pupils. They are required to sign a written agreement as a guarantee that they will remain two years and faithfully conform to all rules.

The pay for the first year is \$8 a month; for the second year, \$12 a month. This sum is allowed for the dress, textbooks and other expenses of the nurse in connection with her work, and is in nowise intended as wages, it being considered that the education given is a full equivalent for her services.

The day nurses are on duty from 7 A. M. to 7 P. M., with an hour for exercise or rest. They are also given an afternoon during the week, and have a right to three hours of Sunday. A vacation of two weeks is allowed each year.

In sickness, all pupils will be cared for gratuitously, but all time over one week a year will have to be made up.

As the institution is non-sectarian, there are no religious services connected with it, and all nurses are expected to attend the place of worship they prefer once on Sunday.

---

#### COURSE OF TRAINING.

The instruction includes :

1. The dressing of burns, sores and wounds; the preparation and application of fomentations, poultices and minor dressings.
2. The application of leeches, and subsequent treatment.

3. The administration of enemas and use of catheter.
4. The management of appliances for uterine complaints.
5. The best methods of friction to the body and extremities.
6. The management of helpless patients; making beds; changing sheets while patients are in bed; moving; giving baths in bed, and preventing and dressing bed sores.
7. Bandaging; making bandages and rollers; lining splints.
8. The preparing, cooking and serving of delicacies for the sick.

They will also be given instruction in the best practical methods of warming and ventilating sick rooms, and are taught to take care of rooms and wards; to keep all utensils perfectly clean and disinfected; to make accurate observations and report to the physicians of the state of the secretions, expectorations, temperature of the body, pulse, skin, appetite, intelligence (as delirium or stupor-breathing), sleep, condition of wounds, eruptions, formation of matter, effect of diet or of stimulants or of medicines; and to learn the management of convalescents.

This instruction will be given by the Visiting and Resident Physicians and Surgeons at the bedside of the patients, and by the Superintendent and head nurses. Lectures, recitations and demonstrations will take place from time to time, and examinations at stated periods.

At the end of the first year a preliminary examination of each nurse will be held, and, according to its results, she will be rejected, set back in her course, or continued in her work.

When the full term of two years is completed, the nurses thus trained will, on passing an examination, receive diplomas of the School, signed by the Examining Board and by a Committee of the Board of Managers.

The Board of Managers of the Children's Hospital and Training School for Nurses has decided to give a post-graduate course of from three to six months. It shall be open to physicians, graduates of this School, and of other training schools of recognized standing. Students in the post-graduate class will receive no compensation for their services other than their board, room and washing.

For particulars, apply to Miss Elsie Wallace, Superintendent Nurses' Training School, 3700 California street, San Francisco, Cal.

This paper is to be filled out (in the candidate's own handwriting) and sent to the Superintendent of Nurses, Children's Hospital, 3700 California Street, San Francisco, Cal.:

1. Name in full and present address of candidate . . . . .
2. Are you a single woman or widow? . . . . .
3. What has been your occupation? . . . . .
4. Age last birthday, and date and place of birth? . . . . .
5. Height? . . . . . Weight? . . . . .
6. Where educated? . . . . .
7. Are you strong and healthy, and have you always been so? . . . .
8. Are your sight and hearing perfect? . . . . .
9. Have you any physical defects? . . . . .
10. Have you any tendency to pulmonary complaints? Or have you had any throat or uterine trouble? . . . . .
11. If a widow, have you children? How many? Their ages? How are they provided for? . . . . .
12. Where (if any) was your last situation? How long were you in it? .
13. The names in full and addresses of two persons to be referred to. State how long each has known you. If previously employed, one of these must be the last employer . . . . .  
. . . has known me . . . years. . . . has known me . . . years.
14. Have you read and do you clearly understand the regulations? . .  
I declare the above statement to be correct.

Date . . . . . 18

Signed . . . . .

*Candidate.*

# HOSPITAL FOR CHILDREN AND TRAINING SCHOOL FOR NURSES.

3700 CALIFORNIA STREET, SAN FRANCISCO.

..... 18  
This day . . . . . has been  
sent as nurse to. . . . .  
. . . . .  
. . . . .  
Signed . . . . .  
*Superintendent of Nurses.*

## REGULATIONS.

The charge for the services of a nurse is \$3 a day, or if employed one week or more, \$20 per week. Traveling expenses and washing to be paid by the family employing the nurse.

When the nurse's services are no longer required, this sheet of paper is to be returned, sealed, with a candid statement on the fly-leaf, of her conduct and efficiency, either from one of the family or the medical attendant, together with information of the amount to be paid, and whether it is enclosed or will be paid at the Hospital.

The nurse is to be allowed reasonable time for rest in every twenty-four hours, and when her services are needed for several consecutive nights, at least six hours in the day out of the sick room must be given her.

## COPY OF PAPER RETURNED BY EMPLOYERS.

..... 18  
The services of the Nurse . . . . . being no longer required, she is this day set at liberty to return home, and the sum of \$ . . . , being the remuneration for her attendance, is . . . . .  
Signed . . . . .  
Remarks as to comfort, efficiency, etc.

## Schedule for Lectures for the Training School.

### HYGIENE.

*September 1, 8, 15, 22, 29.*

DR. WANZER.

1. *Air*.—Chemistry of the Atmosphere. The Influence of Its Various Constituents on the Animal Body. The Alterations Produced on the Surrounding Atmosphere Through Respiration. Pollution of Air from Various Sources. Ready Methods of Testing the Quality of Air. Ventilation and Heating.
2. *Water*.—Injurious Organic Constituents to be Found in Water. Purification of Water.
3. *Prevention and Limitation of Certain Diseases*.—The Role Played by Bacteria. An Outline of Bacteriological Methods. Ward Infection. Sterilization and Disinfection of Clothing, Apartments, Excreta. Disposal of Excreta.
4. *Food Preservation*.

### PATHOLOGICAL ANATOMY, WITH DEMONSTRATIONS.

*October 6, 13, 20.*

DR. MONTGOMERY.

1. The Circulatory System and its Structure. Demonstration of the Circulation.
2. The Normal Anatomy of the Lungs and Kidneys. Certain Pathological Changes in these Organs. Demonstration.
3. The Alimentary Tract. The Pathological Changes in Typhoid Fever. Demonstration.

### MEDICAL.

*October 27, November 3, 10, 17, 24.*

DR. FIELD.

1. The General Care and Observation of Patients.
2. The Recording of Observations of Temperature, Pulse and Respiration.
3. Nursing in Febrile Diseases, including the use of the Cold Water Bath.

4. The Blood.
5. Nursing in Contagious Diseases.
6. Diet.
7. Medical Appliances, Emergencies and Common Poisons, with their Antidotes.

## SURGICAL.

*December 1, 8, 15, 22, 29.*

DR. SHERMAN.

1. Cell Life. Healing of Wounds. Inflammation.
2. Principles of Aseptic and Antiseptic Surgery. Dressings and Disinfectants ; Their Preparation and Use.
3. Anæsthetics and Their Administration. Care of Patients Before, During and After Operation. Shock and Emergencies.
4. Hemorrhage and Its Treatment. Wounds and Their Treatment.
5. Some Special Operations. Surgical Diseases, Tumors, etc.
6. Fractures, Dislocations, Contusions and Sprains. Prompt Aid to the Injured.
7. Wounds, Accidents, Suppuration, Abscess, Erysipelas, Septicæmia, Tetanus, etc.
8. Principles of Bandaging.

## MEDICINES.

*January 12, 19, 26.*

GRACE M. POTTER, PH. G.

1. The Administration of Medicines.
2. Common Poisons and Their Antidotes.
3. Disinfectants and Antiseptic Solutions.

## GYNECOLOGY.

*February 6, 13, 20.*

BEVERLY McMONAGLE, M. D.

1. Special Anatomy of the Pelvis. Diseases of Woman. Gynecological Instruments.
2. Abdominal Surgery. Technique to be Observed by the Nurse.
3. Post-operative Care of Abdominal Cases. Vomiting, Pain, Tympanites, Catheterization, Position of Patient, Dressings, Enemata, Hypodermic Injections.
4. Peritonitis and Wound-Infection. Modes of Infection, and How to Prevent It. General Gynecological Operations. Preparation for Operation, and the After Care of Patients.

DISEASES OF THE EYE, EAR, THROAT AND NOSE.

*February 28, March 6.*

DR. HOPKINS.

1. The Anatomy of the Eye. Care in Health and Disease.
2. Care after Operations.
3. Anatomy of the Ear. Care in Health and Disease.
4. Disease of the Throat and Nose.
5. Treatment and Nursing of Diseases of Throat and Nose.

OBSTETRICAL.

*March 13, 20, 28.*

C. VON HOFFMANN, M. D.

1. *Pregnancy*.—Organs of the Body Concerned in Pregnancy and in Parturition. (a) The Bony Canal; the False and True Pelvis. (b) The Soft Parts, Uterus, Vagina and Pelvic Floor.
2. *The Diet*.—Care of the Bowels. Care of the Breasts, etc. The Vomiting of Pregnancy. Table for Calculating the Probable Duration of Pregnancy.
3. *Natural Labor*.—Preliminary Preparations for Stages of Labor. What to do in an Emergency. The Birth of the Placenta, and Its Management.
4. *The Puerperal State*.—Cleanliness. Articles Required. Receiving, Washing and Dressing the Child. The Immediate Care of the Child. The Management of the Puerperal State. Dangers to be Avoided.

CHILDREN.

*April 4, 11, 19, 28.*

DR. MERRITT.

1. *Care of Infants*.—Condition of the Child Immediately After Birth. (a) General Appearance. (b) Bony Framework. (c) Internal Organs. (d) Changes in the Blood Circulation. (e) Establishment of Pulmonary Respiration.
2. *Infancy*.—(a) Growth and Development of Infants. (b) Physiological Peculiarities. (c) Tendency to Disease. (d) Great Mortality.
3. *Care of Healthy Infants*.—(a) Handling. (b) Bathing. (c) Clothing. (d) Sleep. (e) Exercise. (f) The Nursery.
4. *Infant Feeding*.—(a) In Health. (b) In Sickness.

NURSING.

*April.*

E. WALLACE

(Superintendent of Training School.)

1. Ethics of Nursing. Private Nursing.

FINAL EXAMINATIONS.

## Nurses' Examinations.

---

### FIRST EXAMINATION.

Bed-making; Change of Bed and Body Clothing; Position and Lifting of Helpless Patients; Cause, Prevention and Treatment of Bed sores; Choice of Sick-room (its Temperature and Sanitary Conditions); Pulse Respiration and Temperature; Diets; Baths; Enemata and Rectal Feeding; Douches; Poultices; Fomentations; Application of Heat and Cold; Counter Irritants; Cupping and Leeching; Blisters; Nausea and Treatment; Feeding Unconscious, Refractory and Feeble Patients; Ventilation and Use of Deodorizers and Disinfectants.

### SECOND EXAMINATION.

Bones; Fractures; Surgical Appliances; Bandaging Wounds and Methods of Healing; Antiseptic and Aseptic Treatment; Germicides, Cleaning of Sponges and Preparation of Needles, Sutures, etc.; Preparation of Patient for Operation; Administration of Anæsthetics; Care of Patient during Recovery; Observation of Cases under Care; Medicines.

### THIRD EXAMINATION.

Circulation of the Blood; Position and Function of Organs; Excretory Organs; Examination of the Urine; Uses and Effects of Stimulants; Digestion and Absorption; Foods; Cooking; Observation of Symptoms in Acute and Chronic Diseases; Children's Diseases; Contagion and Isolation; Chills and Convulsions; Obstetrics; Attention to the Dying; Care of the Dead; Care of Skin, Eye and Ear.

### FOURTH EXAMINATION.

Gynecological Positions; Light; etc.; Preparation and Care of Operative Cases; Use of Catheter and its Relation to Cystitis; Hemorrhage; Shock; Collapse; Methods of Controlling Hemorrhage; Surgical Diseases; Orthopedics; Tracheotomy; Laparotomy; Emergencies.

## Report of the Kindergarten.

---

For some three years now the management of the Children's Hospital has supported a Kindergarten within the Hospital for its convalescent children, furnishing for that purpose, in a truly Kindergarten style, a light, sunny and well-ventilated room. A piano is there; pictures, including Fröbel's, adorn the walls; kindergarten tables, little chairs, etc., all combine to make this corner room an inviting retreat indeed. According to the continually expressed sentiments of the doctors, nurses and other inmates of the Hospital, the practical results are many.

The atmosphere pervading the Kindergarten and the discipline together exert a very beneficial influence, which is felt throughout the building. A *taming* effect is produced upon the animal spirits of the convalescent children, while the songs and certain occupations tend to soothe and divert the minds of the little sufferers in bed, from self.

A lady while a patient at the Hospital visited the Kindergarten. She said it was perfectly beautiful some mornings to hear the children singing the kindergarten songs and hymns. Some child would start a tune, gradually the others would take it up, and soon it would be caught by the children in another ward, and yet another—till the air would be filled with childish voices, happy and forgetful of all bodily ills. All acknowledge the subduing, controlling and altogether happy effect upon the children of having the Kindergarten in the Hospital. Would it not be worth the money alone—that is spent—to give so much pleasure as has been given here to hundreds of suffering patient little children?

There were enrolled during the year 129 children. The average attendance per month of Primary children was 6; of Kindergarten, 12. We have had 209 visitors.

Respectfully submitted,

HARRIET B. GRISWOLD.

## Dispensary Report.

(THE DISPENSARY IS LOCATED AT 1109 MISSION STREET.)

### CLINICS.

Mondays and Thursdays.....	9-10 A. M.....	Marcia Billings Cleveland, M. D.
Tuesdays and Fridays .....	9-10 A. M.....	Emma Sutro Merritt, M. D.
Wednesdays and Saturdays.....	9-10 A. M.....	F. I. Foreman, M. D.
Mondays and Thursdays.....	3- 4 P. M.....	Frances R. Sprague, M. D.
Tuesdays and Fridays.....	3- 4 P. M.....	Rosamond L. Cox, M. D.
Wednesdays and Saturdays.....	3- 4 P. M.....	Lucia M. Lane, M. D.
Mondays and Thursdays.....	7- 8 P. M.....	Rosamond L. Cox, M. D.
Tuesdays and Fridays.....	7- 8 P. M.....	Virginia W. Smiley, M. D.
Wednesdays and Saturdays.....	7- 8 P. M.....	Mary W. Moody, M. D.

### *To the Board of Managers of the Hospital for Children and Training School for Nurses:*

LADIES: The past year has been an eventful one in the history of the Dispensary.

The last of March the Dispensary was moved from the old quarters, where it had been located for over six years, to the more commodious ones at 1109 Mission Street, near Seventh. With the added facilities of the new place, it is found much easier to carry on the work efficiently.

There have been also many changes and additions in the Staff. At the end of last year the Dispensary suffered a loss in the resignation of Doctors Isabelle and Agnes Lowry, whose zealous work in the past has contributed so much toward its success.

During the year all the hours in the morning and afternoon have been filled, and in addition, the holding of Evening Clinics has for the first time been tried and has met with success.

A noticeable feature of the year's work is the increased proportion of children who have attended the clinics.

Soon after the removal of the Dispensary it suffered a loss in the resignation of Miss Brand, whose faithful efforts did so much toward systematizing the work. Miss Brand was succeeded by

Miss Kiesau, who in turn, has been followed by the nurses from the Hospital, for at the suggestion of the Staff, it was decided by the Managers to give the nurses an experience in Dispensary work. The innovation is of mutual benefit to doctors and nurses. Miss Kiesau has been transferred to the Milk Laboratory, where she has proven a most efficient assistant.

There has been still another innovation in the work of the Dispensary, and that is, the attendance of a druggist. This year the valuable services of Miss Potter, the druggist to the Hospital, have been secured for three forenoons in the week.

The Staff wishes to thank especially the Dispensary Committee of the Board of Managers for the great personal interest they have shown in the Dispensary. It feels that it is due to their earnest efforts that so many changes for the better have been brought about.

General diseases are treated daily (except Sunday), from 9 to 10 A. M., from 3 to 4 P. M., excepting Tuesdays and Fridays, and from 7 to 8 P. M. Diseases of the eye, ear, nose and throat are treated on Tuesdays and Fridays, from 3 to 4 P. M.

#### 1893.

Number of women registered in general clinics . . . . .	318
Number of women registered in eye, ear and throat clinics . . .	82—

## Report of the Milk Laboratory.

---

In June the Dispensary Staff decided to try to establish a Milk Laboratory similar in plan and operation to those in Eastern cities. A contribution of \$250 from Mr. Adolph Sutro for this purpose, enabled them to get the necessary apparatus and fairly begin the work in the middle of July.

At first the orders for milk came in slowly, the first order being for but 8 bottles a day, but already the Laboratory is sending out 138 bottles.

The idea of establishing the Milk Laboratory came from the number of cases that came to the notice of the physicians suffering from digestive troubles due to faulty methods of feeding, not only among the Dispensary patients, but among those whose surroundings and circumstances were of the best.

Statistics show that in all countries the mortality among artificially-fed babies is very great, in some places even reaching as high as 90 per cent., and this is attributable almost wholly to ignorance as to the best method of preparing the food for the delicate digestive organs of a child, and to improper kinds of food.

The great number of patent foods on the market, as is well known to physicians, are not all what they purport to be, and are prepared more for the benefit of their originators than for that of the little ones for whom they are made. Even cow's milk, outside of the adulterations which it undergoes at the hands of dishonest dealers, is liable to undergo fermentative changes which render it unfit for babies.

Sterilization at 212° F., from which so much was expected at one time, does not answer all the requirements of infant food. While it prevents these changes from fermentation from taking place, it so alters the milk as to render it indigestible, as well as unpalatable. In addition to this, cow's milk has certain elements in too great quantity, and when these are diluted to a proper amount, the milk is too poor in fat and sugar, and thereby not

sufficiently nourishing. In order to overcome this difficulty, "Modified Milk" has been suggested, and it has been found that children thrive upon it better than upon any other food that has so far been suggested. The reason for this is not far to seek. Modified Milk is simply cow's milk prepared in such a way as to imitate the proportion of the different constituents found in human milk. This is done by diluting the milk and making up the deficiency of fat and sugar by the addition of cream and milk sugar. This Modified Milk is heated to a temperature some degrees *below* the point of sterilization (which is 212° F.), but which is high enough to prevent fermentation taking place, but not so high as to cook the milk.

The foregoing is practically the mode of preparation of the milk in the Milk Laboratories of Boston and New York, and it is extensively used and advocated by physicians of both cities not only among their poorer cases, but more especially in their private practice.

The milk has been the means of saving the lives of many little ones. In order not to have the benefits of the undertaking confined to the Dispensary alone, the Staff determined to have the Laboratory established in a quarter of the city where its usefulness might be extended to all, and where it could be of easy access to all.

The milk is put in bottles containing from 1 to 8 ounces, each bottle containing the amount necessary for one feeding, and the amount regulated by the age and condition of the child. Enough bottles are sent to last 24 hours. All that is necessary for the mother or nurse to do is to place the bottle in warm water, and when it is sufficiently heated, to replace the rubber stopper, with which it is corked, by a rubber nipple, when the child's milk is ready. Great care is used in cleansing the bottles after their return to the Laboratory, and no pains are spared in making them absolutely clean and free from taint of any kind, for they are thoroughly scrubbed, boiled and steamed each day.

The price of the ordinary Modified Milk, exclusive of delivery, is 15 cents a quart, and when one considers the amount of cream and milk sugar used in its preparation, it will be seen that this amount barely covers the cost of its production. In cases where extra

amounts of cream are deemed advisable for a child, the price is proportionately increased.

It has been thought necessary to explain the object of the Laboratory in this way at length, as it is not generally known what Modified Milk is, some supposing it to be a patent food, or some kind of chemical combination, whereas it is simply pure cow's milk properly diluted and prepared as before described. The work is under the supervision of the Staff, who are thoroughly impressed with its importance and with the great saving in infant mortality, which alone could come through honest and scientific understanding of the subject.

While the Laboratory has the absolute necessities in the way of equipment, it is greatly handicapped for want of sufficient means to broaden its field of usefulness, scientifically, and in its practical application. Although its progress has been encouraging from the beginning, it is still dependent upon contributions for its maintenance, and it is the ambition of its originators to make it self-supporting.

The Staff feels that its work and scope is not yet generally understood, and would like to state that the Laboratory is always open to inspection during the time of the preparation of the milk, which is in the afternoon.

---

## Boys and Girls Aid Society.

---

During the past year there have been but two cases sent to the Hospital from the Aid Society. Owing to the prevalence of La Grippe, the last three months of 1893 saw more cases requiring medical attention than at any previous time in the year. But one case has been serious, and that was due to the already debilitated condition of the child. With this exception the general health of the children has been up to its usual excellent standard.

FRANCES R. SPRAGUE,  
*Attending Physician.*

## Report of the Secretary of the Board of Trustees.

SAN FRANCISCO, January 2, 1894.

*Cost of Real Estate and Buildings erected for the Hospital for Children and Training School for Nurses, situated on California Street, between Maple and Cherry Streets, San Francisco, California.*

### REAL ESTATE.

Value as per Secretary's Report of January 3, 1893 . . . . . \$13,923 58

### COST OF BUILDINGS.

Value as per Secretary's Report of January 3, 1893 . . . . . \$50,065 63

### INCIDENTALS.

Value as per Secretary's Report of January 3, 1893 . . . . . \$ 3,521 05

### RECAPITULATION.

Cost of Real Estate . . . . .	\$13,923 58
Cost of Buildings . . . . .	50,065 63
	<u>\$63,989 21</u>
Incidentals . . . . .	<u>\$3,521 05</u>

There is still unpaid on the mortgage against the Hospital property to the San Francisco Savings Union Bank, made October 31, 1889, which was due and payable October 31, 1891, with interest at the rate of six and one-half (6½%) per cent. per annum, the sum of about \$10,000; bank to pay mortgage tax.

As you will notice, this mortgage was due and payable October 31, 1891, and it is very desirable that money be raised to pay off the same, as it is now twenty-six months overdue.

I have to report that there is now fire insurance on the Hospital Buildings as follows :

### INSURANCE.

Main Building . . . . .	\$26,500 00
Contagious Ward . . . . .	1,500 00

Of the entire insurance renewed the past year, all the companies kindly donated the premiums; therefore, the insurance has not cost the Hospital a dollar.

Respectfully submitted to the President and Lady Board of Managers of the Hospital for Children and Training School for Nurses.

JOHN F. MERRILL,

*Secretary Board of Trustees.*

sources was equal to that of last year and we trust somewhat larger. When the custom becomes well established in San Francisco as it is in other large cities, it is probable that the returns to the beneficiaries will be equally gratifying.

Our list of memorial beds has increased, and we are pleased that the plan now pursued by the committee in charge of this branch of the work has proved so satisfactory to the donors. This method of honoring the memory of those who have entered into rest, is one that should commend itself to the generous and tender-hearted. I know of no better way of keeping bright the cherished names of loved ones than by placing them amid such kindly influences and surroundings.

The generous donation of Mrs. Claus Spreckels mentioned in my last annual report was devoted to the purchase and placing of a steam laundry, as was intended. This was an improvement much needed and it has greatly facilitated work in this department.

We have been encouraged in our plan for completing the building to be devoted to a home for our nurses by the generosity of our friend Mrs. C. B. Alexander, whose gift of \$1000 to aid in this purpose will be devoted to finishing a portion of this edifice. The sum needed to complete this work is not large, and I feel assured will, ere long, be supplied by some of our many friends. The facilities of the "Alexander Maternity Cottage" have been considerably increased. Heretofore the nurses occupied the corner ward. This has been divided into four large rooms and newly fitted with all necessary comforts; nurses having now a temporary home in the main building, awaiting the completion of their new rooms; a great necessity for their comfort, health and pleasure. Their removal has enabled more patients to be cared for in the Maternity Cottage. Never in the history of this very useful institution have so many availed themselves of its advantages, which, thanks to the skill of our physicians and nurses are acknowledged to be the best offered on the Pacific Coast.

The work of the Dispensary has continued much as heretofore, and it is a branch of philanthropic activity which has

for many years been a bright light in the dark places of our city.

Were I to individually designate those of the force of the hospital in all its departments who have loyally and faithfully labored for its success, I could omit no name among those in any capacity connected with the institution. In season and out of season its welfare has been their common aim. I cannot let this opportunity pass without this public expression of my appreciation of their kindness and uniform courtesy. To you, my friends and associates of the Board of Managers, some of whom have lightened the labors and shared the pleasures of many years in the work of the hospital, I am under obligations not easy of expression.

With the favor of Providence you have here builded a great and beneficent institution. May those who in future years carry on its work maintain the high traditions you have established; traditions which are a credit to the women of San Francisco. Respectfully submitted,

EMMA A. HARRINGTON, President.

### Secretary's Report.

---

*To the Board of Managers and Members of the Association of the Hospital for Children and Training School for Nurses :*

We present for your consideration this report of our work for the year ending December 31st, 1898, in many respects one of the hardest years we have known since the early days of our work.

The Board of Managers has held twenty meetings during the year—the annual, twelve regular and seven special meetings. They have been well attended and much interest has been evinced. The subject of ways and means of securing funds for carrying on our work, has been the principal topic of discussion.

At the annual meeting held in January, four new members were elected to fill vacancies, Mesdames Lent, Borel, Knight and Miss Doyle. During the year, we have lost by resignation three members, Mesdames Steinhart and Lent and Miss Hoffman. We parted with them most reluctantly, all having done excellent work. We hope, at some future time, when circumstances will permit, to welcome them back to the Board.

With the exception of the addition of Dr. W. W. Kerr, the visiting staff has remained unchanged. We have reason to congratulate ourselves on having as members of our staff, physicians and surgeons who stand foremost in their profession and whose names are a guarantee of the splendid work done in our hospital.

The Board of Managers extends its sincere thanks for their untiring service and desires to express its cordial appreciation of the work done. To the Assistant Visiting, Staff the thanks of the Board are also extended.

Our resident physician, Dr. Willits, has been most satisfactory and has ably assisted the members of the staff. The Internes, too, have done excellent work. Drs. Murphy and Avery have finished their terms. Remaining in the service are Drs. Borchers, Mackey, Wilde, Judell, Smyth, Lin-

forth and Guidinger, the latter acting as Interne at the Dispensary. 876 patients were treated in the hospital during the year; 543 of whom were children. The average number of children in the hospital each month was 138, an increase of ten over the year 1897. The "Little Jim" Ward has been overcrowded, and in fact all the children's wards have been filled. It is not an easy task to refuse to admit the cases that come to us, some of which are most pitiful, and so they have been "crowded in." The loss of Miss Hoffman will be greatly felt by the children in the "Little Jim;" they were her especial charges and she took a personal interest in each one of them.

There were 94 births in the Maternity Cottage, almost double the number of any preceding year. The Maternity Cottage and the excellent care and attention given there has become more generally known. We record with satisfaction the fact that since its opening only one patient has died there.

Our steam laundry was completed and put in operation early in the year. It has not been entirely satisfactory but with recent changes made, it is expected good work will be done. It was a relief to have the laundry removed from the main building, as it was always a menace and a source of uneasiness while there.

Nothing has been done, as yet, towards the completion of the nurses' home. Mrs. C. B. Alexander gave us a generous donation of \$1,000 to aid in its completion, but it was thought best to delay the work until we had sufficient funds on hand to meet all the expenses. We need it sorely but it will have to wait.

The Training School, under Miss Pennewill's efficient management, is constantly improving, the nurses who leave it are thoroughly trained and their services are always in demand. Of our graduate nurses, five have located in Honolulu, three having for some years filled responsible positions in the Queen's Hospital. Four of our graduates, at their urgent request, were sent to Manila and are doing a noble work there in the Red Cross hospital, and four are serving in the Military hospitals in Honolulu. The work of all has been highly commended. Eighteen nurses graduated during the year.

Miss Pennewill has been granted a three months' leave of absence and has gone East to take a much needed rest. Miss Sherman will be in charge of the Training School during Miss Pennewill's absence.

We had but two bequests in 1898, one of \$250 from the Hecht estate, and one of \$500 from the estate of Mrs. Oliver Eldridge.

Nine new life members have been added to our list: Sidney and Virginia Ackerman, Emily Pope, Rose W. Sahlein, Miss F. M. Doyle, Mrs. C. W. Rosenbaum, Mrs. A. Schwabacher, Mrs. Henrietta Zeile and Mrs. F. Tillman, Jr. We have seven new memorial beds: The Marian Walter, Isaac Hecht, Dr. James Simpson, Fred Schwabacher, Miss Head's School, Aquí Se Sana and Grace Alexander. The Memorial Bed Committee has thoroughly systematized its work and the beds are all in excellent condition.

We have received many donations of money, the largest being those of \$1000 from Mrs. Claus Spreckels, \$1000 from Mrs. Wm. Kohl, \$1200 from Mrs. C. B. Alexander, \$500 from Mr. James Flood and \$500 from Mrs. A. Borel.

Upon our subscription list, however, we must depend mostly as a regular source of income. Our list in the last report includes 300 names; surely there are ten times that number of people in San Francisco who would willingly become regular subscribers could they but be reached and made to understand that a subscription of 25cts. per month, or even less would be as gratefully received as much larger amounts.

Of entertainments, we have had six. The first was a benefit given us at the Tivoli on New Year's day through the generosity of Mrs. Ernestine Kreling, which increased our funds to the amount of \$973. "Columbia," given under the management of our own Board, netted us over \$1600; from a concert given by Mme. Strelitz-Davis, we received \$118.50. Added to these were the Lawn Tea and the Indian Camp at San Rafael. The former realizing \$187; the latter \$54.15. From the benefit given us by the Pacific Coast Jockey Club we received \$1000.

Excellent work has been done at the Dispensary and an

improvement financially has been noted. It has been our desire to make the Dispensary self-supporting but as yet this has been impossible, the small charge for medicines being more than many of the patients could afford to pay. The Dispensary Staff and nurses answer all calls to attend the sick poor in their homes, cheerfully and willingly, free of charge. Cases of poverty and distress are reported to the Dispensary Committee and relief is afforded from the fund raised by the *Examiner*. The Dispensary has for some years been carried on separately and distinctly from the hospital work. It has been thought best, however, that our Hospital Staff should be connected with the clinics, and this will be the policy for the coming year. Dr. Cleveland, who has done excellent work at the Dispensary for several years, has resigned and her clinic, that of Surgery and Gynecology, will be placed under Dr. Mac-Monagle's charge, with Dr. Sankey as his assistant. The Eye, Ear, Nose and Throat clinic has been since last October under the supervision of Dr. Hopkins, with Dr. Bell in charge. Dr. Merritt, of the Visiting Staff, has long been in the Dispensary work. The other clinics will remain as heretofore. It was thought best to discontinue the evening clinics as the benefits did not offset the expense of keeping them up.

Santa Claus, as usual, was good to our little charges, and aided by the young ladies of the Auxiliary, made Christmas a very happy time. Their annual entertainment, for which Mr. Babcock generously provides, was a very delightful affair.

It has been our sad duty, to record during the year, the death of one of the charter members of our Hospital, Mrs. O. W. Easton. Mrs. Easton was an active, earnest worker for the good of the hospital which she aided in founding.

Failing health compelled her to lay down the work but to the last her interest remained with us.

The "Well done, good and faithful servant" of the Master was surely her greeting.

We desire to express, on behalf of the Board of Managers, its cordial appreciation of every donation the Hospital has received and to extend its sincere thanks to all who have aided us in any manner, whatsoever. To the press of San Francisco, ever a generous friend, we extend our cordial thanks.

## The Crutch and Splint Fund.

### TRUSTEES.

SIDNEY V. SMITH.

WINFIELD S. JONES.

J. LEONARD ABBOTT, JR.

The following statement shows the amount of money received, and how it was expended, the items being self explanatory.

### RECEIPTS.

January 1, 1898.....	\$141 10
July 1, 1898.....	141 10
	<u>\$282 20</u>

### EXPENDITURES.

Overdraft from 1897.....	\$ 79 78
New Splints....	74 05
Surgical Instruments.....	12 40
Repairs Account.....	34 90
Shoes....	4 25
Library.....	3 00
Sundries.....	70 20
	<u>\$278 58</u>
Credit Balance forward to 1899.....	3 62
	<u>\$282 20</u>

There has been added to the Fund, and deposited with the Trustees, the sum of \$18.30, this being the proceeds of a fair held during the winter by Misses Lydia K. Hopkins, Nancy Keatinge, Isabella Mackenzie and Aileen Mackenzie. This is a good example for others to follow.

The total amount now in the Fund is \$7,074.30.

HARRY M. SHERMAN, M. D.

Orthopedic Surgeon.

January 1, 1899.

SUN ROOM OF THE "LITTLE JIM" WARD.

## Berkeley Surgical Ward Fund.

*To the Board of Managers of the Hospital for Children and  
Training School for Nurses :—*

I hand you herewith my report as Treasurer of the Berkeley Surgical Ward Fund, embracing the period of my term from August, 1896 to date.

The income from our funds has been as follows :

To January 1, 1897.....	\$ 45 65
To July 1, 1897.....	55 65
To January 1, 1898.....	53 65
To July 1, 1898.....	52 60
To January 1, 1899.....	50 45
<b>Total .....</b>	<b>\$258 00</b>

The disbursements have been as follows :

Payment to Mrs. W. B. Harrington, President Hospital for Children:	
On January 8, 1897.....	\$45 65
On September 21, 1897.....	55 65
On January 17, 1898.....	53 65
On July 15, 1898.....	52 60
On January 4, 1899.....	50 45
<b>Total .....</b>	<b>\$258 00</b>

Leaving no balance of income on hand.

The funds of the Corporation are invested as follows :

On term deposit in German Savings and Loan Society, (Book	
No. 66,342).....	\$2,144 82
On term deposit in Berkeley Bank of Savings (Book No. 636).....	381 05
<b>Total.....</b>	<b>\$2,525 87</b>

In addition to the foregoing a special fund of one hundred dollars (\$100.00) was set apart to pay remaining expenses of an entertainment for the benefit of the fund and such

running expenses as the Corporation might incur. Of this sum seventy-nine dollars and forty-five cents (\$79.45) is on hand and an indebtedness of eight dollars and fifty cents (\$8.50) not yet paid.

Respectfully submitted,

ANITA SYMMES BLAKE,

Treasurer Berkeley Surgical Ward Fund.

### **Report of the Medical and Crocker Surgical Ward Fund for 1898.**

---

Balance on hand January 1, 1898.....	\$12 29
Received from Dr. Merritt.....	5 00
Received from the ladies of Pescadero through Mrs. Stryker .....	20 00
<b>Total .....</b>	<b>\$37 29</b>
Instruments and Supplies .....	7 93
<b>Balance on hand December 31, 1898.. .....</b>	<b>\$29 36</b>

Respectfully submitted,

FRANCES R. SPRAGUE, M. D.

## Report of Resident Physician.

*To the President and Ladies of the Board of Managers of the Hospital for Children and Training School for Nurses:*

On behalf of the Medical Staff of the Hospital, I submit the following report of the work during the year ending December 31st, 1898.

EMMA K. WILLITS,

Resident Physician.

## **Rules.**

I. The institution shall be under the charge of the Resident Physician and Matron.

II. Patients will be admitted and discharged by the Resident Physician, subject to the approval of the Attending Physician. No patient will be allowed to leave the Hospital except by permission of the Resident or Attending Physicians.

III. Meals shall be served punctually at 7:00 A. M. (for patients, 8:00 A. M.) 12:00 M. and 5:00 P. M. Children allowed lunch, morning and afternoon.

IV. Visitors are not allowed to distribute food, fruit, confectionery or liquors to any patients.

V. Patients must pay for any extras they desire.

VI. Visiting days are Tuesdays and Thursdays, from 2:00 to 4:00 P. M. No one admitted in the evening.

VII. Lights in the wards must be out at 8:00 P. M., and all lights in the Hospital must be out at 10:00 P. M. During the hours from 9:00 P. M. to 6:00 A. M. the house must be kept quiet.

VII. All complaints must be made directly to the Attending or Resident Physicians; and, in case of their inability to remove the difficulty, they shall report to the Managers.

IX. A kind and courteous demeanor is expected on the part of nurses and other employes toward all with whom they come in contact.

X. Neatness and punctuality are expected from all the inmates of the Hospital.

**RULES FOR THE CONTAGIOUS COTTAGE.**

---

I. Any regular physician has the privilege of placing patients in the Contagious Cottage.

II. A physician is in attendance at the Cottage for those not having their own physician.

III. Parent or friend remaining with patient will not be allowed to leave the Cottage until dismissed by the physician.

IV. Only clothing which is absolutely necessary allowed. All wearing apparel must be fumigated before being taken from the Cottage.

V. Price : For all cases, with exception of diphtheria, twenty-five dollars per week; medicine, twenty-five cents extra for each prescription. Diphtheria, thirty-five dollars per week, with extra charge for medicine.

### Report of the Memorial Bed Committee.

---

*To the President and Board of Managers:*

The Memorial Bed Committee submit the following report of their work for the year 1898:

We have placed at present 59 Memorial Beds.

Seven of these have been placed this year, and in nearly every case the money or supplies for their proper maintenance have been promptly supplied.

We feel much encouraged at the number of Memorial Beds, as indicating that our friends realize that no more loving monument could be raised to our lost ones than by maintaining a bed where a suffering little one may have the care and attention necessary to restore it to health.

We have still a ward without a Memorial Bed, where splendid work is being done, and if some friend would start us with a bed in this ward, others would no doubt become interested. The ward referred to is the old Surgical Ward in the main building. Respectfully submitted,

MRS. WM. T. FONDA,

Chairman.

## **Information as to the Founding and Maintenance of Beds.**

---

In response to numerous inquiries, the managers of the Hospital for Children and Training School for Nurses, beg to state as follows:

I. By furnishing bed and bedding, and the additional gift of one hundred dollars, the donor will be entitled to name a bed, the name to be continued so long as the necessary furnishings are kept in order. By consent of the Board of Managers, the donor may suggest who shall occupy the bed, subject to the rules of the Hospital; it being understood that this amount does not support a free patient. The cost of placing such a memorial bed is estimated to be \$175. If this amount is sent to the Treasurer of the Hospital, the Committee on Memorial Beds will attend to the purchasing, making and marking of all necessary articles. Persons so desiring can furnish their own supplies.

II. Any church, association, or individual contributing \$3000 is entitled to control one bed for thirty-three years; and, if this amount be increased to \$5000 within two years after the original payment is made, said control is made perpetual.

III. Any church, association, or individual contributing \$5000 is entitled to control one bed perpetually, or, in lieu thereof, may name a room of one or more beds, and such room shall be known thereafter by such name.

All beds must be supplied annually with necessary furnishings. It has been estimated that the cost of such furnishings is about twenty-five dollars. Donors of beds, so desiring, may send the sum of twenty-five dollars to the Treasurer of the Hospital, and the Committee in charge of "Memorial Beds" will see that all articles are supplied and marked.

Notice will be sent to all donors annually, stating the condition of furnishings.

## LIST OF ARTICLES REQUIRED.

Bedstead	3 spreads.
Panel	3 pairs 10-4 blankets (double, 2 pairs white, 1 pair colored).
12 sheets, $2\frac{1}{2} \times 1\frac{1}{2}$ yards.	2 bath towels.
12 pillow-cases 30 x 18 inches.	1 hot-water bag.
12 towels (hemmed).	1 rubber sheet.

Bedding to be marked in red French cotton with name of bed.

## Report of the Training School.

---

Although the past year of 1898, has been a hard one financially for the Hospital, in many ways there is much to be thankful for. We have had no recent epidemic, not even the grippe, and the nurses have worked well and faithfully.

Miss Pennewill, our very efficient Superintendent, being greatly in need of a rest from her arduous duties, has been granted a three months' leave of absence and Miss Sherman, one of her pupils and a recent graduate, has taken the position temporarily and is filling it most admirably.

The nurses generally have worked faithfully and will continue, I hope, to work for even a higher standard.

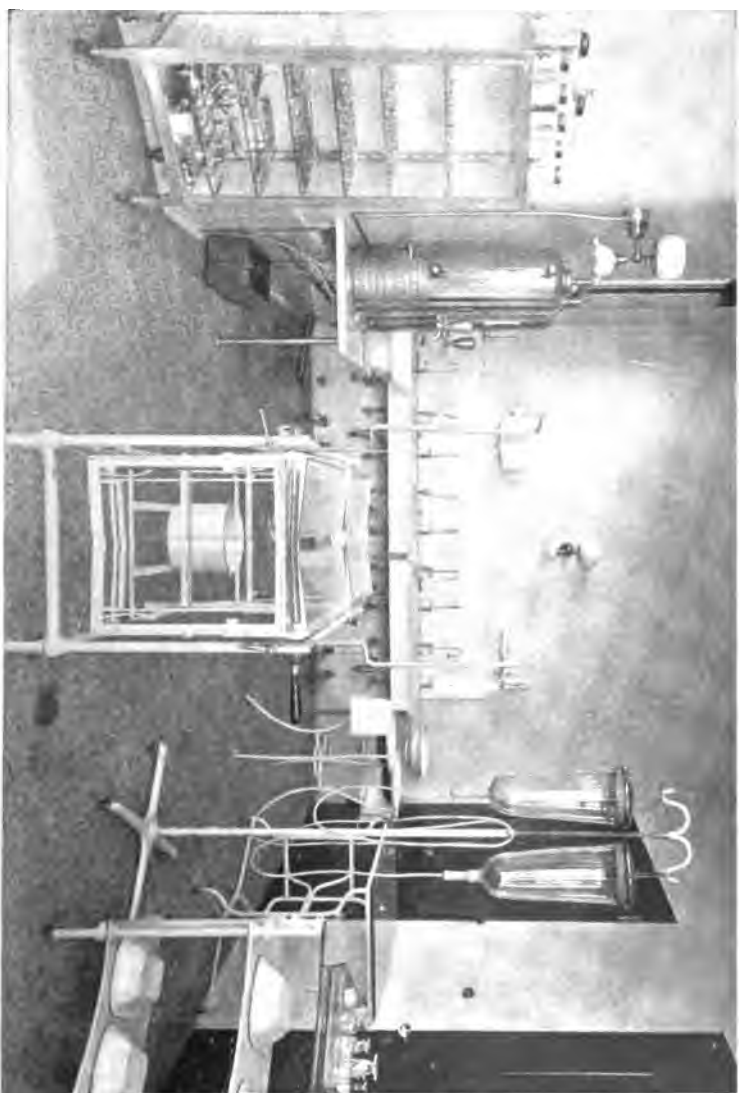

We hope to be able, during the coming year, to complete the Nurses' Home as it is greatly needed, that the nurses may have proper sleeping accommodations and where, when they are off duty, they can get away from the vitiated atmosphere, generally surrounding sick people.

Respectfully submitted,

CARRIE W. EASTON,

Chairman of the Training School Committee.

OPERATING ROOM OF THE GYNECOLOGICAL WARD.

## Regulations for Training School for Nurses.

---

The Board of Managers of the Training School for Nurses connected with the Children's Hospital have made arrangements for giving a two years' training to women desirous of becoming professional nurses.

Those wishing to obtain this course of instruction must apply personally or by letter to the Superintendent of the Training School, 3700 California Street, San Francisco, Cal. The most desirable age for candidates is from twenty-one to thirty-one years. They must be in sound health, and must present on application a certificate from some responsible person as to their good character, also a certificate of graduation from at least a grammar school. This amount of education is *indispensable* for a member of the school, but applicants are reminded that women of superior education and cultivation, when equally qualified as nurses, will be preferred to those who do not possess these advantages. Applications from the *domestic class* are not accepted.

The first two months in the Training School are probationary. During these months of probation the pupils are boarded and lodged at the Hospital, but receive no other compensation. They are not expected to wear the uniform of the School, but must come provided with dresses and aprons of washing material for use in the Hospital. A physical examination will also be made by the Resident Physician.

They are under the authority of the Superintendent, and are subject to the rules of the Hospital. Their fitness for the work, and the propriety of retaining or dismissing them at the end of two months is determined by the Superintendent and the Training School Committee, and the same authorities may also discharge them at any time in case of misconduct or inefficiency.

Nurses are required when on duty to wear the dress prescribed by the School, which is of blue gingham, simply

made, white apron, cap, and linen collar and cuffs. They serve for the first year as assistants in the wards; the second year they are expected to perform any duty assigned them by the Superintendent of the School, either to act as head nurses in the Hospital or to be sent to private cases among the rich or poor.

Those fulfilling the conditions of the probationary months are accepted as pupils. They are required to sign a written agreement as a guarantee that they will remain two years and faithfully conform to all rules.

The sum of five dollars per month is allowed each nurse, but is in nowise intended as wages, it being considered that the education given is a full equivalent for her services.

The day nurses are on duty from 7:00 A. M. to 7:00 P. M., with an hour for exercise or rest. They are also given an afternoon during the week, and have a right to five hours on Sunday. A vacation of two weeks is allowed each year.

In sickness, all pupils will be cared for gratuitously, but all time over one week a year will have to be made up.

As the institution is non-sectarian, there are no religious services connected with it, and all nurses are expected to attend the place of worship they prefer once on Sunday.

The following is a list of text-books required :—

- Anatomy and Physiology for Nurses. By Kimber.
- Text-book of Nursing. By Weeks.
- A Manual of Therapeutics. By Stevens.
- A Pocket Dictionary. By Gould.
- Abdominal Surgery. By Fullerton.
- Obstetrical Nursing. By Fullerton.
- Invalid Cook Book. By Boland.

#### COURSE OF TRAINING.

The instruction includes :

1. The dressing of burns, sores and wounds; the preparation and application of fomentations, poultices and minor dressings.
2. The application of leeches, and subsequent treatment.
3. The administration of enemata and use of catheter.

4. The management of appliances for uterine complaints.
5. The best methods of friction to the body and extremities.
6. The management of helpless patients ; making beds ; changing sheets while patients are in bed ; moving ; giving baths in bed ; and preventing and dressing bed sores.
7. Bandaging ; making bandages and rollers ; lining splints.
8. The preparing, cooking and serving of delicacies for the sick.

They will also be given instruction in the best practical methods of warming and ventilating sick rooms, and are taught to take care of rooms and wards ; to keep all utensils perfectly clean and disinfected ; to make accurate observations, and report to the physicians of the state of the secretions, expectorations, temperature of body, pulse, skin, appetite, intelligence (as delirium or stupor breathing), sleep, condition of wounds, eruptions, formation of matter, effect of diet, or of stimulants, or of medicines, and to learn the management of convalescents.

Lectures, recitations and demonstrations will take place from time to time, and examinations at stated periods.

At the end of the first year a preliminary examination of each nurse will be held, and according to its results, she will be rejected, set back in her course, or continued in her work.

When the full term of two years is completed, the nurses thus trained will, on passing an examination, receive diplomas of the School, signed by the Examining Board and by the President and Recording Secretary of the Board of Managers.

The Board of Managers has decided to give a post-graduate course of from three to six months. It will be open to physicians, graduates of this School, and of other training schools of recognized standing. Students in the post-graduate class will receive no compensation for their services other than their board, room and washing.

For particulars, apply to the Superintendent of the Nurses' Training School, 3700 California Street, San Francisco, Cal.

## School Curriculum.

### JUNIOR YEAR.

Bed-making—changing sheets and draw-sheets.

Gentleness—Lifting and moving bed-patients.

Temperature of sick room and ward.

Methods of ventilation.

Care and economy in the use of linen, towels, etc.

Disposal of soiled dressings.

Preparation of disinfectant solutions.

Disinfection of rooms, wards, clothing and excreta.

Care and cleanliness of ward utensils.

Care of patients—Temperature, pulse, respiration, observation of symptoms, reports to physicians, chart-making, frequency of bathing, prevention and treatment of bed sores.

Baths—Hot-air, steam, salt-water, tub, foot, mustard, sponge and cold-packs.

Douches—Catheterization.

Enemata—Kinds, methods of preparation, and mode of administration.

Counter-irritants—Mustard poultices, turpentine, iodine, liniments, cantharides.

Cupping—The cautery.

External applications—Hot-water cans and bags.

Fomentations—Poultices, ice.

Medicines—Doses, weights and measures, methods of administration, care of medicine closets and medicine lists.

### SENIOR YEAR.

Surgical—Aseptic and antiseptic surgery, preparation of patient for operation, care of patient after operation, how to prepare for operation in private house.

Gynecological—Preparation of patients for examinations and operations, different positions, instruments and dressings, care of patient after abdominal section.

Hemorrhages—How to control.

How to deal with surgical emergencies.

Shock, fractures, dislocations, sprains, contusions, burns and scalds, frost-bites.

Medical—Different forms of fever, tuberculosis, Bright's disease, urine.

Pregnancy—Care of infants.

## **Schedule for Lectures for the Training School.**

### **ANATOMY.**

W. B. LEWITT, M. D.

1. The Skeleton and Muscles.
2. The Circulatory and Respiratory Systems.
3. The Nervous System.
4. The Viscera.

### **PHYSIOLOGY.**

HARRY M. SHERMAN, M. D.

1. The Circulation of the Blood.
2. Digestion.
3. Kidneys and Ductless Glands.
4. Nervous System.
5. Orthopedic Appliances.

### **BACTERIOLOGY.**

JOHN C. SPENCER, M. D.

1. Bacteria.
2. The Phenomena of Inflammation.
3. The Phenomena of Inflammation—Continued.

### **OBSTETRICAL NURSING.**

CHAS. A. VON HOFFMANN, M. D.

ADELAIDE BROWN, M. D.

1. Pregnancy.
2. The Diet.
3. Natural Labor.
4. The Puerperal State.
5. Care of Infant.

### **HYGIENE.**

MARY E. MORRISON, M. D.

1. Respiratory System.
2. Muscular System.
3. Tegumentary System.
4. Alimentary System.

## MEDICAL.

L. M. F. WANZER, M. D.

WM. WATT KERR, M. D.

1. Zymotic Diseases.
2. Local Diseases.
3. Constitutional Diseases.

## SURGERY AND GYNECOLOGY.

BEVERLY MACMONAGLE, M. D.

1. General and Special Preparation of Patients for Examinations and Operations. Surgical Operating Rooms, and How to Prepare for Operations in Private Homes.
2. Care of Patients after Major and Minor Operations.
3. Hemorrhages and Surgical Emergencies.
4. Shock, Fractures and Dislocations.
5. Sprains, Contusions, Burns, Scalds, Frost-bites, Foreign Bodies in the Eye, Ear, Nose and Larynx.

## MEDICAL AND SURGICAL PEDIATRICS.

EMMA SUTRO MERRITT, M. D.

FRANCES R. SPRAGUE, M. D.

1. Feeding in Health and in Sickness during the First Twelve Months.
2. Feeding in Health and in Sickness after the First Twelve Months.
3. Development and Care of Children.
4. Nursing in the Non-contagious Diseases of Childhood.
5. Nursing in the Contagious Diseases of Childhood.
6. Surgical Nursing of Children.

## EYE AND EAR.

WILLIAM E. HOPKINS, M. D.

1. The Anatomy of the Eye and Ear.
2. The Treatment and Nursing of Injuries and Diseases of the Eye and Ear.
3. Anatomy of the Throat. Nursing of Croup. Diphtheria, etc.

made, white apron, cap, and linen collar and cuffs. They serve for the first year as assistants in the wards; the second year they are expected to perform any duty assigned them by the Superintendent of the School, either to act as head nurses in the Hospital or to be sent to private cases among the rich or poor.

Those fulfilling the conditions of the probationary months are accepted as pupils. They are required to sign a written agreement as a guarantee that they will remain two years and faithfully conform to all rules.

The sum of five dollars per month is allowed each nurse, but is in nowise intended as wages, it being considered that the education given is a full equivalent for her services.

The day nurses are on duty from 7:00 A. M. to 7:00 P. M., with an hour for exercise or rest. They are also given an afternoon during the week, and have a right to five hours on Sunday. A vacation of two weeks is allowed each year.

In sickness, all pupils will be cared for gratuitously, but all time over one week a year will have to be made up.

As the institution is non-sectarian, there are no religious services connected with it, and all nurses are expected to attend the place of worship they prefer once on Sunday.

The following is a list of text-books required :—

- Anatomy and Physiology for Nurses. By Kimber.
- Text-book of Nursing. By Weeks.
- A Manual of Therapeutics. By Stevens.
- A Pocket Dictionary. By Gould.
- Abdominal Surgery. By Fullerton.
- Obstetrical Nursing. By Fullerton.
- Invalid Cook Book. By Boland.

#### COURSE OF TRAINING.

The instruction includes :

1. The dressing of burns, sores and wounds; the preparation and application of fomentations, poultices and minor dressings.
2. The application of leeches, and subsequent treatment.
3. The administration of enemas and use of catheter.

4. The management of appliances for uterine complaints.
5. The best methods of friction to the body and extremities.
6. The management of helpless patients ; making beds ; changing sheets while patients are in bed ; moving ; giving baths in bed ; and preventing and dressing bed sores.
7. Bandaging ; making bandages and rollers ; lining splints.
8. The preparing, cooking and serving of delicacies for the sick.

They will also be given instruction in the best practical methods of warming and ventilating sick rooms, and are taught to take care of rooms and wards ; to keep all utensils perfectly clean and disinfected ; to make accurate observations, and report to the physicians of the state of the secretions, expectorations, temperature of body, pulse, skin, appetite, intelligence (as delirium or stupor breathing), sleep, condition of wounds, eruptions, formation of matter, effect of diet, or of stimulants, or of medicines, and to learn the management of convalescents.

Lectures, recitations and demonstrations will take place from time to time, and examinations at stated periods.

At the end of the first year a preliminary examination of each nurse will be held, and according to its results, she will be rejected, set back in her course, or continued in her work.

When the full term of two years is completed, the nurses thus trained will, on passing an examination, receive diplomas of the School, signed by the Examining Board and by the President and Recording Secretary of the Board of Managers.

The Board of Managers has decided to give a post-graduate course of from three to six months. It will be open to physicians, graduates of this School, and of other training schools of recognized standing. Students in the post-graduate class will receive no compensation for their services other than their board, room and washing.

For particulars, apply to the Superintendent of the Nurses' Training School, 3700 California Street, San Francisco, Cal.

Emma Lafontaine, M. D.

**Gynecology and Obstetrics.**

*Tuesday and Friday*—3 to 4 P. M.

Mary P. Campbell, M. D.

## Announcement.

---

### OBJECTS OF THE HOSPITAL.

*First. To provide medical and surgical aid for sick children;* this being the main charity. No deserving case is ever refused as long as there is a bed vacant.

In the "Little Jim" Ward twenty-five beds have been set apart for incurable cases. The "Little Jim" is a *hospital*, not a home for crippled children who are otherwise well. It is intended for those little unfortunates whose pain and suffering can be relieved by medical care and attention.

*Second. To provide medical and surgical aid for sick women.* This is one source of revenue, and is a most important branch of the work. In the main building there are pleasant sunny rooms for adult patients, and in the new building, the lower floor of which is occupied by the Eye and Ear Ward, the upper floor is devoted entirely to adult cases. The rooms are bright and attractive, and the dainty "Sun Room" for convalescents is a most inviting spot. The operating room is fitted up with every modern appliance. The best of care and attention is guaranteed.

Outside physicians desiring to place their patients in the hospital and to attend them, are invited to do so, and may feel assured that their patients will receive every attention.

The adult cases admitted into the hospital are divided into three classes.

1st. *Those who are destitute and unable to pay anything.* For such cases, there are three free hospital beds, a medical a surgical and an obstetrical; besides these there are the "Charlotte Blake Brown" free bed and the Henry C. Merrill endowed free surgical bed.

2nd. *Those who are able to pay hospital charges only.* To such cases, the services of the Hospital Staff are given free of charge.

3rd. *Those who are able to pay hospital charges and also for medical attendance.* Such patients desiring to enter the hospital may make their arrangements with any member of the Hospital Staff or any outside physician whom they desire.

*Third. To educate nurses;* the design being to fit healthy young women to engage intelligently in this work by a two years' course of reading, lectures and practical nursing. The nurses are thoroughly trained in every department of the work.

The Resident Physician will be constantly in attendance at the hospital to receive applications for admission.

Daily clinics are held at the Hospital at 9 o'clock A. M. also at the Dispensary, 1109 Mission street, near Seventh, from 9 to 10 A. M., and 3 to 4 P. M., for the sick poor, free of charge. District nursing has been established, and nurses detailed for duty at the dispensary will answer calls from the sick poor in their homes.

## Rules and Regulations.

---

- I. The institution shall be under the charge of the Resident Physician and of the Matron.
- II. PATIENTS shall be admitted and discharged by the Resident Physician, subject to the approval of the Attending Physician.  
No Patient shall leave the Hospital except by permission of the Resident or the Attending Physician.  
NO Patient allowed out after nightfall.
- III. Meals for Patients served punctually at hours designated. Breakfast, 7 a. m.; Dinner, 12 m.; Supper, 5 p. m. Children allowed lunch morning and afternoon.
- IV. Visitors are not allowed to distribute food, fruit, confectionery, or liquors to patients.
- V. Patients must pay for any extras they may desire.
- VI. Visiting days: Tuesdays and Thursdays, from 2 to 4 p. m. No person admitted in the evening except by special permission. Children as visitors, will not be admitted.
- VII. Lights in the wards must be out at 8 p. m. All lights in the Hospital must be out at 10 p. m. From 9 p. m. to 6 a. m. the Hospital must be kept perfectly quiet.
- VIII. All complaints must be made to the Attending, or to the Resident Physician, and in case of their inability to remove the difficulty, they shall report to the Board of Managers.
- IX. A kind and courteous demeanor is expected on the part of the Nurses and Inmates toward all with whom they come in contact.

- X. Neatness and punctuality are expected from all inmates of the Hospital.
- XI. Bills are payable weekly, in advance, or when presented by the clerk.
- XII. Adult patients' washing is not included in weekly rates. It must be sent out.
- XIII. Patients discharged should have a certificate signed by the Resident Physician.
- XIV. The Resident Physician has the exclusive power to admit or exclude visitors. No patient may have more than TWO visitors on the same day, except by special permission.
- XV. A record must be kept of all persons entering the Hospital. Applications may be made to the Resident Physician for examination and treatment at the Hospital. Inquiries regarding the Medical Department may be answered only by Resident Physician or Internes.

*No incurable adult cases will be admitted.*

### **President's Address.**

---

The beginning of a new year and a new century closes the record of our beloved Hospital for another twelve month. Our experience for that period has not varied much from that of its recent predecessors. It is the oft-repeated story of more or less struggle and hard work, the overcoming of difficulties apparently insurmountable, and, at the close, the knowledge that our labors have not been wholly in vain.

Perhaps the most notable feature of the year is the increasing appreciation of the stability of the Hospital and the value of its work, shown by philanthropic persons who have made us testamentary bequests. Never, during any similar period, I believe, have these been so numerous, or so great in money value. Although these funds, in some cases, may not be at once realized, we shall eventually be the recipients of a considerable amount, and it is to be hoped that this example of unselfish generosity may be followed to an increasing extent as time goes on.

The receipts, during our annual donation days, both of money and supplies, were the greatest ever sent to us, and, what is perhaps more satisfactory, came from a larger number of people. This system of soliciting contributions originated in San Francisco with this institution, and from this source our nearly depleted Treasury, thanks to our liberally inclined citizens, has often been replenished.

The largest single gift, otherwise than by bequest, in 1900, was made by Mrs. Collis P. Huntington, and our beloved friend and associate, Mrs. C. B. Alexander, though far away, has continued her substantial and welcome pecuniary aid, as for many years past. During the year this lady defrayed the entire cost of the handsome iron fence in front of the Maternity Cottage and a stone sidewalk, much improving the property.

The long desired Nurses Home was completed during the year and has added greatly to the comfort of its forty-five inmates, who now enjoy the quiet and privacy which was impossible to secure in the crowded condition of their old quarters.

In the furnishing of the Nurses' Home we are under great obligations to the California State Red Cross Association, which donated a considerable quantity of furniture, bedding and other supplies from the Red Cross Convalescent Home, closed at the Presidio during the year, the work of the home having been undertaken by the Government.

The Alexander Maternity Cottage has cared for a considerably increased number of patients, some for a second and third time. The skillful and tender care received has added much to the reputation of the Hospital.

We most regretfully, during the year, accepted the resignation of our esteemed Resident Physician, Dr. Emma K. Willits, who resumed the practice of her profession. I am sure my associates on the Board of Managers will not dissent from the statement that never in the history of our Hospital have we had a more faithful, conscientious and skillful resident than this lady, whose kindly manners and affectionate spirit has endeared her to us all. Dr. H. T. Crabtree, her successor we have every reason to believe will maintain the high standing of her predecessor.

Miss Lillian Huffcut, who succeeded Miss Newbury as Superintendent of Nurses, early in March last, has kept the school in a high state of efficiency, and in every way maintained its rank as the leading institution of its kind west of Chicago.

In our general work, I desire to impress upon the members of the various Committees the great importance of steady attention to the work in hand. It is unfair to those who give of their time and strength to Committee duties for any member of the same body not to co-operate heartily therein. A little time and thought in this direction would lighten the burdens of others and overcome many obstacles.

I have again to thank you for the oft-renewed tokens of your regard and appreciation, which have been the source of extreme pleasure and satisfaction, and more than compensate me for any efforts I have been able to make as your executive officer.

Respectfully Submitted,

EMMA G. HARRINGTON,  
President.

SUN ROOM OF THE "LITTLE JIM" WARD.

## Secretary's Report.

1901.

*To the Board of Managers, the Board of Trustees and Members of the Association of the Hospital for Children and Training School for Nurses:*

FRIENDS: We present for your consideration to-day, the report of the twenty-fifth year of the work of our Hospital. The quarter of a century mile-stone has been passed and the institution which began its work in one small room, stands to-day as a magnificent monument to the beneficence of the people of San Francisco. Our work has increased materially every year, and the year just passed has proven no exception.

The Board of Managers has held twenty-one meetings during the year; twelve regular, eight special and the annual; with a good average attendance. There have been but few changes in the Board. Mrs. H. P. Miller resigned in January, and to fill the vacancy thus caused, and others that had occurred late in the previous year, Miss Alice Stincen, Mrs. T. L. Miller and Mrs. H. B. Montague were elected at the annual meeting. Miss Stincen remained with us but a short time, her school duties rendering it impossible for her to attend the meetings. In May, we received with regret the resignation of Mrs. F. P. Frank, one of our old and tried members. Mrs. Frank's interest is still with us, and we hope some day to welcome her back to our Board. In May, Mrs. F. H. Green resigned her position as Treasurer, and her unexpired term was filled by the election of Mrs. H. B. Montague. For nine long years, Mrs. Green had filled the arduous position of Treasurer to the entire satisfaction of the Board of Managers, and it was with sincere regret that her resignation was accepted. The thanks of the Board were extended to Mrs. Green, but we take this occasion to again

express our appreciation of her most efficient and faithful service. Mrs. Montague has carried the work creditably and and deserves, and has received sincere thanks for her kindness in accepting so difficult a position.

There has been but one change in our Visiting Staff; this was the addition to its number of Dr. Frances R. Sprague. For nearly nine years Dr. Sprague had served as assistant to the Children's Medical service, and her promotion was well earned. We have received with regret the resignation of our Pathologist, Dr. John C. Spencer, to whom our sincere thanks are due for most valuable service extending over a number of years.

We can but feebly express our appreciation of the faithful and untiring service of our Visiting Staff of Physicians and Surgeons. We are fortunate in having on this Staff men and women whose standing in their profession is second to none in the State. Every one of them busy men and women, yet give freely and generously of their time, talents and strength for suffering humanity. Our most profound thanks are extended to every member of the Staff; their reward however must only be the satisfaction that comes from the knowledge of the good they have done.

To the Assistant Visiting Staff our thanks are also due for most excellent service.

We report with sincere regret the resignation in October of Dr. Emma K. Willits, who for three years had filled the position of Resident Physician most satisfactorily. By her faithfulness and gentleness, Dr. Willits endeared herself to all with whom she came in contact and her loss has been seriously felt. While regretting her loss, we wish her the success she deserves, in the private practice which she has taken up in our city. Dr. Mary E. Botsford, who has always been ready to aid us in an emergency, kindly consented to fill the vacancy until the first of January. Her work has been most acceptable and sincerely appreciated. Our Committee has been fortunate in securing for the position, Dr. H. Crabtree, a graduate of the Northwestern University of Chicago. Dr.

Crabtree has had much experience in institutional work and we feel will be a desirable addition to our Staff. The work of the Hospital having largely increased, it was found necessary to appoint an Assistant Resident Physician; Dr. Bertola was selected for the position and has done excellent work. We have had a complete change of Internes during the year and have now a larger force than ever before.

There have been cared for in the Hospital during the year 1,032 patients, an increase of nearly two hundred over the previous year. Of these, 601 were children. The average number of children in the Hospital, each month of the year was 126, as against 109 for the previous year. More than one-half of these were absolutely free patients; a large proportion of the others were practically free, the amount paid for their care being so exceedingly small.

It is, and has always been, our policy never to refuse admission to a child, if it be possible to accommodate it, which usually means that it is "crowded in."

We have had an average of 64 adult patients in the Hospital each month, and our free beds for adults have been kept filled. Our income from patients has exceeded the income for any year in the history of our institution, it having been a little over \$20,000; a most satisfactory showing. There were 127 births in the Maternity Cottage, an increase over the year 1899. This branch of our work is increasing as the homelike cottage becomes better known, and bids fair to become an important factor in the income of the hospital.

The work of the Training School has progressed satisfactorily. We were again compelled to look for a new Superintendent of Nurses, as Miss Newbury resigned in February. Miss Lillian Huffcut, a graduate of Bellevue Hospital Training School, was secured for the position and has done excellent work.

Seventeen nurses were graduated during the year, the graduating exercises being held on the evening of June the fifteenth. All the graduates did creditable work and earned the right to their diplomas. Two of them remained

as head nurses, one in the Gynecological service the other in the Maternity cottage. This innovation has proved very satisfactory. We have been enabled this year to give our nurses two courses of lessons in invalid cooking, which were most highly appreciated. The instruction was given by Miss Voorhees, a graduate of the Drexel School of Cooking, of Philadelphia, and was very thorough. The course of training has been increased to twenty-six months, the two months of probation no longer counting as a part of the two years' course. The adoption of a three years' course is being considered.

An important event in the history of the Training School was the opening and occupying of the Nurses' Home, in May. There is accommodation in the Home for the Superintendent and forty-three of the nurses. The large "living room" affords a delightful meeting place for them in the evening, where they can relax after the strain of their day's work and enjoy themselves without fear of disturbing the patients. We believe the health of our nurses has been better for the change.

A "Book Club" has been formed for the benefit of the school and already there is a nucleus of a good library.

The work at the Dispensary has increased materially, although the income does not as yet cover the expense of maintenance. This is not to be wondered at, however, when we consider the financial condition of those who go there for medical care. The good done is all that we shall probably ever be able to take into account in this branch of our work. 2909 patients were treated at the Dispensary during the year, an increase of 360 over the previous year.

Our Dispensary Staff and Internes have made 470 visits and our nurses 585 visits to the sick poor in their homes. Besides the good done the experience has been most valuable to both internes and nurses. Five poor families were reported and promptly aided by the Dispensary Committee.

Two changes were made in the Dispensary Staff during the year. In January, Dr. MacMonagle resigned his

position as Clinician to the Gynecological and Surgical Service and Dr. Alice M. Woods was elected to succeed him. In March, owing to ill health, Dr. Grace Feder resigned her position as Clinician to the Eye, Ear, Nose and Throat Service and Dr. Edward K. Hopkins succeeded her. The Dispensary Staff and its assistants, Drs. Sankey and Scott, have given most excellent and faithful service and the thanks of the Board of Managers are heartily accorded them.

The Clinic established at the Hospital is slowly but surely being built up and promises to be some day an important feature of our Hospital work. It is helpful in many ways.

Aside from our every day expenses, which are always necessarily large, we have been under considerable additional expense for necessary improvements and repairs. The office was changed and a telephone switch board put in at a cost of over three hundred dollars. The winter rains developed the weak places in the roof of the main building and it had to be repaired at a large expense. All the rooms and wards have been thoroughly cleaned and put in order and the Hospital is now in excellent condition. The operating room in the main building being totally inadequate for its work a new one was fitted up on the top floor with every improvement; a "thing of beauty" and a satisfaction to the entire Staff. The expense of the improvement was generously assumed by Miss Kohl, who most kindly sent the Committee in charge a check for four hundred dollars.

Six new memorial beds have been placed in our wards, the "D. N. Walter," "Anna M. Dixon," "W. S. McMurtry," "Andrew D. Martin," the "Sister" and the "Marguerite." Our "Memorial Bed" committee has planned its work most carefully and systematically, and the beds have never been in better condition. The committee deserves the greatest credit for its excellent work.

The following new life members have been added to our list: Miss E. L. Buell, Rosalie Hausmann, Henry G. Greenzweig, Dorothy Walter, D. N. Walter Heller, Ruth Heller, and Hannah Meertief. It being considered that our fee

for life membership has been too low it was recently decided to increase it. The fee for adults is now one hundred dollars instead of fifty dollars as heretofore, and fifty dollars for children instead of twenty-five dollars. These higher rates prevail in almost all institutions.

We have received during the year the following bequests: from the estate of Mr. Cohen, \$50, from that of Mrs. H. L. Simon, \$500, from that of Mme. Marie Bechtel, \$500; and from that of Mrs. Hannah Sachs, \$250; in all, \$1300. We have been remembered in several wills, and should there be no legal complications, with the settlement and distribution of the estates, our treasury will be handsomely increased during the coming year.

It can hardly be said that "the Children's Hospital has been constantly before the public" with entertainments during the year just passed, as we have given none ourselves and but three have been given for us, only one of which was advertised. On the afternoon and evening of May 5th Miss Hamlin's school gave an entertainment and bazaar from which they realized, and generously turned over to the Hospital, \$800. The members of the school hope eventually to establish and endow a Hamlin School Bed. The other two entertainments were given by little children, from one \$16.25 was realized, from the other \$10.67. The children brought the money to the Hospital themselves and the happiness with which they turned it over was well worth seeing.

Our "Donation Days" held December 20th, 21st, 22nd and 24th were the most successful we have ever had, owing no doubt to the fact that this was our "Silver Jubilee" year. \$4,395.50 was received, besides generous donations of supplies and a number of new monthly subscriptions. All of the envelopes, circulars, printing, etc., were donated and the newspapers were more than generous in giving us advertising and press notices. We can scarcely find words to express our appreciation of and thanks for the kindness of the press of San Francisco. In every newspaper office we were shown the utmost kindness and consideration and everything

was done to aid us. Our most sincere thanks are extended to the press, and we hope our work will ever be worthy of its generosity. Every donor has been thanked for contributions, large and small, but we take this occasion to again express our thanks. Our Endowment Fund was remembered and we have a nucleus for our San Francisco Mothers' Bed which we hope to make an accomplished fact in the coming year. The idea in founding the bed is to give the mothers of San Francisco an opportunity to establish a free perpetual bed for a child so that each, no matter how small her contribution, may feel, as it were, a proprietary interest in the bed, and may know she is a factor in giving hospital care to some poor unfortunate little one.

The Hospital was well remembered on Thanksgiving, and thanks to kind friends, a bountiful dinner was served, Mrs. Downey Harvey furnishing ice-cream for all. The happiest time of all the year, however, was Christmas, and it was the opinion of all that it was one of the happiest the Hospital has ever known. The Christmas tree and entertainment of the children was taken charge of by the young ladies of "The Auxiliary," and everything possible was done for their pleasure. Thanks to the children's friend, Mr. Wm. Babcock, whose annual donation for their Christmas is never forgotten and to Miss Kohl, who, though far away, remembered our little charges, every child was generously supplied with gifts and all were supremely happy. The "Chrysanthemum Auxiliary" aided in supplying a good Christmas dinner and did much towards making the day a pleasant one.

We have much to thank our Auxiliaries for (there are three of them now, "The Auxiliary," "The Chrysanthemum Auxiliary" and "The Marguerite Auxiliary," recently formed.) Each Auxiliary supports a bed, and the young ladies composing them give much of their time and strength, visiting the Hospital, reading to the little ones, and in every way possible helping to make them happy. It speaks well for the mothers of our city, that so many of their daughters are encouraged to do something for the comfort and happiness of those less fortunate than themselves.

For the beautiful flowers with which the children have been supplied every week during the last year, we owe thanks to Mr. J. W. Ellsworth, who, in the name of his baby daughter, Miriam, has sent to the President of "The Auxiliary" the money with which to purchase them. The children enjoy more than words can tell this little breath of the outer world, from which many of them have been so long separated.

We are indebted to the San Francisco Branch of the Needlework Guild of America for 420, to the Ross Valley Branch for 23, to the San Rafael Branch for 32 and to the Cupertino Branch for 100, new garments.

To the Mizpah Charity Club our thanks are due for the making of 169 garments. For many years this Club has been a most valuable aid to our Committee on Hospital sewing and its work has been gratefully appreciated.

To Mrs. Mary Halleck Foote we wish again to extend thanks for her donation of the rights to her book, "Little Fig Tree Stories." This delightful little book has been the means of enriching our treasury to the extent of about \$500.

In recording our thanks to those who have aided us we must not forget the kindness of Chief Engineer Sullivan, of the S. F. Fire Department, who instituted a fire drill for our Hospital and detailed one of his men to give instructions until a satisfactory result was attained. We extend our sincere thanks to the Chief and his men.

In June, a very generous donation of two thousand dollars was received from Mrs. C. P. Huntington and at Christmas Mrs. Wm. Kohl and Mr. J. L. Flood each kindly remembered the Hospital with a donation of five hundred dollars.

In looking over our list of donations we have been struck with the fact that it has not been the large donations, but the many modest ones, which have made up the grand total for the year, and that many of them are from those whose names have never before appeared in our list of donors. It points to the fact that our Hospital is becoming more widely known and its beneficent work more appreciated and that the number of our friends will soon be legion.

## Crutch and Splint Fund.

### TRUSTEES.

SIDNEY V. SMITH,

WINFIELD S. JONES,

S. LEONARD ABBOTT, JR.

The Fund continues to be a great satisfaction. The equipment of the Orthopedic Service, in the way of surgical instruments, appliances, and laboratory apparatus, is each year added to, and each addition is, if possible, so selected that it can be counted a permanent improvement. Many of the articles purchased can be used by all the different services in the Hospital work, and so extend the good the fund does. The apparent surplus at the end of this year is prearranged for the purchase of some special laboratory instruments for the special cases in the "Little Jim" ward.

Very few books have been bought, but some have been donated, and the list of journals taken has been added to, so that the little library is becoming more useful for the house staff.

The usual financial statement is appended:

## Report of The Auxiliary.

Within the last year the Children's Hospital Auxiliary has held eight monthly meetings, and one special meeting, with six weekly sewing meetings, in which twelve sheets, twelve pillow cases, twelve towels, three bed spreads, and fifteen flannel night-gowns were completed.

The Auxiliary also donated \$20.00 (twenty dollars) to the Hamlin School May Fete, which was held to aid the Hospital.

During the summer months of June, July and August, no meetings were held, but from October monthly sewing meetings were begun, to be continued through out the year. Night-gowns so far have been the principal articles made. The members also took entire charge of the Christmas festivities for the children, donating and trimming the trees for each

ward. Twenty-five dollars worth of night-gowns were also donated, through the Auxiliary, for Thanksgiving.

There was no change of officers during the year, and Miss Mary Scott was the only new member taken in.

Donations and subscriptions through the Auxiliary for the year have amounted to \$343.50 as against \$51.50 last year.

The Auxiliary also decided to send \$4.00 (four dollars) annually for the subscription of a magazine for the nurses' home, the choice of said magazine to be made by the nurses.

Thirty pairs of shoes were also donated through the Auxiliary, for the children.

In closing this, my third term of office as secretary of the Children's Hospital Auxiliary, it is gratifying to notice the increased interest in financial and other ways.

Respectfully submitted,

THERÈSE MORGAN,

Recording Secretary Children's Hospital Auxiliary.

---

### **Report of the Chrysanthemum Auxiliary.**

*To the Lady Managers, Hospital for Children.*

I will try and tell you just what the Chrysanthemum Auxiliary has done since the last report.

In November we donated six turkeys for Thanksgiving dinner, and also contributed twenty tennis-flannel bed room sacks for the little ones; these the girls of the club made. The proceeds of the party that we gave on January nineteenth, amounted to \$140, after paying all expenses.

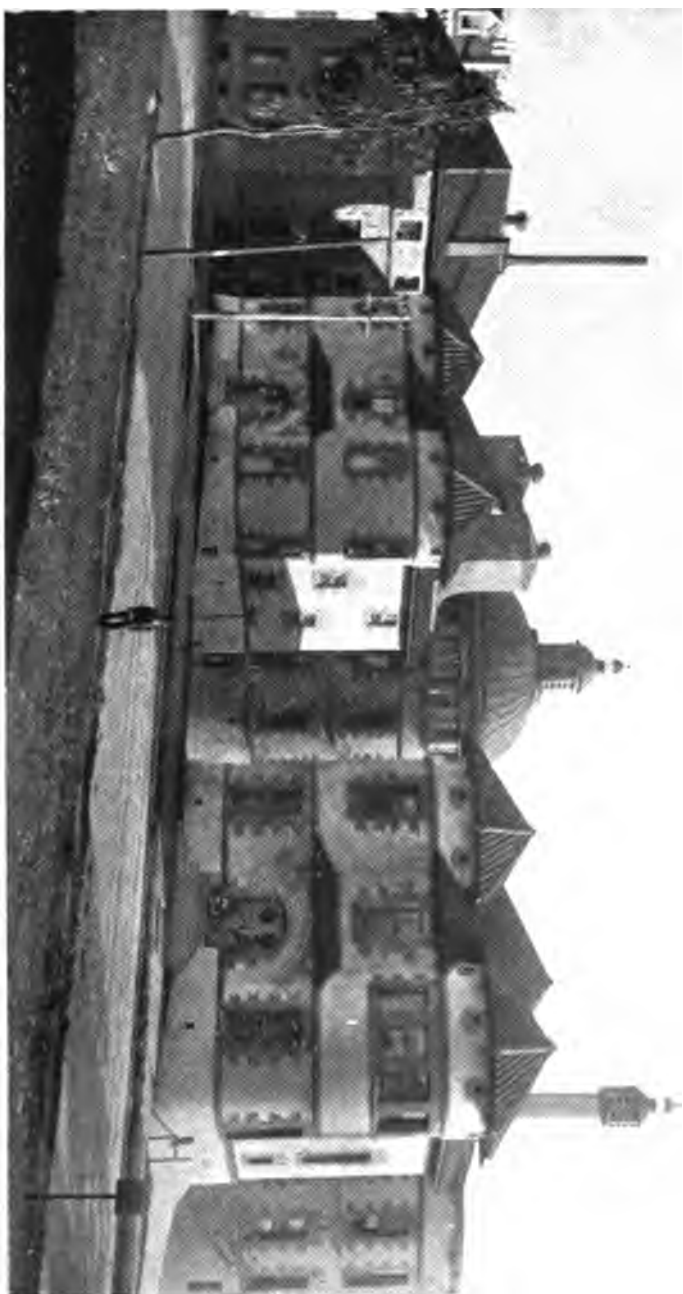

We have now in the bank about \$238.

Our next work will be sewing petticoats, as the matron said that they needed them more than anything else.

Believe me, I am

truly yours,

EDITH L. BULL,  
President.

NURSES' HOME.

"LITTLE JIM" WARD.

RYE AND RAR WARD.

## **Report of the Marguerite Auxiliary.**

---

The Marguerite Auxiliary was organized October 30, 1900, with nine members.

Ruth F. Merrill, President.

Bessie Ashton, First Vice-President.

Carol Moore, Second Vice-President.

Helen H. Ashton, Secretary.

Josephine Harrington, Corresponding Secretary.

Lillian Whitney, Treasurer.

Cecil McLellan, Kathleen Bull and Carrie Mills.

By courtesy of the Hospital Board a bed was given to the Auxiliary, the Marguerites furnishing the linen and marking the same. We have had seven meetings at the home of the honorary president, Mrs. John F. Merrill, and to-day made our first payment of \$10.00 to the Treasurer of the Memorial Bed Fund of the Children's Hospital.

The girls are interested in their work and enjoy their meetings. We hope before the year has closed that our bed will be fully established and the Marguerites interesting others to give to the Hospital.

HELEN H. ASHTON,  
Secretary.

RUTH F. MERRILL,  
President.

## Report of Resident Physician.

*To the President and Ladies of the Board of Managers of the Hospital for Children and Training School for Nurses.*

## **Memorial Beds.**

---

### **INFORMATION AS TO THE FOUNDING AND MAINTENANCE OF BEDS.**

---

In response to numerous inquiries, the managers of the Hospital for Children and Training School for Nurses, beg to state as follows :

I. By furnishing bed and bedding and an additional gift of one hundred dollars, the donor will be entitled to name a bed, the name to be continued so long as the necessary furnishings are kept in order. By consent of the Board of Managers, the donor may suggest who shall occupy the bed, subject to the rules of the Hospital; it being understood that this amount does not support a free patient. The cost of placing such a memorial bed is estimated to be \$175. If this amount is sent to the Treasurer of the Hospital, the Committee on Memorial Beds will attend to the purchasing, making and marking of all necessary articles. Persons so desiring can furnish their own supplies.

II. Any church, association, or individual contributing \$3000 is entitled to control one bed for thirty-three years; and, if this amount be increased to \$5000 within two years after the original payment is made, said control is made perpetual.

III. Any church, association or individual contributing \$5000 is entitled to control one bed perpetually, or in lieu thereof, may name a room of one or more beds, and such room shall be known thereafter by such name.

All beds must be supplied annually with necessary furnishings. It has been estimated that the cost of such furnishings is about twenty-five dollars. Donors of beds, so desiring may send the sum of twenty-five dollars to the

Treasurer of the Hospital, and the Committee in charge of "Memorial Beds" will see that all articles are supplied and marked.

Notice will be sent to all donors annually, stating the condition of furnishings,

### LIST OF ARTICLES REQUIRED.

Bedstead.	3 spreads.
Panel.	3 pairs 10-4 blankets (double, 2
12 sheets, $2\frac{3}{4} \times 1\frac{1}{2}$ yards.	pairs white, 1 pair colored).
12 pillow-cases 30x18 inches.	2 bath towels.
12 towels (hemmed).	1 hot-water bag.
	1 rubber sheet.

Bedding to be marked in red French cotton with name of bed.

## Report of Training School.

*To the President and Board of Lady Managers of the Hospital for Children and Training School for Nurses.*

One of the pleasant things connected with writing a report of the Children's Hospital Training School is the steady progress which I believe we are making.

There are at present in the school forty-six pupil nurses, and two graduate nurses. One of these was appointed in 1899 to the Alexander Maternity Cottage, and early in 1900 Miss Lynch was appointed to the gynecological service. The wisdom of these appointments is acknowledged by all.

The formal applicants during the year 1900 numbered 277. Of these 33 were accepted as pupil nurses, but seven were found unfitted for the work. Seventeen nurses were graduated.

The usual courses of instructions and lectures have been given, to which has been added a course in invalid cooking. Two of these cooking courses were given during the year of eighteen lessons each, under the very efficient direction of Miss Voorhees. These lessons were sadly needed and we congratulate ourselves on securing them.

In May we moved into our Home, where we are very comfortable and happy. The general health of the nurses has been good, no one has been seriously ill. For the most part the nurses have shown interest and pleasure in their work, and it is gratifying to me to make this acknowledgment of their splendid unselfish services.

On behalf of the nurses and myself I wish to express our appreciation of the uniform generosity, and kindly interest shown us by the entire Staff of Physicians and Surgeons; also to the Board of Managers for their never failing interest and generous consideration.

Respectfully submitted,

LILLIAN HUFFCUT,  
Supt. of Nurses.

## Regulations for Training School for Nurses.

---

The Board of Managers of the Training School for Nurses connected with the Children's Hospital has made arrangements for giving a two years' course of training to women desirous of becoming professional nurses.

Those wishing to obtain this course of instruction must apply personally or by letter to the Superintendent of the Training School, 3700 California Street, San Francisco, Cal. The most desirable age for candidates is from twenty-one to thirty-one years. They must be in sound health, and must present on application a certificate from some responsible person as to their good character, also a certificate of graduation from at least a grammar school. This amount of education is *indispensable* for a member of the School, but applicants are reminded that women of superior education and cultivation, when equally qualified as nurses, will be preferred to those who do not possess these advantages. Applications from the *domestic class* are not accepted.

The first two months in the Training School are probationary and are not included in the two years course. During these months of probation the pupils are boarded and lodged at the Hospital, but receive no other compensation. They are not expected to wear the uniform of the School, but must come provided with dresses and aprons of washing material for use in the Hospital. A physical examination will also be made by the Resident Physician.

They are under the authority of the Superintendent, and are subject to the rules of the Hospital. Their fitness for the work, and the propriety of retaining or dismissing them at the end of two months is determined by the Superintendent and the Training School Committee, and the same authorities may also discharge them at any time in case of misconduct or inefficiency.

OPERATING ROOM OF THE GYNECOLOGICAL WARD.

Nurses are required when on duty to wear the dress prescribed by the School, which is of blue gingham, simply made, white apron, cap, and linen collar and cuffs. They serve for the first year as assistants in the wards; the second year they are expected to perform any duty assigned them by the Superintendent of the School, either to act as head nurses in the Hospital or to be sent to private cases among the rich or poor.

Those fulfilling the conditions of the probationary months are accepted as pupils. They are required to sign a written agreement as a guarantee that they will remain two years and faithfully conform to all rules.

The sum of five dollars per month is allowed each nurse, but is in nowise intended as wages, it being considered that the education given is a full equivalent for her services.

The day nurses are on duty from 7 A. M. to 7 P. M., with an hour for exercise or rest. They are also given an afternoon during the week, and have a right to five hours on Sunday. A vacation of two weeks is allowed each year.

In sickness all pupils will be cared for gratuitously. Time lost by reason of vacations, illness, etc., must be made up. A full two years' course, exclusive of lost time, is absolutely required.

As the institution is non-sectarian, there are no religious services connected with it, and all nurses are expected to attend the place of worship they prefer once on Sunday.

The following is a list of text books required:—

- Anatomy, Quiz Compend. By Potter.
- Physiology, Quiz Compend. By Brubaker.
- Obstetrics, Quiz Compend. By Landis.
- Materia Medica. By Dock.
- Text Book of Nursing. By Weeks.
- Surgical and Obstetrical Nursing. By Davis.
- A Pocket Dictionary. By Gould.
- Invalid Cook Book. By Boland.
- Reference Books.
- Grey's Anatomy.
- Martin's Human Body.

**COURSE OF TRAINING.**

The instruction includes :

1. The dressing of burns, sores and wounds; the preparation and application of fomentations, poultices and minor dressings.
2. The application of leeches, and subsequent treatment.
3. The administration of enemas and use of catheter.
4. The management of appliances for uterine complaints.
5. The best methods of friction to the body and extremities.
6. The management of helpless patients; making beds; changing sheets while patients are in bed; moving; giving baths in bed; and preventing and dressing bed sores.
7. Bandaging; making bandages and rollers; lining splints.
8. The preparing, cooking and serving of delicacies for the sick.

They will also be given instruction in the best practical methods of warming and ventilating sick rooms, and are taught to take care of rooms and wards; to keep all utensils perfectly clean and disinfected; to make accurate observations, and to report to the physicians of the state of the secretions, expectorations, temperature of body, pulse, skin, appetite, intelligence (as delirium or stupor breathing), sleep, condition of wounds, eruptions, formation of matter, effect of diet, or of stimulants, or of medicines, and to learn the management of convalescents.

Lectures, recitations and demonstrations will take place from time to time, and examinations at stated periods.

At the end of the first year a preliminary examination of each nurse will be held, and according to its results, she will be rejected, set back in her course, or continued in her work.

When the full term of two years is completed, the nurses thus trained, will, on passing an examination, receive diplomas

of the School, signed by the Examining Board and by the President and Recording Secretary of the Board of Managers.

A post-graduate course of from three to six months is open to graduates of this school. Students in the post-graduate class will receive no compensation for their services other than their board, room and washing.

For particulars, apply to the Superintendent of the Training School for Nurses 3700 California Street, San Francisco, Cal.

**Questions to be Answered by Applicants.**

1. What is your full name? Ans.....
2. What is your age? Ans.....
3. State the place and the date of your birth. Ans.....
4. Are you single, married, divorced or a widow? Ans.....
5. What is your weight? Ans.....Height? Ans.....
6. Have you anyone dependent on you for support? Ans.....
7. Are you otherwise free from responsibility, so that you are not liable to be called away? Ans.....
8. Are your eyesight and your hearing perfect? Ans.....
9. Have you any tendency to pulmonary disease? Ans.....
10. What illness have you had? Ans.....
11. Educational advantages—Of what school are you a graduate?  
Ans.....
12. What is your present occupation, if any? Ans.....
13. What has been your previous occupation? Ans.....
14. Have you ever been in a training school or employed in a hospital or asylum? If so, when, where and how long at each place?  
Ans.....
15. Give the names and addresses of two persons, not your relatives, also your physician, and state how long each has known you.  
Ans.....
16. Give home and address of your parents, or your nearest relative  
Name.....  
Address.....  
If accepted, when would you be ready to enter this school?  
Ans.....

Having read, clearly understanding and fully agreeing to the conditions of admission, I declare the above statement

made by me to be correct; and if accepted as a candidate, will in all respects comply with all the regulations of the School and Hospital.

Signed.....  
Name of candidate in full.

Postoffice address.....

Nearest telegraph address.....

Date..... I....

*N. B.—These questions must be answered in the applicant's handwriting, and with testimonials of health; character and education, returned to the SUPERINTENDENT OF THE TRAINING SCHOOL, 3700 California Street.*

# REGULATIONS.

The charge for the services of a nurse is three dollars a day, or, if employed one week or more, twenty dollars per week. Traveling expenses and washing to be paid by the family employing the nurse.

When the nurse's services are no longer required, this sheet of paper is to be returned, sealed with a candid statement on the fly-leaf, of her conduct and efficiency, either from one of the family or the medical attendant, together with information of the amount to be paid, and whether it is enclosed or will be paid at the Hospital.

The nurse is to be allowed reasonable time for rest in every twenty-four hours, and, when her services are needed for several consecutive nights, at least six hours in the day out of the sick room must be given her.

## HOSPITAL FOR CHILDREN AND TRAINING SCHOOL FOR NURSES.

The services of the nurse..... being no longer required  
she is this day set at liberty to return home, and the sum of \$.....  
being the remuneration of her attendance is.....  
Signed.....  
Remarks as to conduct, efficiency, etc.

## **School Curriculum.**

---

### **JUNIOR YEAR.**

Bed-making—changing sheets and draw-sheets.  
Gentleness—Lifting and moving bed-patients.  
Temperature of sick room and ward.  
Methods of ventilation.  
Care and economy in the use of linen, towels, etc.  
Disposal of soiled dressings.  
Preparation of disinfectant solutions.  
Disinfection of rooms, wards, clothing and excreta.  
Care and cleanliness of ward utensils.  
Care of patients—Temperature, pulse, respiration, observation of symptoms, reports to physicians, chart making, frequency of bathing, prevention and treatment of bed sores.  
Baths—Hot-air, steam, salt water, tub, foot, mustard, sponge and cold-packs.  
Douches—Catheterization.  
Enemata—Kinds, methods of preparation, and mode of administration.  
Counter-irritants—Mustard poultices, turpentine, iodine, liniments, cantharides.  
Cupping—The cautery.  
External applications—Hot-water cans and bags.  
Fomentations—Poultices, ice.  
Medicines—Doses, weights and measures, methods of administration, care of medicine closets and medicine lists.

### **SENIOR YEAR.**

Surgical—Aseptic and antiseptic surgery, preparation of patient for operation, care of patient after operation, how to prepare for operation in private house.  
Gynecological—Preparation of patients for examination and operations, different positions, instruments and dressings, care of patient after abdominal section.  
Hemorrhages—How to control.  
How to deal with surgical emergencies.  
Shock, fractures, dislocations, sprains, contusions, burns and scalds, frost-bites.  
Medical—Different forms of fever, tuberculosis, Bright's disease, urine.  
Pregnancy—Care of infants.

## Schedule of Lectures for the Training School.

---

### ANATOMY.

W. B. LEWITT, M. D.

1. The Skeleton and Muscles.
2. The Circulatory and Respiratory Systems.
3. The Nervous System.
4. The Viscera.

### PHYSIOLOGY.

HARRY M. SHERMAN, M. D.

1. The Circulation of the Blood.
2. Digestion.
3. Kidneys and Ductless Glands.
4. Nervous System.
5. Orthopedic Appliances.

### OBSTETRICAL NURSING.

CHAS. A. VON HOFFMANN, M. D.

ADELAIDE BROWN, M. D.

1. Pregnancy.
2. The Diet.
3. Preparation for Labor.
4. Natural Labor.
5. The Puerperal State.
6. Care of Infant.

### HYGIENE.

ALICE M. WOODS, M. D.

1. Respiratory System.
2. Muscular System.
3. Tegumentary System.
4. Alimentary System.

## MEDICAL.

L. M. F. WANZER, M. D.

WM. WATT KERR, M. D.

1. Zymotic Diseases.
2. Local Diseases.
3. Constitutional Diseases.

## SURGERY AND GYNECOLOGY.

BEVERLY MACMONAGLE, M. D.

1. General and Special Preparation of Patients for Examination and Operations. Surgical Operating Rooms, and how to Prepare for Operations in Private Homes.
2. Care of Patients after Major and Minor Operations.
3. Hemorrhages and Surgical Emergencies.
4. Shock, Fractures and Dislocations.
5. Sprains, Contusions, Burns, Scalds, Frost-bites, Foreign Bodies in the Eye, Ear, Nose and Larynx.

## MEDICAL AND SURGICAL PEDIATRICS.

EMMA SUTRO MERRITT, M. D.

FRANCES R. SPRAGUE, M. D.

1. Feeding in Health and in Sickness during the First Twelve Months
2. Feeding in Health and in Sickness after the First Twelve Months.
3. Development and Care of Children.
4. Nursing in the Non-contagious Diseases of Childhood.
5. Nursing in the Contagious Diseases of Childhood.
6. Surgical Nursing of Children.

## EYE AND EAR.

WILLIAM E. HOPKINS, M. D.

1. The Anatomy of the Eye and Ear.
2. The Treatment and Nursing of Injuries and Diseases of the Eye and Ear.
3. Anatomy of the Throat. Nursing of Croup. Diphtheria, etc.

SUN ROOM OF THE GYNECOLOGICAL WARD.

## Announcement.

---

### OBJECTS OF THE HOSPITAL.

*First. To provide medical and surgical aid for sick children;* this being the main charity. No deserving case is ever refused as long as there is a bed vacant.

In the "Little Jim" Ward twenty-five beds have been set apart for incurable cases. The "Little Jim" is a *hospital*, not a home for crippled children who are otherwise well. It is intended for those little unfortunates whose pain and suffering can be relieved by medical care and attention.

*Second. To provide medical and surgical aid for sick women.* This is one source of revenue, and is a most important branch of the work. In the main building there are pleasant sunny rooms for adult patients, and in the new building, the lower floor of which is occupied by the Eye and Ear Ward, the upper floor is devoted entirely to adult cases. The rooms are bright and attractive, and the dainty "Sun Room" for convalescents is a most inviting spot. The operating room is fitted up with every modern appliance. The best of care and attention is guaranteed.

Outside physicians desiring to place their patients in the Hospital and to attend them, are invited to do so, and may feel assured that their patients will receive every attention.

The adult cases admitted into the Hospital are divided into three classes.

1st. *Those who are destitute and unable to pay anything.* For such cases, there are three free hospital beds, a medical, a surgical and an obstetrical; besides these there are the "Charlotte Blake Brown" free bed and the Henry C. Merrill endowed free surgical bed.

2nd. *Those who are able to pay hospital charges only.* To such cases, the services of the Hospital Staff are given free of charge.

3rd. *Those who are able to pay hospital charges and also for medical attendance.* Such patients desiring to enter the Hospital may make their arrangements with any member of the Hospital Staff or any outside physician whom they desire.

*Third. To educate nurses;* the design being to fit healthy young women to engage intelligently in this work by a two years' course of reading, lectures and practical nursing. The nurses are thoroughly trained in every department of the work.

The Resident Physician will be constantly in attendance at the Hospital to receive applications for admission.

Daily clinics are held at the Hospital at 9 o'clock 'A. M. also at the Dispensary, 1109 Mission street, near Seventh, from 9 to 10 A. M., and 3 to 4 P. M., for the sick poor, free of charge. District nursing has been established, and nurses detailed for duty at the Dispensary will answer calls from the sick poor in their homes.

## Rules and Regulations.

---

- I. The institution shall be under the charge of the Resident Physician, and of the Matron.
- II. PATIENTS shall be admitted and discharged by the Resident Physician, subject to the approval of the Attending Physician.  
No Patient shall leave the Hospital except by permission of the Resident or the Attending Physician. NO Patient allowed out after nightfall.
- III. Meals for Patients served punctually at hours designated. Breakfast, 7 a. m.; Dinner, 12 m.; Supper, 5 p. m. Children allowed lunch morning and afternoon.
- IV. Visitors are not allowed to distribute food, fruit, confectionery, or liquors to patients.
- V. Patients must pay for any extras they may desire.
- VI. Visiting days: Tuesdays and Thursdays from 2 to 4 p. m. No person admitted in the evening except by special permission. Children as visitors, will not be admitted.
- VII. Lights in the Wards must be out at 8 p. m. All lights in the Hospital must be out at 10 p. m. From 9 p. m. to 6 a. m. the Hospital must be kept perfectly quiet.
- VIII. All complaints must be made to the Attending, or to the Resident Physician, and in case of their inability to remove the difficulty, they shall report to the Board of Managers.
- IX. A kind and courteous demeanor is expected on the part of the Nurses and Inmates toward all with whom they come in contact.

- X. Neatness and punctuality are expected from all inmates of the Hospital.
- XI. Bills are payable weekly, in advance, or when presented by the clerk.
- XII. Adult patients' washing is not included in weekly rates. It must be sent out.
- XIII. Patients discharged should have a certificate signed by the Resident Physician.
- XIV. The Resident Physician has the exclusive power to admit or exclude visitors. No patient may have more than TWO visitors on the same day, except by special permission.
- XV. A record must be kept of all patients entering the Hospital. Applications may be made to the Resident Physician for examination and treatment at the Hospital. Inquiries regarding the Medical Department may be answered only by Resident Physician or Internes.

*No incurable adult cases will be admitted.*

Prescriptions and Supplies extra.	

Operating Room Fee for Minor Operations....	\$ 5.00
Operating Room Fee for Major Operations....	10.00
Special Anæsthetist .....	10.00

## President's Address.

---

The period has once more come about when, as our custom is, we pause in our Hospital work, review the labors of the past year, and take thought for the year that is before us. I think we have good reason for thankful hearts for the bountiful gifts and kindly encouragement we have received from our benefactors and friends during the past twelvemonth. Of the large amount given to the Hospital during that period, no inconsiderable sum was from bequests from friends who, though beyond hearing the audible thanks of the sufferers their bounty has relieved, in some manner that we know not of, realize the blessings that have followed their generosity. These gifts are set forth in detail in our Treasurer's report, as is also the result of our annual Donation Day, which was most satisfactory in every respect. A pleasing feature of this occasion was that gifts were not confined to the well-to-do. These gave from their abundance, and are entitled to our warmest thanks, but the numerous small amounts handed in by those less fortunate, touched our hearts, and shows that love and sympathy is common to rich and poor alike.

The satisfactory result of Donation Day, the only occasion during the year when we made a public appeal for assistance, confirms the wisdom of the plan of not giving frequent fairs or entertainments for replenishing our Treasury. The success of these affairs necessitates an extensive sale of tickets at the expense of hard and persistent effort, often disagreeable to both buyer and seller. We believe that the public, particularly the long-suffering business community, will appreciate our forbearance in this respect and that the Hospital will be the gainer thereby.

Many of the Children's Hospitals in the larger Eastern cities have, in quiet country places, homes where their convalescent children may be sent and by these the little ones are greatly benefited. It had long been our hope that some time our Hospital might have such a retreat. This year—thanks to the generosity of one of our Board of Managers, Miss Mary E. Kohl—a home of this kind was tried experimentally at Elmhurst, with the most gratifying results to the children, who gained marvelously in health and strength during their four months' sojourn. Not only this, but the account of the Elmhurst Farm, printed in the *Chronicle*, read by a warm-hearted lady in this city, Mrs. Edward P. Danforth, so touched her sympathy, that she gave the money necessary for the purchase of the property and a further sum for its improvement. The "Tay Memorial Annex of the Children's Hospital" is now a permanent feature of our work, and I am sure that when the time comes, funds will be forthcoming for its support.

The work of the Maternity Cottage, which has continued to receive the encouragement of the lady whose name it bears, has been highly satisfactory, and the large number of patients cared for during the year shows that its benefits are increasingly appreciated.

The reports of your other officers give in detail what has been accomplished in all departments of the Hospital, which have been conducted in a manner creditable to all concerned.

Our pleasure at the good results of our year's labor is dimmed by the absence of a member of our Board of Managers, who for many years shared in our work and aided us by her counsel. Our dear friend, Mrs. Ignatz Steinhart, is with us no more to participate in the felicitations of the day. Her death seemed to us untimely, and yet had she outlived the Psalmist's limit, her character could have been no more lovely or her example more beautiful. Her presence brought sunshine, and happiness followed her good deeds.

Dear friends and associates, I thank you for the kind and constant support you have always given me. The years we have

toiled together have whitened the heads of some of our number, but our hearts are as ardent for the success of the work to which we are devoted as when it was first begun.

Respectfully submitted,

EMMA A. HARRINGTON,

President.

SUN ROOM OF THE "LITTLE JIM" WARD

## Report of Recording Secretary.

---

*To the Board of Managers, the Board of Trustees, and Members of the Association of the Hospital for Children and Training School for Nurses.*

FRIENDS:—For the twenty-sixth time the Board of Managers begs to submit for your consideration the Annual Report of its stewardship, and present the following statement of the affairs, transactions and results of the Hospital for Children and Training School for Nurses during the year just closed.

The Board has held seventeen meetings—twelve regular, four special and the annual; with a good average attendance at each meeting. But few changes have taken place in the Board. In January, Mrs. Henry Payot, Mrs. M. F. McGurn and Mrs. J. A. de Greayer were elected to fill vacancies which had occurred during the previous year, and during 1901, Mrs. F. H. Green and Mrs. Antoine Borel have resigned. In February, after fourteen years of unselfish and conscientious work as Secretary, Mrs. L. L. Dunbar resigned that office to accept that of Treasurer, succeeding Mrs. H. B. Montague, who had resigned. Mrs. Montague's labors in this difficult position had earned the sincere gratitude of the Board. It is useless to attempt comment on the value to the Hospital of Mrs. Dunbar's efficient and untiring work or of her executive ability which has been such an important factor in the success of the Hospital. To fill the vacancy as Secretary, Mrs. T. L. Miller was elected.

There has been but one change in the Visiting Staff; this was the addition to the number of Dr. S. J. Hunkin, who had served for several years as Assistant in the Orthopedic Service. In April, Dr. Howard Morrow was elected to the Assistant Visiting Staff. In June, Dr. Harold Brunn of the Assistant Visiting Staff resigned as Pathologist and was granted leave of absence

from the Staff for one year. To fill this vacancy, Dr. Dorn was appointed to serve during Dr. Brunn's absence and Dr. Burrows was elected Pathologist. The thanks of the Board are extended to this body of unselfish charity workers whose talents, energy, strength and skill are given freely and cheerfully to the sick and needy, and once more they are assured of our deep appreciation of their tireless efforts and our recognition of their great value and our own good fortune.

The Hospital has been fortunate in retaining the services of Dr. H. T. Crabtree as Resident Physician, and the efficiency of this important service has been fully maintained. As customary, a complete change of Internes has been made during the year.

There have been 1,178 patients cared for during the year 1901, an increase of 144 over the previous year. Of these, 736 were children. The average number of children in the Hospital each month of the year was 143—an increase of  $13\frac{1}{2}$  per cent over the year 1900. A very large proportion of these were entirely free patients, and in furtherance of our policy never to refuse assistance where it is possible to grant it, the fee charged in many of the other cases was so small as to make them practically free patients. The average number of adult patients was 65 per month, an increase over last year. The income from patients was most satisfactory, showing the gratifying aggregate of \$23,898.12, against \$20,557.96 for the corresponding period last year. Our free beds for adults were kept full as usual.

The Maternity Cottage has continued in public favor, 110 births having been registered during the year.

The work of the Training School has progressed in the usual satisfactory way.

To increase the facilities of the Hospital, the position of Operating Room Nurse was created and Miss Nora Lynch was appointed to this place.

The graduating class of 1901 measured up fully to our high standard of excellence, 15 receiving diplomas at the exercises held at the Nurses' Home on the evening of June 13th.

The Book Club has been generously treated and its library is making most satisfactory progress.

The Hospital Clinic has been growing in usefulness, 418 patients having been treated there during the year.

The Dispensary Staff has maintained its high standard of efficiency and usefulness. Dr. Dorothea Watson was added to the Assistant Dispensary Staff during the year. The work of this branch has progressed satisfactorily, and it makes the gratifying report of having treated 2,691 patients; 691 visits have been made by the Staff and Internes and by Nurses to the sick and needy in the district, and financial relief has been granted to a number of poor families by the Dispensary Committee.

Four new Memorial Beds have been placed in our wards: The "Louisa Scott Devoe," "Caroline Smith," "Georgie Woods McElroy," and "Pixley." The Memorial Bed Committee has earned the thanks of the Board for its watchful care of this work.

The following new life members have been added to our list: S. W. Rosenstock, John David Stern, Mrs. M. S. Lowenthal, Mrs. A. E. Pratt, Mrs. Mary Halleck Foote, Helen Dorothy Foorman, and Louis M. Haussmann.

The following bequests previously made, were paid during the year: From the estate of Meyer Lewis, \$100; from that of Louisa Scott Devoe, \$10,649.65; a further payment of \$86.75 from the estate of Mme. Marie Bechtel; and one of \$3,000 from the estate of H. F. Woods (to be used in establishing and maintaining a Memorial Bed in memory of his daughter, Georgie Woods McElroy); from the estate of Mrs. F. M. Pixley, \$1,119 (in accordance with an expression of Mrs. Pixley's desire this sum was devoted to the maintenance of a bed in the "Little Jim" Ward and called the Pixley Bed); and \$5,000 from the estate of Miss Anna Cohn. The last bequest was recognized by naming a room in the Hospital after this lady.

During the spring of 1901, the Medical Staff expressed the belief that the children who had been residents of the Hospital for many years would be greatly improved could they have the benefit of pure country life and air. While at the outset this seemed an impossibility on account of the large expense entailed, Miss Mary Kohl came generously and promptly to the rescue, and with her aid the experiment was soon an acknowledged suc-

cess. A Home was established at Elmhurst, where fourteen of the children were transferred, and the marked improvement in their condition was a source of gratification to the entire Board and Staff. One little boy who had never been off a stretcher was running about in a few weeks; another, who it was thought would never leave the Hospital, was sent home much improved. The pleasure and happiness of the children knew no bounds. The attention of Mrs. Edwin P. Danforth having been called to this Home by an article which appeared in a Sunday *Chronicle*, she promptly assured the permanency of the plan by generously giving the sum of \$5,000 to buy, remodel and improve the property, which is to be known as the "Tay Memorial Annex," and to stand as a memorial to her father, mother and brother. It is such generosity as this that has made it possible for the Hospital work to be broadened from time to time, and too much honor cannot be extended this generous and unselfish act which so materially increases the Hospital's usefulness and its practical results.

The following donations were received during the year for the specific purposes mentioned: \$500 from Mrs. Julia A. Cahill to establish the Julia A. Cahill Endowment Fund of the Eye and Ear Ward, the interest on the same to be used for instruments in that service; \$100 to the Eye and Ear Ward from Mrs. L. Dennison in memory of her daughter, Lydia Woodworth; and \$5,000 from Mrs. E. P. Danforth for the purchase of property at Elmhurst.

Our Donation Days, held December 21st, 23rd and 24th, were most successful in every way—\$4,682.90 being received, besides quantities of groceries and provisions of all kinds, books, toys and clothing. Mr. James L. Flood remembered us with a contribution of \$500 and Mrs. William Kohl contributed a like amount. The cards, circulars, envelopes and printing were all donated, as well as the advertising and press notices. Our most heartfelt thanks are expressed to our kind friends who helped to make these our banner "Donation Days."

Our Endowment Fund has been increased to the amount of \$7,101.25 in donations and \$600 has been paid on the loan from

this fund; besides we have paid \$1,000 on our note of \$3,500 to the London and San Francisco Bank.

We have given no entertainments ourselves during the year, although a number of successful little fairs have been given by children for our benefit, \$78 having been added to our Treasury from this source. We appreciate such thoughtfulness on the part of the well and strong little ones toward those less fortunate ones in the Hospital.

Our Auxiliaries are doing the usual excellent work. The ball given by Auxiliary No. 1 was a great success and netted the handsome sum of \$509.00. Each Auxiliary assumes financial care of one child, besides helping in many ways. The Marguerite Auxiliary dressed many dolls for the Christmas trees and each assisted materially with the Thanksgiving and Christmas dinners.

As usual, the Hospital was kindly remembered on Thanksgiving Day, and a bountiful dinner was supplied by our kind friends. Christmas, under the supervision of the Auxiliaries, was the usual joyful occasion for the children. Christmas trees were set up in the different wards, toys and sweets were distributed, and again a bountiful dinner with plenty of turkey and ice cream for all.

We are indebted to the San Francisco Branch of the Needle-Work Guild for about 400 garments; to the San Anselmo Branch for 33 articles.

Our thanks are extended to the Mizpah Charity Club for the making of 458 garments during the year.

To Mary Halleck Foote, our thanks are again due for the further sale of "Little Fig Tree Stories" and the placing of her name among our Life Members but feebly expresses our appreciation.

During the past year, a prominent and pathetic figure in the Hospital history, one to whom, in a sense, we owe much of public sympathy and support, passed away in the person of Lester Kemp, the original "Little Jim." For many years his life was made happy and comfortable by this association, and through him it has been made possible for other incurables to receive the

same care, comfort, and assistance; for, indeed, the good he did lives after him.

Our support has been so generous and our friends so loyal and considerate that the year just closed may well be considered the most successful in our history, and this opportunity is taken, on behalf of the Board of Managers, to extend sincere thanks and cordial appreciation of the many kindnesses and donations received during the year.

Among our warmest friends we have always counted the Press of San Francisco, and its generous support has again been freely given. Much of public interest that means the success of our donation days is due to the courteous aid of our city papers, and they are again assured of our deep appreciation.

In the satisfaction that naturally follows a successful, prosperous year, we should not, however, lose sight of one vital factor: that during 1901 our income was swelled by the payment of a number of bequests previously made, but unfortunately the same condition will not obtain during the coming year, and we must again depend upon the hearty co-operation, loyal support and individual effort of our friends to keep the Hospital work up to its present high standard of usefulness and results.

Respectfully submitted,

ELEANOR LAIDLEY MILLER,  
Recording Secretary.

## Crutch and Splint Fund.

### TRUSTEES.

SYDNEY V. SMITH.                      WINFIELD S. JONES.  
S. LEONARD ABBOTT, JR.

The January dividend was not drawn in 1901, but went to increase the principal. The expenses for the rest of the year have been kept down to the lowest possible point, and some accounts have been arranged to run into 1902, so as to permit of this economy.

The special purchases of the year were the Oliver Tintometer for the Laboratory, some valuable books for the Library, and scales for use in the "Little Jim."

## Berkeley Surgical Ward Fund.

The fund in the German Savings and Loan Society remains, as by previous reports, \$2,144.84, plus the uncollected July, 1901, dividend. The account in the Berkeley Bank of Savings is, as in my last report, \$381.05, to which is to be added the uncollected July, 1901, dividend and the commercial account of \$71.45 which I have transferred to the savings account, as there has not existed a need of a commercial account for some time.

ANITA D. S. BLAKE,

Treasurer.

## The Auxiliary.

### SECRETARY'S REPORT.

*To the Board of Managers of the Children's Hospital:*

During the year of 1901, seven monthly and three special meetings of the Children's Hospital Auxiliary were held.

At the Annual Election held in January, the following officers were elected:

Honorary President .....	Mrs. John F. Merrill
President .....	Miss Carolan
First Vice-President .....	Mrs. Latham McMullen
Second Vice-President .....	Miss Gertrude Bates
Secretary .....	Miss Therese Morgan
Corresponding Secretary .....	Miss Smedberg
Treasurer .....	Miss Charlotte Field

The membership of the Auxiliary was not enlarged during the year, so as there were no resignations, no new members were admitted.

At the monthly meeting held in May, at the request of Mrs. Merrill, the Auxiliary decided for three months to send Ten (\$10) Dollars a month in aid of the support of Russell Boyd from Sacramento.

Through the Auxiliary, on Easter Sunday every child in the Hospital was provided with ice cream and Easter eggs.

During Lent, weekly sewing meetings were held at the residences of the members, and thirty-six (36) garments were completed and sent for Easter.

As customary, from May to November, no monthly meetings were held, but during these summer months, forty-three (43) garments were made and sent to the Hospital by the President.

On November the fifth, a dance was given for the benefit of the Hospital, by the Auxiliary members, in Golden Gate Hall, the expenses of music and rent of hall being donated by Mrs. Frank Griffin. Invitations, tickets and envelopes were given by Dodge. Donations of money toward the dance were received from the following:

Mr. Frank Carolan,	Twenty-five Dollars,
Miss Hopkins,	Twenty Dollars,
Miss Holbrook,	Thirty Dollars,
Mrs. Henry Crocker,	Twenty Dollars,
Mrs. William Tubbs,	Ten Dollars,
Mrs. Joseph Donahoe,	Ten Dollars,

Amount cleared, Five Hundred and Nine (\$509) Dollars.

At the December monthly meeting, it was decided to give Four Hundred and Twenty-five Dollars to the Hospital, reserving the balance for future use.

As customary, the Auxiliary took entire charge of the Xmas Trees in all of the wards, except the Receiving ward, which it was voted the Chrysanthemum Auxiliary should have charge of—the costume for Santa Claus was also provided by the Auxiliary, ice cream and also candy for the trees. Twenty white aprons were also donated.

Other donations during the year were as follows:

Mr. Lombard,	Eleven Dollars, Thirty-five Cents.
Mrs. Austin Tubbs,	Ten Dollars,
Mrs. Crockett,	Five Dollars,
Miss Houghton,	Five Dollars,
Mrs. Henry Scott,	Ten Dollars.

Through the Auxiliary, the total amount given to the Hospital during the year 1901 was \$501.35, as against \$343.50 of last year.

Respectfully submitted,

THERESE MORGAN, Secretary.

## **Chrysanthemum Auxiliary.**

---

### **SECRETARY'S REPORT.**

The Chrysanthemum Auxiliary of the Children's Hospital has held its meetings regularly once a month for the past year, omitting the summer months of June, July and August.

Its annual meeting was held on April 2d, 1901, at Mrs. Merrill's residence, 1732 Washington St. The election of officers on that day was as follows:

Honorary President .....	Mrs. John F. Merrill
President .....	Miss Edith Bull
First Vice-President .....	Miss Castle
Second Vice-President .....	Miss Toy
Corresponding Secretary .....	Miss Wolff
Recording Secretary .....	Miss Hovey
Treasurer .....	Miss Callahan
Auditor .....	Miss Taylor

A dance was given by our club in February, from which we cleared \$130.

Since last April, \$10 has been paid from our Treasury each month for the support of one child in the Hospital. Total, \$90.

The sewing committee reports that each member has made one little gown.

Thanksgiving we provided ice cream and cake for the children, and at Christmas time we sent 10 turkeys.

On account of the absence of the treasurer, Miss Callahan, Miss Dutton was appointed to serve the remainder of the year.

Respectfully submitted,

RACHEL A. HOVEY,  
Recording Secretary.

## Marguerite Auxiliary.

---

### SECRETARY'S REPORT.

Since the last report to the Board of Managers of the Children's Hospital, the Marguerite Auxiliary has done work which we hope has been acceptable. There are now sixteen members, and a business meeting has been held the first Monday of each month.

A very enjoyable dance was given at Cotillion Hall on October twenty-sixth, which added to the Auxiliary's bank account.

During the summer vacation the members made gingham aprons for the children at the Hospital, and at Christmas sent toys for the tree. The members have visited the Hospital once during the winter, and expect to visit it soon again.

Respectfully submitted,

HELEN HOWARD ASHTON, Recording Secretary.

MRS. JOHN F. MERRILL, Honorary President.

RUTH FRANCES MERRILL, President.

HOSPITAL FOR CHILDREN AND

**Marguerite Auxiliary.**

---

**TREASURER'S REPORT.**

The Marguerite Auxiliary, during the past year, gave two dances, by which to raise money to help support the bed at the Hospital. The first dance, given February 9th, was very successful. We made one hundred and fifty dollars. Expenses paid out were twelve dollars and a few cents, leaving us with one hundred and thirty-seven dollars and forty-five cents. The second dance was not so successful. Collected at the door, eighty-one dollars and fifty cents; expenses paid out of that amount, leaving forty-five dollars and seventy-five cents.

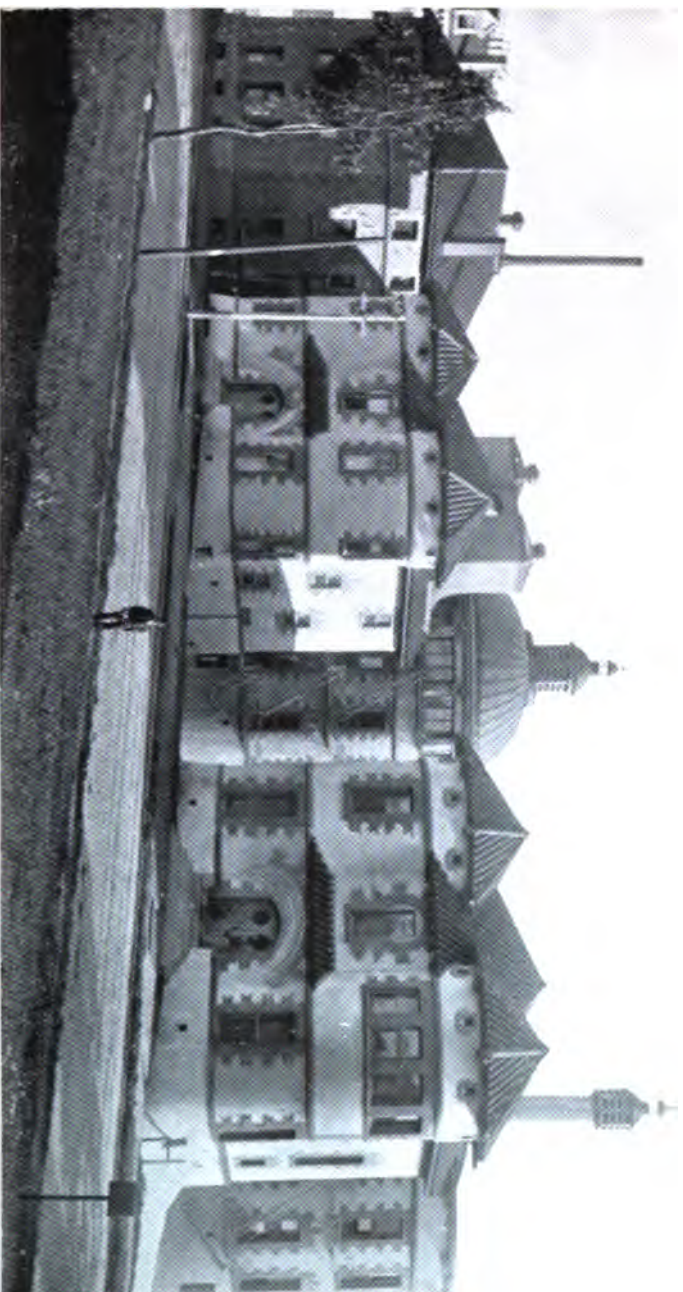

The Auxiliary has for a number of months paid out Ten Dollars for the support of a child in the Hospital. We have in the bank \$134.05.

Sincerely yours,

KATHLEEN E. BULL, Treasurer.

RUTH FRANCES MERRILL, President.

NURSES' HOME.

"LITTLE JIM" WARD.

EYE AND EAR WARD.

## Report of Resident Physician.

*To the President and Ladies of the Board of Managers of the Hospital for Children and Training School for Nurses.*

On behalf of the Medical Staff of the Hospital, I submit the following report of the work during the year ending December 31st, 1901.

This report would be incomplete without mentioning the great good resulting from the four months at Elmhurst made possible by Miss Kohl's generous gift.

Of the sixteen who were there, either the whole or a part of the time, twelve have since been discharged. The gain in weight ranged from three to six, and in one case ten pounds. The increase in hemaglobin being from twenty to sixty per cent.

OPERATING ROOM OF THE GYNECOLOGICAL WARD.

## Report of Memorial Bed Committee.

---

*To the President and Managers of the Hospital for Children.*

LADIES: The Memorial Bed Committee beg leave to inform you that they have now seventy-two beds in the different wards.

This year has not added to our number as previous ones; there have been placed but four beds, as follows:

The "Louisa Scott Devoe," by bequest left to the Hospital from her estate.

The "Caroline Smith," by her daughter, Mrs. A. W. Scott.

The "Georgie Woods McElroy," by her father, H. F. Woods, who left a bequest of Three Thousand Dollars for this purpose, and

The "Pixley Bed," from the estate of Mrs. Frank Pixley.

We still have some vacant spaces which we should feel pleased to have our friends fill for us, thus enabling us to extend our work for the little ones.

Respectfully submitted,

MRS. W. T. FONDA,	}	Committee.
MRS. N. D. RIDEOUT,		
MRS. R. V. WATT.		

## Memorial Beds.

---

### INFORMATION AS TO THE FOUNDING AND MAINTENANCE OF BEDS.

In response to numerous inquiries, the managers of the Hospital for Children and Training School for Nurses, beg to state as follows:

1. By furnishing bed and bedding and an additional gift of one hundred dollars, the donor will be entitled to name a bed, the name to be continued so long as the necessary furnishings are kept in order. By consent of the Board of Managers, the donor may suggest who shall occupy the bed, subject to the rules of the Hospital; it being understood that this amount does not support a free patient. The cost of placing such a memorial bed is estimated to be \$175. If this amount be sent to the Treasurer of the Hospital, the Committee on Memorial Beds will attend to the purchasing, making and marking of all necessary articles. Persons so desiring can furnish their own supplies.

II. Any church, association, or individual contributing \$3,000 is entitled to control one bed for thirty-three years; and, if this amount be increased to \$5,000 within two years after the original payment is made, said control is made perpetual.

III. Any church, association or individual contributing \$5,000 is entitled to control one bed perpetually, or in lieu thereof, may name a room of one or more beds, and such room shall be known thereafter by such name.

All beds must be supplied annually with necessary furnishings. It has been estimated that the cost of such furnishings is about twenty-five dollars. Donors of beds, so desiring, may send

the sum of twenty-five dollars to the Treasurer of the Hospital, and the Committee in charge of "Memorial Beds" will see that all articles are supplied and marked.

Notice will be sent to all donors annually, stating the condition of furnishings.

---

### LIST OF ARTICLES REQUIRED.

Bedstead.	3 spreads.
Panel.	3 pairs 10-4 blankets (double,
12 sheets, $2\frac{1}{2} \times 1\frac{1}{2}$ yards.	white.
12 pillow-cases $30 \times 18$ inches.	2 bath towels.
12 towels (hemmed).	1 hot-water bag.
	1 rubber sheet.

Bedding to be marked in red French cotton with name of bed.

## Report of Training School.

---

*To the President and Board of Lady Managers of the Hospital  
for Children and Training School for Nurses:*

The first year of the new century has been a prosperous one for the Training School. There are at present forty-six pupils and two graduate nurses in the school. One graduate has charge of the Alexander Maternity Cottage, and one is in the operating room service.

During the year 1901 there were two hundred and sixty formal applications for admission to the school. Of these thirty-seven were accepted, but nine were found unfit for the work. Twenty-four nurses were graduated. Of the class of 1902, two members resigned to marry, and two on account of ill health. It is with much sorrow that I report the death of one of the latter, Mrs. Catherine Short, who was given leave of absence in September on account of ill health. She never recovered her health, and died at Hollister, Cal., January 16, 1902.

For the most part I can report faithful and conscientious service from the nursing staff. To their unfailing and ready co-operation is due what success we may have attained as nurses.

The full course of instruction has been continued as before. Lectures by the Visiting Staff and class-room and outside instruction.

Number of Lectures by Staff Physicians.....	24
"    Classes by Superintendent and Assistants.....	113
"    Cooking Classes .....	18

To the Board of Managers and to the Medical Staff we wish to express our appreciation of their uniform consideration and kindness.

Respectfully submitted,

LILLIAN HUFFCUT,  
Superintendent of Nurses.

## Regulations for Training School for Nurses.

---

The Board of Managers of the Training School for Nurses connected with the Children's Hospital has made arrangements for giving a two years' course of training to women desirous of becoming professional nurses.

Those wishing to obtain this course of instruction must apply personally or by letter to the Superintendent of the Training School, 3700 California Street, San Francisco, Cal. The most desirable age for candidates is from twenty-one to thirty-one years. They must be in sound health, and must present on application a certificate from some responsible person as to their good character, also a certificate of graduation from at least a grammar school. This amount of education is *indispensable* for a member of the school, but applicants are reminded that women of superior education and cultivation, when equally qualified as nurses, will be preferred to those who do not possess these advantages. Applications from the *domestic class* are not accepted.

The first two months in the Training School are probationary and are not included in the two years' course. During these months of probation the pupils are boarded and lodged at the Hospital, but receive no other compensation. They are not expected to wear the uniform of the School, but must come provided with dresses and aprons of washing material for use in the Hospital. A physical examination will also be made by the Resident Physician.

They are under the authority of the Superintendent, and are subject to the rules of the Hospital. Their fitness for the work, and the propriety of retaining or dismissing them at the end of two months is determined by the Superintendent and the Training School Committee, and the same authorities may also discharge them at any time in case of misconduct or inefficiency.

Nurses are required when on duty to wear the dress prescribed by the School, which is of blue gingham, simply made, white apron, cap, and linen collar and cuffs. They serve for the first year as assistants in the wards; the second year they are expected to perform any duty assigned them by the Superintendent of the School, either to act as head nurses in the Hospital or to be sent to private cases among the rich or poor.

Those fulfilling the conditions of the probationary months are accepted as pupils. They are required to sign a written agreement as a guarantee that they will remain two years and faithfully conform to all rules.

The sum of five dollars per month is, allowed each nurse but is in nowise intended as wages, it being considered that the education given is a full equivalent for her services.

The day nurses are on duty from 7 A. M. to 7 P. M., with an hour for exercise or rest. They are also given an afternoon during the week, and have a right to five hours on Sunday. A vacation of two weeks is allowed each year.

In sickness all pupils will be cared for gratuitously. Time lost by reason of vacations, illness, etc., must be made up. A full two years' course, exclusive of lost time, is absolutely required.

As the institution is non-sectarian, there are no religious services connected with it, and all nurses are expected to attend the place of worship they prefer once on Sunday.

The following is a list of text books required:—

Anatomy and Physiology for Nurses .....	By Kimber
Text Book of Nursing .....	" Weeks
Materia Medica for Nurses .....	" Dock
Surgical Technique for Nurses .....	" Stoney
Obstetrical Nursing .....	" Fullerton

---

#### REFERENCE BOOKS.

Grey's Anatomy.	Martin's Human Body.
Potter's Materia Medica.	Osler's Practice.
Gould's Dictionary.	

### COURSE OF TRAINING.

The instruction includes:

1. The dressing of burns, sores and wounds; the preparation and application of fomentations, poultices and minor dressings.
2. The application of leeches, and subsequent treatment.
3. The administration of enemias and use of catheter.
4. The management of appliances for uterine complaints.
5. The best methods of friction to the body and extremities.
6. The management of helpless patients; making beds; changing sheets while patients are in bed; moving; giving baths in bed; and preventing and dressing bed sores.
7. Bandaging; making bandages and rollers; lining splints.
8. The preparing, cooking and serving of delicacies for the sick.

They will also be given instruction in the best practical methods of warming and ventilating sick rooms, and are taught to take care of rooms and wards; to keep all utensils perfectly clean and disinfected; to make accurate observations, and to report to the physicians of the state of the secretions, expectorations, temperature of body, pulse, skin, appetite, intelligence (as delirium or stupor breathing), sleep, condition of wounds, eruptions, formation of matter, effect of diet, or of stimulants, or of medicines, and to learn the management of convalescents.

Lectures, recitations and demonstrations will take place from time to time, and examinations at stated periods.

At the end of the first year a preliminary examination of each nurse will be held, and according to its results, she will be rejected, set back in her course, or continued in her work.

When the full term of two years is completed, the nurses thus trained, will, on passing an examination, receive diplomas of the School, signed by the Examining Board and by the President and Recording Secretary of the Board of Managers.

A post-graduate course of from three to six months is open to graduates of this school. Students in the post-graduate class will receive no compensation for their services other than their board, room and washing.

For particulars apply to the Superintendent of the Training School for Nurses, 3700 California Street, San Francisco, Cal.

## School Curriculum.

---

### JUNIOR YEAR.

- Bed-making—changing sheets and draw-sheets.
- Gentleness—Lifting and moving bed-patients.
- Temperature of sick room and ward.
- Methods of ventilation.
- Care and economy in the use of linen, towels, etc.
- Disposal of soiled dressings.
- Preparation of disinfectant solutions.
- Disinfection of rooms, wards, clothing and excreta.
- Care and cleanliness of ward utensils.
- Care of patients—Temperature, pulse, respiration, observation of symptoms, reports to physicians, chart making, frequency of bathing, prevention and treatment of bed sores.
- Baths—Hot-air, steam, salt water, tub, foot, mustard, sponge and cold-packs.
- Douches—Catheterization.
- Enemata—Kinds, methods of preparation, and mode of administration.
- Counter-irritants—Mustard poultices, turpentine, iodine, liniments, cantharides.
- Cupping—The cautery.
- External applications—Hot-water cans and bags.
- Fomentations—Poultices, ice.
- Medicines—Doses, weights and measures, methods of administration, care of medicine closets and medicine lists.

### SENIOR YEAR.

- Surgical—Aseptic and antiseptic surgery, preparation of patient for operation, care of patient after operation, how to prepare for operation in private house.
- Gynecological—Preparation of patients for examination and operations, different positions, instruments and dressings, care of patient after abdominal section.
- Hemorrhages—How to control.
- How to deal with surgical emergencies.
- Shock, fractures, dislocations, sprains, contusions, burns and scalds, frost-bites.
- Medical—Different forms of fever, tuberculosis, Bright's disease, urine.
- Pregnancy—Care of infants.

Emma Lafontaine, M. D.

**Gynecology and Obstetrics.**

*Tuesday and Friday—3 to 4 P. M.*

Mary P. Campbell, M. D.

## Announcement.

---

### OBJECTS OF THE HOSPITAL.

*First. To provide medical and surgical aid for sick children;* this being the main charity. No deserving case is ever refused as long as there is a bed vacant.

In the "Little Jim" Ward twenty-five beds have been set apart for incurable cases. The "Little Jim" is a *hospital*, not a home for crippled children who are otherwise well. It is intended for those little unfortunates whose pain and suffering can be relieved by medical care and attention.

*Second. To provide medical and surgical aid for sick women.* This is one source of revenue, and is a most important branch of the work. In the main building there are pleasant sunny rooms for adult patients, and in the Eye and Ear Building on Sacramento Street, the lower floor of which is occupied by the Eye and Ear Ward, the upper floor is devoted entirely to adult cases. The rooms are bright and attractive, and the dainty "Sun Room" for convalescents is a most inviting spot. The operating room is fitted up with every modern appliance. The best of care and attention is guaranteed.

Outside physicians desiring to place their patients in the Hospital and to attend them, are invited to do so, and may feel assured that their patients will receive every attention.

The adult cases admitted into the Hospital are divided into three classes.

*1st. Those who are destitute and unable to pay anything.* For such cases, there are three free hospital beds, a medical, a surgical and an obstetrical; besides these there are the "Charlotte Blake Brown" free bed, the "Henry C. Merrill" endowed free surgical bed, and the "Susan Holbrook" endowed free surgical bed.

*2nd. Those who are able to pay hospital charges only.* To such cases, the services of the Hospital Staff are given free of charge.

3rd. *Those who are able to pay hospital charges and also for medical attendance.* Such patients desiring to enter the Hospital may make their arrangements with any member of the Hospital Staff or any outside physician whom they desire.

*Third. To educate nurses;* the design being to fit healthy young women to engage intelligently in this work by a three years' course of reading, lectures and practical nursing. The nurses are thoroughly trained in every department of the work.

The Resident Physician will be constantly in attendance at the Hospital to receive applications for admission.

Daily clinics are held at the Hospital at 9 o'clock a. m., also at the Dispensary, 741-743 Brannan street, near Seventh, from 9 to 10 a. m. and 3 to 4 p. m., for the sick poor, free of charge. District nursing has been established, and nurses detailed for duty at the Dispensary will answer calls from the sick poor in their homes.

A Nurses' Directory for the graduate nurses of the Children's Hospital has been established at the Hospital. Telephone number, West 1126.

## Rules and Regulations.

---

- I. The institution shall be under the charge of the Resident Physician, and of the Matron.
  
- II. PATIENTS shall be admitted and discharged by the Resident Physician, subject to the approval of the Attending Physician.  
 No Patient shall leave the Hospital except by permission of the Resident or the Attending Physician. NO Patient allowed out after nightfall.
  
- III. Meals for Patients served punctually at hours designated. Breakfast, 7 a. m.; Dinner, 12 m.; Supper, 5 p. m. Children allowed lunch morning and afternoon.
  
- IV. Visitors are not allowed to distribute food, fruit, confectionery, or liquors to patients.
  
- V. Visiting days for children: Tuesdays, Thursdays and Sundays from 2 to 4 p. m. On Sundays parents only are admitted. Adult patients may have visitors any afternoon from 2 to 4 o'clock; at other times special permit must be obtained from the Resident Physician. No person admitted in the evening except by special permission. Children under fifteen will not be admitted as visitors.
  
- VI. Lights in the Wards must be out at 8 p. m. All lights in the Hospital must be out at 10 p. m. From 9 p. m. to 6 a. m. the Hospital must be kept perfectly quiet.
  
- VII. All complaints must be made to the Attending, or to the Resident Physician, and in case of their inability to remove the difficulty, they shall report to the Board of Managers.

- VIII. A kind and courteous demeanor is expected on the part of the Nurses and Inmates toward all with whom they come in contact.
- IX. Neatness and punctuality are expected from all inmates of the Hospital.
- X. Bills are payable weekly, in advance, or when presented by the clerk.
- XI. Adult patients' washing is not included in weekly rates. It must be sent out.
- XII. Patients discharged should have a certificate signed by the Resident Physician.
- XIII. The Resident Physician has the exclusive power to admit or exclude visitors. No patient may have more than TWO visitors on the same day, except by special permission.
- XIV. A record must be kept of all patients entering the Hospital. Applications may be made to the Resident Physician for examination and treatment at the Hospital. Inquiries regarding the Medical Department may be answered only by Resident Physician or Internes.  
*No incurable adult cases will be admitted.*

Drugs and Dressings, Medical and Surgical Supplies extra.	

## President's Address.

---

On every hand we see evidences of our city's growth in population and in wealth. There are comparatively few who consider that with this expansion there inevitably comes a corresponding increase in the casualties and in the victims of disease, for the treatment of which our hospital was established. Fortunately, however, during the past year the means at our command, thanks to the generosity of the San Francisco public whose charity keeps pace with increasing needs, have been adequate to the greater demands which have been made upon our institution. In addressing you at our last annual meeting, attention was called to the numerous bequests we had received during the year. It then seemed that this period was to be an exceptional one in this respect, but I think your Treasurer's report will show that our income from this source in 1902 was nearly, if not quite, equal to that of the year previous. It is evident that our charitably inclined citizens have come to realize that the Children's Hospital is a worthy object of remembrance, doing more than double duty, as it were, caring not only for afflicted children of needy parents, for the sick orphans of such unfortunates and affording a place where children in happier circumstances may receive better attention and service than in the homes of their parents, however well-to-do. Our doors are never shut to children whose parents lack means to pay for their treatment. There is hardly an orphan asylum or public charity in the city from which such children have not been received, and we have reason to know that the managers of these institutions warmly recognize the benefits conferred upon their little wards.

It was our good fortune, during the year, to be able to provide facilities for the eminent Austrian surgeon, Professor Lorenz,

to exert his marvelous skill in bloodless surgery on several children, all of which operations have been remarkably successful. In this connection it may not be out of place to note that Professor Lorenz remarked of the Children's Hospital that there was nothing in Vienna, that home of hospitals, that excelled our institution, and that he found our nurses equal to every emergency and commended their training and skill most heartily.

Our unique entertainment, the Feast of Lanterns, held during the autumn, was an unequivocal success, both financially and otherwise, and was conducted by the committee in charge in a manner which would have done credit to the most experienced managers of public entertainments. Donation days were equally satisfactory, and it is gratifying to note that gifts of money were received from persons who had not hitherto contributed to our treasury.

The Tay Memorial Annex at Elmhurst was open from June 1st to November 1st last, and has proved a boon to all the sick children whose condition permitted their removal to that region of clear sky and wholesome air. Here they gained health and strength. Certainly no benefaction was ever productive of better results than that of Mrs. Danforth.

The Alexander Maternity Cottage has continued its important work, the number of patients being about equal to that of last year. There is no department in the hospital that has shown better results than this, and our gratitude is due to the philanthropic lady whose gift it was and whose continued generosity has aided in its support.

During the year a considerable sum has been expended for permanent improvements. Of these, the most important is the introduction of a petroleum-burning plant, with new boiler and other necessary appliances, in order to substitute that fuel for coal for laundry and heating purposes. Our experience of this change has been very satisfactory; it has reduced the cost of fuel to such an extent that the saving effected will, in a moderate period, be equal to the expense of the improvement.

Our trustees, having acquired additional land adjoining the hospital, we have been able to carry to completion a much-

needed improvement, a substantial morgue, a solid and well-built edifice, complete in all details.

The general work of the Hospital has proceeded well and satisfactorily in all departments. Thanks are due to our staff of physicians and surgeons, whose professional work takes rank equal with that of any similar body in the country. Our Resident Physician and our Superintendent of Nurses have ably maintained the reputation of the institution, and those employed in subordinate capacities have labored faithfully.

For the first time in many years we are called upon to lament the passing away of two members of our Board of Trustees, John Taylor and Henry L. Dodge. Mr. Taylor, Treasurer of that body, had been a Trustee for many years, and during that period had been zealous in promoting the interest of the Hospital and a careful custodian of the funds intrusted to his charge. The success of our institution is in no small degree due to the care given to its affairs by the Board of Trustees, the members of which have always been ready to forward its welfare.

For your kind co-operation at all times and for your ready and faithful support in those critical periods that come in every important sphere of human activity, and from which even hospitals are not exempt, I tender to you my warmest thanks. We know not what the future may have in store for us, but we may be certain that the Hospital for Children will continue its beneficent work so long as there are merciful hearts and open hands in San Francisco.

MRS. WILLARD B. HARRINGTON,  
President.

SUN ROOM OF THE "LITTLE JIM" WARD.

## Secretary's Report.

---

*To the Board of Managers, the Board of Trustees and Members of the Association of the Hospital for Children and Training School for Nurses.*

FRIENDS:—For twenty-seven years it has been our custom to bring before the annual meeting of the members of this association a review of the work done during the twelvemonth under the direction and supervision of the Board of Managers in the various departments of the institution entrusted to our care.

In submitting to you this year's report, it has seemed wise to leave the statement of our financial position, which we may here say is in an encouraging condition, to the Treasurer's report, that she who has "borne the burden and heat of the day" in the hard work of the financing of our big institution, may have the satisfaction of making her figures speak more impressively, to the encouragement of us all, testifying to this, the most prosperous year in our financial history.

Your Secretary will therefore confine this report to the following statement of affairs and transactions of the Board, other than financial, for the year ending December 31, 1902.

The Board has held twenty meetings, the annual, twelve regular and seven special, all well attended and full of work and interest. In the personnel of the Board there have been but few changes. At the annual meeting Mrs. J. L. Lilienthal was elected to the Board to fill a gap in our numbers, and in September Mrs. Edward Carlson was welcomed back to the ranks, where she had previously so faithfully and energetically worked.

In February, owing to her departure from California, the resignation of Mrs. Thomas L. Miller was received and reluctantly accepted. Mrs. Miller, while a comparatively new member on the Board, had done most efficient work in the onerous position of Recording Secretary, and it was felt by all that the Board was

losing a valued friend and a valuable worker. The hope was expressed that at some future time her lot in life might again be cast among us and that she might be able to take up the work once more.

The position of Recording Secretary being declared vacant upon the resignation of Mrs. Miller, Mrs. James Watt Kerr was unanimously elected to the office, which she filled to the satisfaction of all until July, when she in turn felt reluctantly obliged to resign the duties of the position. Mrs. C. E. Holmes was then elected to the Recording Secretaryship.

It is with deep regret we record the deaths during the year of two members of our Board of Trustees, Mr. H. L. Dodge and Mr. John Taylor, whose names have for many years been connected with the interests of our Hospital.

The Visiting Staff of the Hospital has remained unchanged throughout the year, and to this continuance of conscientious and faithful service the upbuilding of public confidence in the successful work and good care received at our Hospital is greatly due.

To the Assistant Visiting Staff several additions have been made and changes effected. At the beginning of the year Drs. George J. McChesney and James T. Watkins were added to the list and in March Dr. Emma K. Willits, well known to us as at one time our Resident Physician, was elected assistant to the children's medical and surgical service.

In May the resignations of Dr. F. G. Burrows, Pathologist, and of Dr. Florence Scott were received and accepted, in both cases on account of the demands of their private practice.

In June Dr. Julia Larsen was appointed to the Staff of Assistant Dispensary Clinicians, in place of Dr. Florence Scott, resigned.

The Board of Managers takes this opportunity to publicly thank these efficient workers, who give so generously of their time and talent to the relief of the suffering and to the maintenance of the high standard of excellence for which our Hospital is noted.

Dr. H. T. Crabtree has remained with us as Resident Physician and sustained the efficiency of this important service; and in November Dr. Julia Larsen was appointed assistant to Dr. Crabtree to help her in the increasingly heavy duties of her position.

The statistics of the Hospital show that during 1902, 1,131 patients were cared for in our institution. Of this number, 729 were children and 402 women patients, making an average of 136 children and 60 adult patients in the wards each month of the year. Of the children more than half the number were entirely free patients, and in many other cases the rate was reduced so much to meet the financial circumstances of parents or guardians that the charge was merely nominal; the necessity for hospital treatment being recognized, no case requiring our care is refused admittance if there is a bed for it.

In like manner our free beds for adult patients were kept filled throughout the year.

The Alexander Maternity Cottage, so well equipped for the needs of this service, continues to receive the confidence of the public, and every care is taken that patients may enjoy all possible consideration and comfort while under its roof. One hundred and nine births have been registered during the year.

Important changes have taken place in our Training School. In February Miss Huffcut, Superintendent of Nurses, resigned, and in April the Hospital was fortunate in securing the services of Miss Ada Payne, a graduate of the Royal Infirmary of Edinburgh, and for six years Assistant Superintendent of the Pennsylvania Hospital.

Excellent work is being done in this service. Twelve nurses have graduated during the year, receiving their diplomas at the graduating exercises held at the Nurses' Home, June 13th—a festive occasion at the Hospital.

Mention must be made of the efficient services rendered by Miss Lynch as Operating Room Nurse, and by Miss Flora M. Macrae, one of our graduate nurses, who took up the difficult work of Acting Superintendent while the position was vacant, filling it with great conscientiousness and ability.

The Hospital Clinic has steadily increased in the number of patients treated, 439 being the record during the year.

The Pacific Dispensary has endeavored to enlarge its sphere of usefulness, and with this end in view, moved from the old location on Mission street, to more commodious and convenient quarters at Nos. 741 and 743 Brannan street, where it is now well situated to minister to the needs of the deserving patients in that thickly settled locality. The clinics are well attended and the members of the Dispensary Staff and Assistant Clinicians are regular in attendance and most interested in building up the work. The appointment of a permanent druggist, on duty daily, to put up prescriptions for usual and emergency needs, is a great assistance to the Staff.

The following figures will show the amount of charity being done in this growing department of our work, the small charges made for treatments given and medicines supplied being merely nominal: 2,596 patients have been treated at the Clinics during the year; 1,587 prescriptions filled and supplied; 116 visits made by the Staff and 432 by the nurses to the homes of the sick, and in many cases necessary nourishment and extra comforts have been supplied from the relief funds of the Dispensary Committee. This service is a special feature in the training of our nurses, giving them an opportunity in the closing months of their course to act upon their own responsibility in putting to practice the knowledge gained in their hospital training.

The thanks of the Board are hereby extended to the Dispensary Staff and to their Assistant Clinicians.

The Memorial Bed Committee has sustained its faithful oversight of this important feature of our work, and reports three new beds established in our wards, touching memorials to departed dear ones, whose loving memory is thus kept ever with them and with us. The new beds are named the "John Risley," the "Dorothy Doolittle," and the "Hazel Hawkins, Little Sunshine."

Mr. F. G. A. H. Bergman remains our Pharmacist; Miss M. E. Gallagher our Matron, and Miss S. M. Clarke our Office Clerk, doing the duties of their respective positions to the best of their ability.

Heavy expenses have been incurred during the year in the erection of a permanent Morgue, as a separate Hospital building, long asked for and sorely needed by our Staff. Also in the changing of the furnace system of the laundry and house for the use of fuel oil instead of coal, by which an ultimate great reduction in current expense is hoped for.

These improvements were authorized by the Board of Trustees.

One new Life Member has been added to our list, Mr. Gustav Sutro Schwartz, and the firm of Messrs. Raphael Weill & Co. have been created Honorary Life Members of the Hospital Association in recognition of their continued acts of generosity toward our work.

The "Tay Memorial Annex," so graciously given last year to the extension of our work, has proved itself again the blessing of the summer season. From June to October it was kept well filled by a succession of small invalids, each deriving much benefit from the change of air, the country life and out-of-door surroundings.

Kindnesses have been showered upon them by their good neighbors at Elmhurst and friends in Alameda, a horse and surrey donated and many treats of ice cream, cake and fruit received, and as heartily enjoyed as the kind donors could wish.

Our Auxiliaries maintain their active interest in the welfare and needs of the Hospital, as will be seen in their separate reports.

The Easter, Thanksgiving and Christmas festivals find them ever mindful of the children, as evidenced by their generous contributions of the special treats of each season, be it eggs, turkeys or Christmas trees.

We are indebted to the San Francisco Branch of the Needlework Guild for 339 new garments, all acceptable in our work.

Another authoress has placed us under grateful obligation, Miss Gertrude La Page, in publishing for the benefit of the Chil-

dren's Hospital her book, "The Children of the Thornwreath," written from impressions gained during her own experience as nurse in our wards.

The Board has given but one entertainment this year, uniting all its efforts in making a financial and artistic success of the "Feast of Lanterns," given at the Palace Hotel on the dates October 16, 17 and 18. The public of San Francisco responded generously, as always, to the call for help, the merchants of the city and several Chinese firms giving freely towards the decorations and handsome articles for sale. Notable artists of the city gave cheerfully of their talent and professional skill, and the city press gave its ever valuable support in abundant and extensive advertising, with the satisfactory result that our Treasury was increased by \$3,681.50.

For the convenience of our graduate nurses, now formed into an Alumni Association, the Board has authorized the establishment of a Registry at the Hospital, where calls may be made and their services secured by the doctors of the city and patrons desiring their work. This is done in recognition of the mutual obligations between graduates of our institution and their Alma Mater.

Christmas at the Hospital has been duly celebrated for the season of 1902. Trees in all the wards, a bountiful supply of sweets and toys to gladden eyes and hearts and a Christmas dinner equal to that of Thanksgiving Day, brought contentment and satisfaction to old and young.

Christmas can be generously celebrated when a charitable public respond, as custom has taught us they will and do, so freely to our annual appeal on our Donation Days—held this season on December 22, 23 and 24, when checks and offerings were received amounting to \$4,221.25, besides liberal quantities of groceries, provisions, books, toys and clothing.

The Board of Managers take this opportunity to again publicly thank all those kind friends who have in the midst of their own plenty and prosperity remembered the needs of our little charges, whose lot in life has fallen upon less fair ground, and who have not their goodly heritage of health and strength.

It is with deep thankfulness that we close our books for the year 1902.

There have been difficulties to contend with and obstacles to surmount, but the good work prospers and new avenues of usefulness open up. Many improvements can yet be made which are apparent to the Board of Managers, and steady, faithful work and constant generosity must be expected in the future, as in the past, until we reach the ideal of a substantial Endowment Fund for our institution.

May the year 1903 bring added blessings to our Hospital, prospering its undertakings to the further relief of the suffering and distressed.

Respectfully submitted,

HARRIET G. HOLMES,

Recording Secretary.

JENNIE M. DUNBAR,  
Treasurer.

## **Treasurer's Financial Statement.**

---

I have been requested to make, in addition to my financial report, a short statement in regard to financial affairs, and while feeling that the figures speak for themselves, I assure you there has never been a year since my incumbency of which I should be more pleased to make such statement.

The year 1902 has been a most satisfactory one, donations, etc., coming in evenly throughout the year, so that at no time have we been unable to meet our bills. Late in January a good friend, Mr. A. Wartenweiler, sent us a check for \$100, which had come unexpectedly to him and which apparently proved a mascot. Since then each month has brought us a donation from some entirely unexpected source, the record being unbroken down to the last month, when through the kindness of Mr. Abraham Halsey, \$1,000 was allotted to us from the estate of Captain Searle. The largest donation received was \$1,000 from Mr. F. C. Hotaling. Our "Donation Day" receipts, amounting to \$4,221.25, were an agreeable surprise, as we had feared that the entertainment (Feast of Lanterns), given in October, from which we realized \$3,368.50, would cause a falling off in the receipts for these, our annual Donation Days. It is evident, however, that these days have become an established feature of our work, and that the friends who have become accustomed to giving at this time will not fail us. Many new names were added to our list of donors. Mr. James L. Flood, as usual, sent his generous donation of \$500, and Mrs. Wm. Kohl, one of our most liberal supporters, sent a like amount.

Of the bequests reported, \$500 was received from the estate of Mrs. Susanna Brown, deceased, the first payment on a bequest of \$5,000, left for the purpose of establishing a "Memorial Bed"; \$517.50 from the estate of Mrs. Steuben, deceased; \$1,000 from the estate of Mr. S. W. Rosenstock, deceased; \$2,500 from the estate of Mr. Louis Sloss, deceased; \$215; an additional sum from the estate of Mrs. F. M. Pixley, deceased; \$1,000 from the

estate of Mrs. Caroline Wingerter, deceased; \$1,000 from the estate of Captain Searle, deceased; \$2,000 from the estate of Mr. Lewis Gerstle, deceased, and \$250 from the estate of Mr. Ludwig Altschul, deceased. The Levi Strauss Company generously sent us a check for \$1,000 in memory of the late Mr. Levi Strauss.

That the receipts for 1902 have fallen somewhat short of those of last year, is due to the fact that in 1901 some unusually large bequests became due and were paid over to us. There has been a gratifying increase in all sources of income from the Hospital itself, such as receipts from patients, from special nurses and from drugs and dressings.

We have been able this year to pay \$1,000 on our note to the London & San Francisco bank and \$600 to the Endowment Fund on account of loan; in addition to this amount, \$955 was placed in the Endowment Fund. This amount would have been larger but for the fact that we were compelled to expend over \$4,000 in improvements and repairs, the larger part of this amount being expended for the building of a Morgue and for making the necessary changes for the substitution of oil for coal as fuel in the laundry. Thirteen months' bills have been paid, bringing the payment of our bills down to an actual sixty-day basis. In the coming year we hope, if fortune and our friends stand by us, to reduce this time to a thirty-day or cash basis, when we shall have the pleasure of discounting our bills. While our financial affairs are in excellent condition, there still remains the necessity for keeping a close watch over our expenditures, so that we may not again run behind.

Hoping this report will be received with the same satisfaction that it has given your Treasurer to make it,

Respectfully submitted,

JENNIE M. DUNBAR,  
Treasurer.

Trustee.

## The Crutch and Splint Fund.

### TRUSTEES.

SIDNEY V. SMITH.

J. LEONARD ABBOTT, JR.

The Fund has continued to supply braces and splints for crippled children and new instruments for the surgical armamentarium of the Orthopedic Service at the Children's Hospital. But this is not all. We of the Staff know that this source of income can never be exhausted and that long after we personally have ceased to be of any use to hospitals or lame children, the beneficent fund will still be buying braces and splints for them.

The new item of "Histories," which appears now, is for the stationery and blanks used for the compilation of the histories of the cases. The number of individual histories now on file makes a mass of valuable statistics, and warrants the special itemization of this expenditure.

### Medical and Crocker Surgical Ward Fund.

*To the Board of Managers of the Children's Hospital.*

LADIES: The following is the report of the Medical and Crocker Surgical Ward Fund:

Balance on hand January 1, 1902.....	\$19 78
Received (St. Agnes Fund) . . . . .	12 50
Received (Surgical Fund) . . . . .	2 00

---

\$34 28

DISBURSEMENTS.

St. Agnes Fund . . . . .	\$ 9 90
Surgical Fund . . . . .	4 85

---

\$14 75

---

Balance December 31, 1902 . . . . . \$19 43

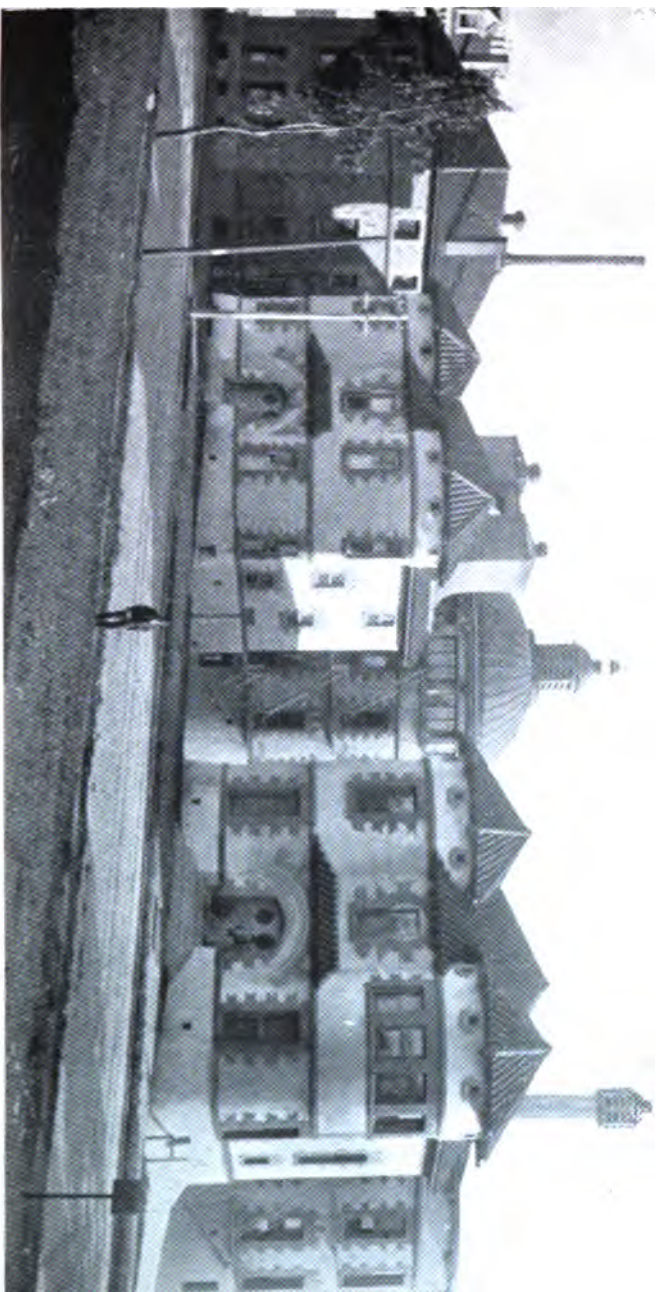

Respectfully submitted,

FRANCES R. SPRAGUE, M. D.

### Berkeley Surgical Ward Fund.

The fund in the German Savings and Loan Society remains, as by previous reports, \$2,144.84, plus the uncollected July, 1901-1902, dividends. The account in the Berkeley Bank of Savings is, as in my last report, \$381.05, to which is to be added the uncollected July, 1901-1902, dividends and the commercial account of \$71.45, which I have transferred to the savings account, as there has not existed a need of a commercial account for some time.

ANITA D. S. BLAKE,  
Treasurer.

NURSES' HOME.

"LITTLE JIM" WARD.

EYE AND EAR WARD.

## **Annual Report of the Children's Hospital Auxiliary.— Auxiliary No. 1.**

---

*To the Board of Managers of the Hospital for Children and  
Training School for Nurses.*

During the year 1902 eight monthly meetings of the Children's Hospital Auxiliary were held.

In January it was decided to donate twenty-five dollars (\$25) monthly to support a child in the Auxiliary bed.

At Easter, candy, Easter eggs and thirty-five flannel night-gowns were donated.

During the summer months, from June to October, no meetings were held; each member pledged herself to make two garments.

At the October monthly meeting, the Auxiliary decided to offer to take charge of the candy table at the "Feast of Lanterns," an entertainment given by the Board of Managers of the Children's Hospital. One hundred and fifteen dollars and seventy cents (\$115.70) was cleared and donated from the same.

For the children's Thanksgiving dinner ice cream was given by Mrs. Downey Harvey; cake, fruit and candy were provided by the Auxiliary members.

All the Christmas trees were furnished and decorated, also fifteen garments; toys to the amount of fifteen dollars (\$15) and twenty pounds of candy.

The Auxiliary donated one hundred dollars (\$100) as a Christmas present to the Hospital, to go into the Endowment Fund.

Respectfully submitted,

THERESE MORGAN,

Secretary of Children's Hospital Auxiliary.

EMILY CAROLAN, President.

January, 1903.

## Treasurer's Report.

---

FROM FEBRUARY 10, 1902, TO JANUARY 1, 1903.

Balance February 10th . . . . .	\$140 30
Dues . . . . .	49 50
Subscriptions . . . . .	271 25
Interest . . . . .	41
Donation . . . . .	1 25
For wedding present . . . . .	9 00
<hr/>	
Total . . . . .	\$471 71

The expenditures have amounted to \$380.15, \$300 of which was for the support of the Auxiliary bed, \$30 toward the Endowment Fund, \$10.50 for a wedding present, the remainder being used for flannel, Auxiliary expenses, and candy, eggs, etc., sent to the Hospital for Easter, Thanksgiving and Christmas.

Among those giving yearly subscriptions are: Mrs. Henry T. Scott, \$60; Mr. James Phelan, \$60; Mrs. Augustus Taylor, Mrs. Lester, Mrs. Francis Carolan, Mrs. McBean, Mrs. Wm. Thomas, Mr. E. W. Hopkins, Mr. R. M. Eyre, Mr. W. H. Taylor, Jr., Mr. James Pringle, \$12 each.

CARO CROCKETT SCOTT,  
Treasurer, Auxiliary of the Children's Hospital.

## **Annual Report of the Chrysanthemum Auxiliary.—Auxiliary No. 2.**

---

The first meeting of the Chrysanthemum Auxiliary was held on Tuesday, the 2d of September, followed in due course by other meetings held on the first Tuesday of each month. In June, July and August no meetings were held.

At the September meeting the treasurer reported \$95 on hand from Mrs. Harley for the stocking fund.

During the "Feast of Lanterns," the Chrysanthemum Auxiliary assisted as Japanese tea girls.

For Thanksgiving ten turkeys were sent to the Hospital.

For Christmas the Auxiliary sent decorations for the Christmas trees.

No sewing has been done this year.

Respectfully submitted,

PAULA WOLFF,

Recording Secretary.

January 6, 1903.

## Treasurer's Report of the Chrysanthemum Auxiliary.

FOR THE YEAR ENDING DECEMBER 31st, 1902.

RACHEL HOVEY,  
Treasurer.

## Annual Report of the Marguerite Auxiliary—Auxiliary No. 3.

During the last year the Marguerite Auxiliary has met regularly the first Monday of every month, excepting in June, July and August. In Lent, weekly meetings were held, at which considerable sewing was accomplished, the members finishing seventy-eight towels and five aprons, which were donated to the Hospital.

An entertainment was given on the 18th of April and a large amount of money was realized.

At the annual meeting on the 6th of October there was an election of officers, which resulted as follows:

Honorary President.....	Mrs. John F. Merrill
President.....	Miss Ruth F. Merrill
First Vice-President.....	Miss Kathleen Bull
Second Vice-President.....	Miss Janet Coleman
Secretary.....	Miss Jeannette Wright
Corresponding Secretary.....	Miss Edna Davis
Treasurer.....	Miss Carroll Moore

Fifteen dollars a month has been sent regularly to the Hospital for the support of the bed, and at Christmas the ice cream was furnished by the Marguerite Auxiliary.

Respectfully submitted,

JEANNETTE LANGLEY WRIGHT, Secretary.

MRS. JOHN F. MERRILL, Honorary President.

RUTH FRANCES MERRILL, President.

## Treasurer's Report of the Marguerite Auxiliary.

---

## Memorial Beds.

---

### INFORMATION AS TO THE FOUNDING AND MAINTENANCE OF BEDS.

In response to numerous inquiries, the managers of the Hospital for Children and Training School for Nurses, beg to state as follows:

I. By furnishing bed and bedding and an additional gift of one hundred dollars, the donor will be entitled to name a bed, the name to be continued so long as the necessary furnishings are kept in order. By consent of the Board of Managers, the donor may suggest who shall occupy the bed, subject to the rules of the Hospital; it being understood that this amount does not support a free patient. The cost of placing such a memorial bed is estimated to be \$175. If this amount be sent to the Treasurer of the Hospital, the Committee on Memorial Beds will attend to the purchasing, making and marking of all necessary articles. Persons so desiring can furnish their own supplies.

II. Any church, association, or individual contributing \$3,000 is entitled to control one bed for thirty-three years; and, if this amount be increased to \$5,000 within two years after the original payment is made, said control is made perpetual.

III. Any church, association or individual contributing \$5,000 is entitled to control one bed perpetually, or in lieu thereof, may name a room of one or more beds, and such room shall be known thereafter by such name.

All beds must be supplied annually with necessary furnishings. It has been estimated that the cost of such furnishings is

about twenty-five dollars. Donors of beds, so desiring, may send the sum of twenty-five dollars to the Treasurer of the Hospital, and the Committee in charge of "Memorial Beds" will see that all articles are supplied and marked.

Notice will be sent to all donors annually, stating the condition of furnishings.

---

### LIST OF ARTICLES REQUIRED.

Bedstead.	3 spreads.
Panel.	3 pairs 10-4 blankets (double,
12 sheets, 2 $\frac{1}{2}$ x 1 $\frac{1}{2}$ yards.	white).
12 pillow-cases, 30 x 18 inches.	2 bath towels.
12 towels (hemmed).	1 hot-water bag.
	1 rubber sheet.

Bedding to be marked in red French cotton with name of bed.

---

## **Report of Training School for Nurses.**

---

*To the President and Board of Managers of the Children's Hospital and Training School for Nurses:*

The course of training has been extended by you from two years and two months allowing no vacation to three years, allowing three weeks' vacation in each year. The advisability of adopting the three years' course has for some time past been recognized by the leading American hospitals. The patients benefit by the more experienced care given them, and the nurses are launched into their professional career with a deeper realization of their responsibility, a wider knowledge, and greater dexterity in their work than could possibly be acquired in the former shorter term. Also the longer course tends to keep superficial women out of the schools. The permitted increase of two pupils in the training school should make it easier to respond to the many calls for special nurses, and also allow of off duty time being given with more regularity.

Nurses who have been ill have been most kindly and attentively treated by the Visiting Staff and Chief Resident Physician, and we beg to tender them our thanks.

Some necessary additions have been made to the excellent course of instruction so kindly given by the Visiting Staff. Dr. Emma Willits will give lectures on Therapeutics and Materia Medica. Dr. James T. Watkins is now giving a course on Orthopedics; later he has promised to give practical demonstrations of massage. Dr. Julia Larsen will hold classes on Physiology, while Dr. Botsford lectures on the Administrations of Anæsthetics. Dr. Emma Sutro Merritt presented a much needed electrical reading lamp to the parlor of the Nurses' Home, and Dr. William Hopkins, with like generosity, sent a

book case as a Christmas gift to the members of the Nurses' Book Club. These gifts add materially to the comfort and appearance of the parlor. Twelve young women graduated this year, their names being as follows:

Elizabeth Pennoyer.	Clara Strand.
Eva May Good.	Matilda Ankerson.
Ella Senn.	Catherine Bleily.
Theresa Hogan.	Lolita Woodson.
Eliza Stevens.	Elizabeth Jones.
Frances Fitch.	Eva Witter.

There are now in the Hospital one Assistant to the Superintendent of Nurses, one Head Nurse and forty-eight pupil nurses.

Number of applications for admission to the training-school.....	200
Number of probationers admitted to the training-school.....	23
Number of probationers accepted.....	19
Number of probationers found unsuitable.....	4
Resigned from training-school to marry.....	1
Expelled for misconduct.....	1

Respectfully submitted,

ADA PAYNE,  
Superintendent of Nurses.

## Regulations for Training School for Nurses.

---

The Directors of the Training School for Nurses connected with the Children's Hospital have made arrangements for giving a three years' training to women desirous of becoming trained nurses.

Those wishing to obtain this course of instruction must apply personally, or by letter, to the Superintendent of the Training School, 3700 California Street, San Francisco, Cal. The letter of application should be accompanied by a physician's certificate of sound health and unimpaired faculties, and two certificates of good character. Applicants must be between the ages of twenty-one and thirty-one years and of at least average height and physique. They must at least be graduates of a Grammar School. They must be able to read aloud well; to write legibly and accurately from dictation; to understand arithmetic, including fractions and percentage; and to take notes at lectures. This amount of education is *indispensable*, but women of superior education will be given the preference.

Candidates, if approved, will be received on probation for three months. During these months of probation, the pupils are boarded and lodged at the Hospital, but if not accepted, receive no other compensation. They are not permitted to join the school formally until the end of the third month, when, if accepted by the Superintendent and the Training School Committee, they must sign an agreement to complete the prescribed course of three years and to conform to all rules.

At the end of the first year, the record of each pupil is carefully scrutinized and the right is reserved to terminate then, or at any time, the connection of any pupil with the school, for inefficiency, misconduct, a generally unsatisfactory record, or for any other reason which may be deemed sufficient by the Hospital authorities.

The pupils are employed on day and night duty in the wards, operating rooms, or any other department of the Hospital to which they may be assigned. They are on duty from 7. A. M., to 7 P. M. They are allowed an afternoon (12:30—10:30 P. M.) each week, and part of Sunday, and additional time for study, rest or recreation. A vacation of three weeks is allowed at the end of the first and second years.

In addition to board, lodging, and a reasonable amount of laundry work, the pupils are given a monthly allowance of five dollars. This allowance is not given as payment for services rendered (the training and teaching given, and the profession acquired being considered an ample equivalent), but is given for the purchase of the required uniform dress and text-books, and to meet other expenses incidental to the training.

In sickness the pupils will be cared for, but the time so lost must be made up.

The course includes practical and theoretical instruction in the nursing of children; the nursing of medical, surgical, obstetrical and gynecological cases; massage; the application of electricity; and sick-diet cooking. The instruction is given by the Visiting and Resident Physicians and Surgeons in the Lecture Room and at the bed-side of the patients, and by the Superintendent of Nurses and her assistants.

Examinations are held at stated intervals, and pupils cannot pass to more advanced work unless they obtain on critical marking, an average of at least 70 per cent. On satisfactorily passing the final examinations the pupil-nurses will be awarded the diploma of the Hospital Training School.

As the Institution is non-sectarian, there are no religious services connected with it, but all nurses are given the opportunity of attending the place of worship they prefer on Sunday.

**QUESTIONS FOR APPLICANT.**

This paper is to be filled out (in the candidate's own handwriting) and sent to the Superintendent of Nurses, Children's Hospital, 3700 California Street, San Francisco, California.

**Questions to be Answered by Applicant.**

1. What is your full name?.....
2. What is your age?.....
3. State date and place of your birth?.....  
.....
4. What is your height?.....
5. Weight? . . . . .
6. Are you single, married, divorced or widowed?.....
7. Have you anyone dependent on you for support?.....
8. Are you otherwise free from responsibility, so that you are not  
liable to be called away during the term of three years?.....
9. Are your eyesight and hearing perfect?.....
10. Have you any tendency to pulmonary disease?.....
11. Have you any physical defects?.....
12. What illness have you had?.....
13. In what schools were you educated?.....  
.....
14. What is your present occupation, and what have been your pre-  
vious pursuits? . . . . .  
.....
15. Have you ever been in a training school, or employed in a hospital  
or asylum? If so, when, where, and how long at each place?.....  
.....  
.....
16. Give the names and addresses of one person, not your relative, and  
also of your physician, and state how long each has known you....  
.....  
.....

17. Give home address of your parents, or your nearest relative.....  
 .....

If accepted, when would you be ready to enter the school?.....  
 .....

I, the undersigned, having read the conditions of admission, and clearly understanding and agreeing to them, do declare the above statement to be correct. And, if accepted as a candidate, I will, in all respects, comply with the rules and regulations of the School and Hospital.

Signed.....  
 (Name of candidate in full.)

Postoffice address .....

Nearest telegraph address .....

Date.....

## **Course of Study.**

---

### **FIRST YEAR.**

#### **INSTRUCTION GIVEN BY SUPERINTENDENT OF NURSES AND ASSISTANTS.**

Bed-making—for bed-patients, for convalescents.

Preparation of bed for an operation-patient, fracture-beds, pads, head-rests, lifting, moving.

Hygiene of sick-room and ward—Ventilation, methods of ventilation, temperature of sick-room, disposal of excreta and soiled dressings.

Care and cleanliness of ward utensils.

Care of new patients, of bed-patients, of convalescent patients.

Baths—Classification and temperature, baths for cleanliness, baths as therapeutic agents; hot-air, steam, mustard, salt baths; sponge and tub baths in typhoid fever; the cold pack; prevention and treatment of bed sores.

Disinfectant solutions—Disinfection of rooms, clothing, excreta and vessels.

Bacteriological notes.

Care of appliances—Douches, catheterization.

Enemata—Kinds, preparation, methods and frequency of administration.

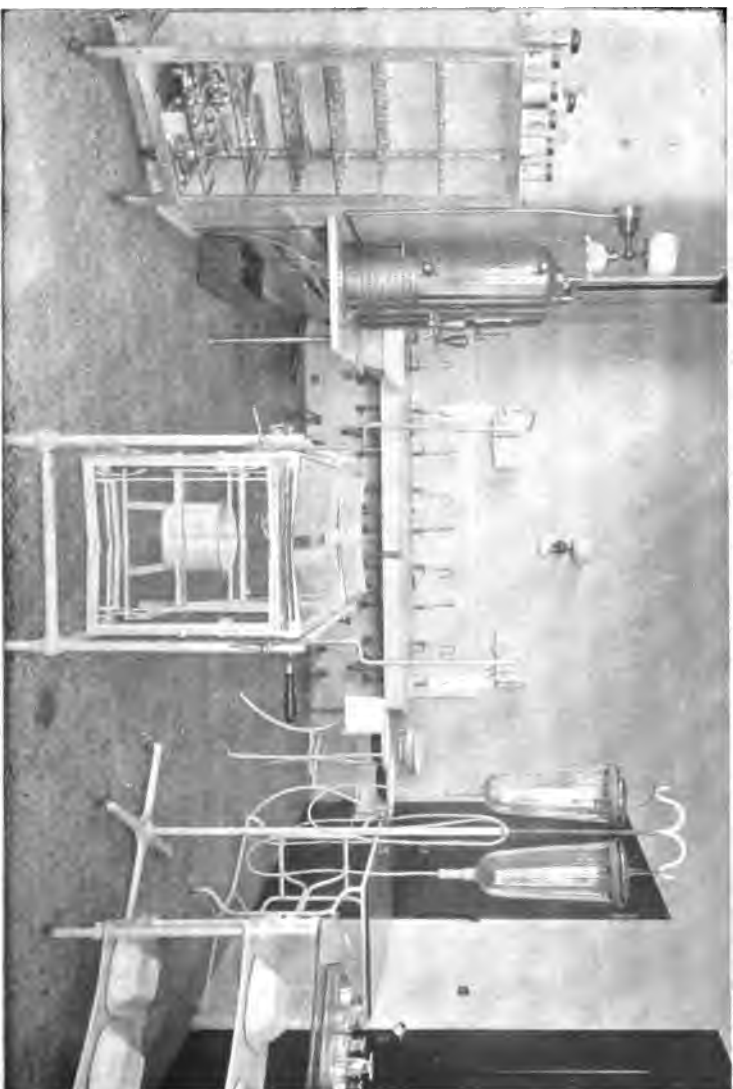

Temperature—Pulse, respiration, care of clinical thermometer, charting.

Counter-irritants—Cups, mustard plasters and leaves, cantharides, turpentine, iodine, liniments, the cautery.

External and local applications—Dry-heat, moist-heat, fomentations, poultices.

Medicines—Methods of administration, dosage, weights and measures, symbols and abbreviations.

How to observe, report and record symptoms.

OPERATING ROOM OF THE GYNECOLOGICAL WARD.

## Dispensary Report.

*To the Board of Managers of the Hospital for Children and Training School for Nurses:*

The Dispensary Staff respectfully submits the report for the year ending December 31, 1902:

Number of women registered .....	163
Number of children registered .....	358
Total number registered .....	521
Number of patients treated .....	2,476
Number of prescriptions filled.....	1,064
Number of out-visits by staff .....	210
Number of out-visits by nurses .....	400
Number of obstetrical cases .....	10

### NATIONALITIES.

Defective speech . . . . .	1	Refractive error . . . . .	2
Tonsilitis—acute . . . . .	1		

LOUISE B. DEAL, M. D.  
Secretary, Dispensary Staff.

## Regulations for Training School for Nurses.

---

The Directors of the Training School for Nurses connected with the Children's Hospital have made arrangements for giving a three years' training to women desirous of becoming trained nurses.

Those wishing to obtain this course of instruction must apply personally, or by letter, to the Superintendent of the Training School, 3700 California Street, San Francisco, Cal. The letter of application should be accompanied by a physician's certificate of sound health and unimpaired faculties, and two certificates of good character. Applicants must be between the ages of twenty-one and thirty-one years and of at least average height and physique. They must at least be graduates of a Grammar School. They must be able to read aloud well; to write legibly and accurately from dictation; to understand arithmetic, including fractions and percentage; and to take notes at lectures. This amount of education is *indispensable*, but women of superior education will be given the preference.

Candidates, if approved, will be received on probation for three months. During these months of probation, the pupils are boarded and lodged at the Hospital, but if not accepted, receive no other compensation. They are not permitted to join the school formally until the end of the third month, when, if accepted by the Superintendent and the Training School Committee, they must sign an agreement to complete the prescribed course of three years and to conform to all rules.

At the end of the first year, the record of each pupil is carefully scrutinized and the right is reserved to terminate then, or at any time, the connection of any pupil with the school, for inefficiency, misconduct, a generally unsatisfactory record, or for any other reason which may be deemed sufficient by the Hospital authorities.

The pupils are employed on day and night duty in the wards, operating rooms, or any other department of the Hospital to which they may be assigned. They are on duty from 7. A. M., to 7 P. M. They are allowed an afternoon (12:30—10:30 P. M.) each week, and part of Sunday, and additional time for study, rest or recreation. A vacation of three weeks is allowed at the end of the first and second years.

In addition to board, lodging, and a reasonable amount of laundry work, the pupils are given a monthly allowance of five dollars. This allowance is not given as payment for services rendered (the training and teaching given, and the profession acquired being considered an ample equivalent), but is given for the purchase of the required uniform dress and text-books, and to meet other expenses incidental to the training.

In sickness the pupils will be cared for, but the time so lost must be made up.

The course includes practical and theoretical instruction in the nursing of children; the nursing of medical, surgical, obstetrical and gynecological cases; massage; the application of electricity; and sick-diet cooking. The instruction is given by the Visiting and Resident Physicians and Surgeons in the Lecture Room and at the bed-side of the patients, and by the Superintendent of Nurses and her assistants.

Examinations are held at stated intervals, and pupils cannot pass to more advanced work unless they obtain on critical marking, an average of at least 70 per cent. On satisfactorily passing the final examinations the pupil-nurses will be awarded the diploma of the Hospital Training School.

As the Institution is non-sectarian, there are no religious services connected with it, but all nurses are given the opportunity of attending the place of worship they prefer on Sunday.

3rd. *Those who are able to pay hospital charges and also for medical attendance.* Such patients desiring to enter the Hospital may make their arrangements with any member of the Hospital Staff or any outside physician whom they desire.

*Third. To educate nurses;* the design being to fit healthy young women to engage intelligently in this work by a three years' course of reading, lectures and practical nursing. The nurses are thoroughly trained in every department of the work.

The Resident Physician will be constantly in attendance at the Hospital to receive applications for admission.

Daily clinics are held at the Hospital at 9 o'clock a. m., also at the Dispensary, 741-743 Brannan street, near Seventh. from 9 to 12 a. m. and 1 to 4 p. m., for the sick poor, free of charge. District nursing has been established, and nurses detailed for duty at the Dispensary will answer calls from the sick poor in their homes.

A Nurses' Directory for the graduate nurses of the Children's Hospital has been established at the Hospital. Telephone number, *West* 1126.

## APPLICATIONS FOR ADMISSION

may be made at the Hospital; also to the Committees on Admission—

Mrs. W. B. Harrington, Committee on Admission of Adults.

Mrs. J. F. Merrill, Committee on Admission of Children.

The work of the Hospital is divided into the following services, each of which will be conducted by the physician in charge continuously throughout the year:—

### Surgery and Gynecology.

Beverly MacMonagle, M. D.

- VIII. A kind and courteous demeanor is expected on the part of the Nurses and Inmates toward all with whom they come in contact.
- IX. Neatness and punctuality are expected from all inmates of the Hospital.
- X. Bills are payable weekly, in advance, or when presented by the clerk.
- XI. Adult patients' washing is not included in weekly rates. It must be sent out.
- XII. Patients discharged should have a certificate signed by the Resident Physician.
- XIII. The Resident Physician has the exclusive power to admit or exclude visitors. No patient may have more than TWO visitors on the same day, except by special permission.
- XIV. A record must be kept of all patients entering the Hospital. Applications may be made to the Resident Physician for examination and treatment at the Hospital. Inquiries regarding the Medical Department may be answered only by Resident Physician or Internes.  
*No incurable adult cases will be admitted.*

## Hospital Rates.

Operating Room Fee for Major Operations...	10.00
Special Anæsthetist .....	10.00

Drugs and Dressings, Medical and Surgical Supplies extra.

## President's Address.

---

### *Friends and Ladies of the Board of Managers:*

When I had the honor to address you at our last annual meeting, I took occasion to refer to the growth of our city and the increasing demands this growth brought to our hospital. During the year this expansion has continued without stop, and it is evident that, ere many years have passed, San Francisco will become one of the leading cities of the world. This being the outlook, while availing ourselves of all our present resources, we should with hope and confidence look forward to the time, which I hope is not far distant, when the increasing wealth of our citizens will prompt some of the generous among their number to replace our main building with a more substantial modern edifice. With this completed and equipped, we shall be prepared to meet the increasing calls which the near future will bring.

The reports of your officers will show the magnitude of the work for the year, and in what manner our expenses have been met. While the sum derived from legacies was not as great as during some previous years, it was sufficient to show that the Children's Hospital is not absent from the hearts of the humane and philanthropic.

It was not deemed wise to give any fairs or entertainments during the year for the purpose of replenishing our treasury, it being thought best to afford our friends an opportunity of remembering us on our annual donation day. Our confidence in their steady generosity was not misplaced, as the result showed, gifts of money and supplies being quite equal to those received in former years.

A feature of the year's work, which had its inception in a small way some years since, is the increasing number of calls upon us for the care and treatment of children from the interior of the State. In not a few cases it is expected that this will be

done without compensation. Now, while we never refuse to receive a child needing care, "without money and without price," from San Francisco and adjoining places, from whence our support is derived, it is hardly fair to expect us to care for patients gratuitously from all parts of California, particularly when, as it sometimes happens, they are sent from communities sufficiently prosperous to at least defray the actual cost, which is all we expect for the care of such cases. The efficient Chairman of the Committee on the Admission of Children has had her mind and heart taxed, to meet the many demands upon her and at the same time to deal justly and humanely with applicants.

The rapid advance in medicine and surgery renders necessary, if we would maintain the efficiency of our hospital, the expenditure of a comparatively large sum each year for the purchase of instruments and appliances. During the year we have added, among other articles in this department, two large and in every way up-to-date sterilizers and an X-ray apparatus. It is safe to say that in equipment the Children's Hospital is hardly excelled by any institution on the Coast, and surely there is none where surgical and medical appliances are more skilfully and successfully utilized.

The Tay Memorial Home Farm has had a successful year, and the little patients sent there for rest and country air derived much benefit from their sojourn. Indeed, so happy were they that it was with reluctance they returned to the city when the cooler autumn days made it necessary to transfer them to San Francisco.

The Alexander Maternity Cottage has had another year of success. At some periods, more applications for care have been received than could be accommodated, and those who have availed themselves of its facilities, some for the second and third time, have expressed themselves as satisfied in every way with the attention they have received from the doctors and nurses in whose care they were. Our fellow member of the Board, Mrs. C. B. Alexander, to whom we owe this important adjunct to our work, visited the Maternity Cottage and the hospital during the year. Both won her unqualified commendation.

One of the notable improvements made during the year was the removal of our Dispensary from Mission street to improved quarters on Brannan street. This has enabled us to enlarge the scope of the work in a district where it is much needed.

The two vacancies which existed in the Board of Trustees at the time of our last annual meeting were filled by the election of Mr. Leon Sloss and Hon. James D. Phelan. These gentlemen have co-operated heartily with their experienced and philanthropic fellow members, all of whom have freely lent their aid and advice to the Board of Managers.

Whatever rank the hospital has attained is due largely to the skill, humanity and faithful service of those employed in its practical every-day operation. To name individually those who are entitled to our thanks for disinterested service would render necessary the preparation of a directory of the entire force of the institution, including the names of those occupying positions of great responsibility as well as those who have labored in a more humble capacity. It is sufficient to say that all have done well and deserve our thanks.

One of the greatest pleasures of this annual meeting is that it offers me an opportunity to publicly express my warm sense of appreciation of your kind support and your loyalty to our beloved hospital. These thanks I now present to you with the wish that to the hospital the New Year may bring prosperity, and to you, my dear friends, that it may bring happiness.

Respectfully submitted,

MRS. WILLARD B. HARRINGTON,

President.

MEN ROOM OF THE 'LITTLE JIM' WARD.

## Recording Secretary's Report.

---

*To the Board of Managers, the Board of Trustees and Members  
of the Association of the Hospital for Children and Train-  
ing School for Nurses.*

FRIENDS: We present for your consideration to-day the annual report of the work done at the Children's Hospital during the twelvemonth just closed, which marks the twenty-eighth year that the Board of Managers has supervised, directed and upbuilt the various departments of work in this large institution so dear to the hearts of us all.

Each year the Secretary's report grows longer, as the work increases and becomes systematized into added departments, so again it has seemed wise that your treasurer should make a separate statement of all the financial transactions of the year, in addition to the receipts and expenditures.

The Board of Managers has held seventeen meetings, the annual, twelve regular and four special, at which the average good attendance has vouched for the interest and responsibility felt by all.

In the officers of the Board and in the list of Managers no change has been made throughout the year, except the return to our ranks of Mrs. T. L. Miller, who in August last came again among us and was warmly welcomed back.

At our annual meeting of 1903 two new members were elected to our Board of Trustees, Mr. Leon Sloss and Mr. James D. Phelan. Both gentlemen kindly accepted the work, and with our Trustees of longer standing are giving freely of their time and attention to the many matters referred to them for counsel and advice.

The thanks of the Board have been officially expressed, and are again gratefully acknowledged to Mr. Sheldon G. Kellogg, who

as legal adviser has given many hours of professional service to our interests.

The personnel of our visiting staff and of their assistant staff has remained unchanged, a testimony to the harmonious working of the different services, and to their continued faithful and conscientious discharge of voluntary labors.

To the staff of the Pacific Dispensary Dr. Anna M. Mosgrove has been added as associate clinician of the Eye, Ear, Nose and Throat clinic; and Dr. Helen J. Waterman has been placed in charge of a new morning clinic treating the same diseases.

As Resident Physician Dr. H. T. Crabtree is now entering upon her fourth year in this important position, a continuity of service which adds value to her work, enabling her to give experienced oversight to each department.

In December Dr. Blanche Van Heusen was appointed assistant to the Resident, in place of Dr. Julia Larsen, resigned.

The number of Internes necessary for our work have been with us during the year, and careful, conscientious work has been given by each during her twelve months' service. A record is being made of all those who have served in this capacity during the history of our hospital, and a list of their names will be added to our printed annual report, thus recognizing their connection with our institution. Many of the names now rank well to the fore in their profession.

The records of our hospital show that during 1903 1,225 patients have been cared for in our institution. Of this number 764 were children, and 461 women patients, making an average of 146 children and of 65 adults in the hospital each month of the year.

Of the children one-third were admitted as entirely free patients and in many of the other cases the rates were reduced so much to meet the financial circumstances of parents or guardians that the charge was merely nominal, it being the established policy of the Managers never to refuse a child necessary hospital care if there is a bed available.

In like manner, our free beds for adult patients, six in number, have been kept full throughout the year.

The Alexander Maternity Cottage has fully maintained its record for efficient service and is growing yearly in public favor, the patients receiving all possible consideration and comfort while under its roof. One hundred and fifty-four births have been registered, 45 more than in any previous year.

Our Training School for Nurses has grown to the limits of our household capacity. Fifty-two nurses are now on our roll, and even with our comfortable Nurses' Home we have not sleeping accommodation for a larger number, so that at times graduate nurses have to be engaged for duty on special cases.

It was with great regret that in September of this year we accepted the resignation of Miss Ada M. Payne, who left us to accept a flattering offer of a position in one of the largest Eastern hospitals. Her record for efficiency in good work that she brought from Pennsylvania to us was remembered, and inducements were offered to take her back to Philadelphia. We are fortunate in having as Miss Payne's successor in the position of Superintendent of Nurses Miss Katharine Brown, a graduate of the Philadelphia Presbyterian Hospital of the Class of '97, and superintendent for two and a half years at the Samaritan Hospital, Philadelphia.

Excellent work is being done in our Training School. A high standard of instruction and discipline is maintained, and the length of the course has been extended to three years. Twenty-one nurses received their diplomas at the graduating exercises held on September 5th, always the event of the year in our Nurses' Home.

To further increase the efficiency of our nurses, and for the greater comfort in catering to patients, the services of a scientific teacher of cookery have been secured, under whose instruction and supervision the nurses learn scientific invalid cooking, themselves preparing all broths, salads and delicacies for the patients in the diet kitchen. This supercedes the old system of cooking classes and lectures to each graduating class.

The Children's Hospital Alumni Association of Nurses has a representative here to-day, who will read a separate report, showing what they have accomplished by organization and the

high rank our Training School has been given at the National Convention.

The hospital clinic continues in usefulness and regular service, the number of patients treated during the year being 415, representing 25 per cent more free work than last year.

Our Pacific Dispensary, at its new location, 741 Brannan street, has gone steadily forward, making a record year in its history. The neighborhood feels that it has come to stay, and many have expressed appreciation of the usefulness of the Dispensary and of the benefits to be had at their doors.

Emergency cases from neighboring mills are frequent, where cuts, bruises and sprains are of almost daily occurrence. The Dispensary is open from 8:45 a. m. to 4 p. m. daily, a competent druggist and nurse are on hand, regular clinics are held by the Dispensary staff and their assistant clinicians, who give faithful work and are much interested in building up the separate clinics.

The records of the Dispensary show 3,223 patients treated during the year; 680 new patients registered; 2,387 prescriptions filled and supplied, 429 out visits by the staff, and 528 out visits by nurses to patients in their own homes. In each instance these figures show a large increase over the work of last year.

Take into consideration that in each case the charge is but 25 cents, and some idea may be formed of the large amount of effective charity work done in this department. In many instances even this small sum is excused, each monthly report showing its list of numbers of poor families helped, where medicine or treatment or necessary nourishment and extra comforts from the relief fund of the Dispensary Committee have been supplied.

The thanks of the Board are hereby extended to the Dispensary staff and their assistant clinicians. Throughout the year a special vote of thanks has been sent to Dr. Dorothea Watson for noticeable instances of her interest in everything connected with the Dispensary work, and for the coming year Dr. Watson will be appointed by the Board, Physician in charge.

The Memorial Bed Committee has been much encouraged during 1903 by the establishment of an endowed memorial bed for adult patients, the generous gift of Mr. Charles Holbrook, also by the placing in our Contagious Cottage of a memorial bed to be known as the "Humanitas," a thanks offering by Master Willie Crocker, and in the last month of the year checks were received for two new memorial beds, the "Newton Cadwell Moore," and the "Carlehen Zinkand." This department is very near the hearts of its committee, and is fully systematized and carefully looked after.

An excellent report has been given during the year of the Tay Memorial Annex, of which special mention must again be made. For six months, from May to October, it was the center of interest in the life of many of our little ones. We had the children this season in just the condition to fully enjoy the change to country life. To lie on a stretcher in the sunshine and see other children playing about does not seem so very much better than to be on the same stretcher in our "Little Jim" Ward. But this season all were able to walk or get about when first they went to Elmhurst, and many of them were so benefited by the change that they went from there direct to their homes, needing no further hospital care. Friends in Alameda and Elmhurst have again shown their interest and many kind donations of provisions, fruits and delicacies were sent or taken to the children.

The Alameda ladies, with Mrs. McGurn at their head, gave an entertainment netting \$195 for necessary improvements and repairs at the Annex. A flag pole was given by Mrs. Lena Heinroth in memory of her son, Oscar Heinroth, in accordance with his request, and Mr. A. Hoppe, of Sacramento street, has again given a horse, which has added greatly to the pleasure of the children and convenience of the country household.

A check for \$100 was received from Miss Irene M. Tay, for the Tay Memorial, and gratefully acknowledged.

Heavy expenses were incurred during the summer in making necessary repairs and alterations to our buildings, but as a result great comfort is being taken in our new receiving wards,

a more commodious drug room and in additional bed rooms for the servants.

An X-ray apparatus has been installed at an expense of \$350, adding to the equipment of the surgical service.

In the resignation of Miss S. M. Clarke, so long our faithful office clerk, great regret was felt and special mention should be made of her conscientious discharge of the duties of her position.

Miss Mattie Muller also has merited the thanks of the Board in filling the place of Acting Matron most capably for several months.

At our annual meeting of 1903 and at the first regular meeting of the year the Board took time for a little sentiment, and honored itself and our association by electing to its list of life members Mrs. L. L. Dunbar, Mrs. H. M. Fiske and Mrs. William Hardy, as a mark of appreciation of their hard and faithful work on the Board for many years. Each election was carried by a rising vote of all members present. Eleven members of our present Board of Managers are now life members of our association.

We are indebted to the San Francisco branch of the Needlework Guild of America for 372 new articles, and to the Ross Valley branch for 72.

We are to hear the separate reports of the work done by our three auxiliaries, who never fail us in their active interest, and the Thanksgiving and Christmas festivals in our hospital are red letter days, thanks to their generous provision of the treats of each season. Never have we had such a Thanksgiving dinner nor a happier Christmas, is the opinion of all the children, and indeed, of the whole household.

The Board has given no entertainment this year, but has trusted to the generosity of the public upon our annual donation days, to remember the needs of our children, and the shortage in our treasury that is always felt towards the close of the year.

We made our donation day appeal, stating the facts and our needs, and the response came on December 22nd, 23rd and 24th, when the committee in charge were cheered by the receipt.

in sums large and small, of \$4,103.90, besides generous supplies of provisions, books, toys and clothing.

So the Christmas trees were laden and each one was remembered. Indeed, thanks to our auxiliaries, Santa Claus had found out what each child most longed for, and when he appeared in person on Christmas day, the gift came with him, delighting eyes and hearts.

We cannot close our report for the year without acknowledging gratefully our indebtedness to the many co-workers who in ways great and small aid our endeavors and bring about successful results. We thank our Board of Trustees, our Visiting Staff and their assistants, our Dispensary Staff and their assistant clinicians, our Resident Physician, Superintendent of Nurses, our Pharmacist and Office Staff, and all employees who have given faithful service, our three auxiliaries, the generous San Francisco public and the San Francisco daily press, always willing to aid us in making known our wants by advertising freely all public entertainments given for our benefit.

The Board has one more debt to acknowledge, which is done most cheerfully, a debt of loyalty and affection to the noble woman who for a quarter of a century and more has been our President. Mrs. Harrington has seen the day of small things at our hospital and the gradual upbuilding of the work, and in season and out of season has given of her time and talents, health and strength to the Children's Hospital.

It is with deep thankfulness that we close our books for 1903.

We have left the financial side to our Treasurer. She will tell us how our balance stands, and of the continued need of steady, faithful effort and open purse strings, that the good work may go on. Our city is growing, our demands are heavier, expenses greater, and more children are needing our care.

For the year 1904 may each of us feel her responsibility and an impetus to greater effort.

Respectfully submitted.

HARRIET G. HOLMES,

Recording Secretary.

JENNIE M. DUNBAR,

Treasurer.

## **Treasurer's Financial Statement.**

---

It is always a source of satisfaction to the Treasurer of a charitable institution to close the books for the year with a balance, even though small, on the right side of the ledger, and the feeling that the institution is really solvent. So it is with pleasure that I make this short financial statement in addition to the annual report.

Our largest source of income aside from receipts from patients has been from bequests. From these we have received \$16,150.37—\$1,000 from the estate of Mrs. Susanna Brown, a second payment on a bequest of \$5,000; \$490 from the estate of Mrs. Gerlach; \$5,000 from the estate of Mr. John Dolbeer; \$4,286.46 from the estate of Mrs. Jane McCauley; \$500 from the estate of Mr. Louis Simon; \$4,623.91 from the estate of Mrs. Miranda Lux, and \$250 from the estate of Mrs. Rose Levy.

As usual, our friends remembered us most generously in response to our annual "Donation Day" appeal; \$4,103.90 being received. Mrs. William Kohl brightened our Christmas season with her usual generous gift of \$500, as did also Mr. James L. Flood.

The income from the hospital itself has been gratifying. Our expenses have been large, as necessary improvements have been made. We have paid \$500 on our note to the London and San Francisco Bank and \$600 to the Endowment Fund on account of loan. In addition we have paid into the Endowment Fund \$1,744.15. In January of this year Mr. Charles Holbrook gave us five \$1,000 gold bonds of the Los Angeles Lighting Co., for the purpose of endowing a memorial bed. These, together with 25 shares of stock in the Phoenix Savings, Building and Loan Association, a generous gift from Mr. Charles R. Bishop in December, were added to the Endowment Fund.

The payment of our bills is still on an actual sixty day basis. We close the year with a comparatively good bank account, and should still have a small balance on hand were our entire indebtedness paid up. With this good showing it would seem that your Treasurer should be well satisfied and not look ahead for trouble, but I have come to the conclusion that women Treasurers are the "Marthas" of this world, and so I feel it incumbent upon me to remind you that while during the present year a large sum has been received from bequests, we have not this source of income to look forward to in the coming year, as all bequests, with the exception of that of \$5,000 bequeathed by Mrs. de Santa Marina for the endowment of a bed, and which, therefore, must go at once into the Endowment Fund, have been paid up. While more than pleased to see the Endowment Fund growing, our current expenses must be met and we must not only keep a close watch over our expenditures but must in some way, either by increasing our monthly subscriptions or by giving a large entertainment, keep our current expense fund in such condition that we may be able to meet our bills promptly and not run behind. With most profound faith that we shall not be forgotten and still firmly believing in faith with works, I respectfully submit this statement.

JENNIE M. DUNBAR,

Treasurer.

The "balance forward to 1904" is somewhat deceptive, for there is still a bill for goods bought in 1903 not yet presented or paid. This bill will just about extinguish the balance, and is for the surgical appliances and braces purchased by the Fund during the last year. However, the diminishing rates of interest paid by the

NURSES' HOME.

"LITTLE JIM" WARD.

EYE AND EAR WARD.

bank have impressed me with the necessity of increasing the amount in the Fund itself, and so during 1903 but one of the dividends was drawn and the other was left to become part of the principal. This was possible because the expenses chanced to be lighter than usual. Even with this economy no child has been permitted to go without a brace or apparatus that was needed, and the Fund has done all the work that the founders of it included in their beneficent plans.

I have not, this year, segregated the items as in previous years, as they seem to explain themselves. The X-ray plates will, from now on, be a fairly constant charge, as it is intended to make a study of early bone tuberculosis and to file all instructive plates for preservation and future usefulness. This is to be under the especial charge of Doctors G. J. McChesney and James T. Watkins.

With this brief report I beg to offer the renewed thanks of Doctor S. J. Hunkin and myself for the continued assistance the Fund gives us in the work.

HARRY M. SHERMAN, M. D.,

Orthopedic Surgeon to the Children's Hospital.

January, 1904.

---

### **Berkeley Surgical Ward Fund.**

---

The fund in the German Savings and Loan Society remains, as by previous reports, \$2,144.84, plus the uncollected July, 1901, 1902 and 1903, dividends. The account in the Berkeley Bank of Savings is as in my last report, \$381.05, to which is to be added the uncollected July, 1901, 1902 and 1903, dividends and the commercial account of \$71.45, which I have transferred to the savings account, as there has not existed a need of a commercial account for some time.

ANITA D. S. BLAKE,

Treasurer.

## **Annual Report of the Children's Hospital Auxiliary— Auxiliary No. 1.**

---

*To the Board of Managers of the Children's Hospital and  
Training School for Nurses.*

During the year 1903 six monthly meetings and two special meetings of the Children's Hospital Auxiliary were held.

Owing to vacancies five new members, Miss Kittle, Mrs. Brownell, Mrs. Eugene Murphy, Miss Josselyn and Mrs. Worthington Ames, were admitted.

During Lent weekly sewing meetings were held and over fifty garments were completed and sent to the hospital as an Easter donation. The Auxiliary also provided all the children with Easter eggs.

On Thanksgiving and Christmas ice cream was provided through the Auxiliary, also the Christmas trees, toys for several of the wards and the afternoon's entertainment for the children.

In the months of June, July, August and September, no meetings were held.

A child was supported and cared for at the expense of the Auxiliary during the year.

On December 3rd a Christmas reception was held during the afternoon and evening at the Will Crocker residence, at which \$752 was cleared. A Christmas donation of \$744.15 was presented by the Auxiliary to the Endowment Fund of the hospital. The reception was held under the management of the Auxiliary, assisted by the Chrysanthemum Auxiliary.

Donations for the year were received from W. & J. Sloane & Co., Shreve & Co., Schonwasser, Magnin, H. S. Crocker Co., White House, Sievers, The American Florist, Podesta, Jones and Mrs. Will Tevis. Ten dollars from Mrs. Charles Wheeler, \$6.00 from Mrs. Henry Williams, \$6.00 from Mrs. W. P. Mor-

gan, \$6.00 from Mr. Sam Boardman, \$12.00 from James Pringle, \$12.00 from Mrs. W. E. Lester, \$12.00 from Mr. Frank Carolan, \$12.00 from Robert Eyre, \$60.00 from Mrs. Henry Scott.

Flowers for the Christmas reception were also donated by many of the residents of San Mateo and Burlingame.

## **Annual Report of the Chrysanthemum Auxiliary— Auxiliary No. 2.**

---

*To the Board of Managers of the Hospital for Children and  
Training School for Nurses.*

Ten regular meetings of the Chrysanthemum Auxiliary were held from January 6, 1903, on the first Tuesday of each month. During the months of June, July and August no meetings were held.

Seven resignations have been accepted and seven members elected during the year.

At Thanksgiving ten turkeys were donated to the hospital.

The Auxiliary spent eleven dollars (\$11) for toys at Christmas.

Respectfully submitted,

LIZZIE PAINTER,  
President.

MABEL HOGG,  
Recording Secretary.

MRS. JOHN F. MERRILL, Honorary President.

ELEANOR L. ECKART, Treasurer.

## **Annual Report of the Marguerite Auxiliary— Auxiliary No. 3.**

---

*To the Board of Managers of the Hospital for Children and  
Training School for Nurses.*

Eight meetings of the Auxiliary were held during the year, and the hospital visited several times by the committee. The Marguerites assisted at the reception given by the Auxiliary of the Children's Hospital on December 3rd.

Every Monday during Lent a meeting was held, at which the members did sewing for the hospital, and sixty-six garments were completed.

During June, July and August no meetings were held.

The Auxiliary has supported a child at the Hospital during the year, at the rate of \$15 per month.

On Thanksgiving cake was furnished by the members, and at Christmas a tree and ornaments were donated.

Three resignations have occurred and two new members, Miss Helen Thomas and Miss Sydney Davis, were elected.

At the December meeting it was voted to change the date of the annual meeting from the first Monday in October to the second Monday in January.

Much interest is shown by the members, and we hope soon to be able to pay our \$25 per month to the Children's Hospital.

Respectfully submitted,

EDNA DAVIS,  
President.

MAUD L. PAYNE,  
Secretary.

MRS. JOHN F. MERRILL, Honorary President.

## Memorial Beds.

---

### INFORMATION AS TO THE FOUNDING AND MAINTENANCE OF BEDS.

In response to numerous inquiries, the managers of the Hospital for Children and Training School for Nurses beg to state as follows:

I. By furnishing bed and bedding and an additional gift of one hundred dollars, the donor will be entitled to name a bed, the name to be continued so long as the necessary furnishings are kept in order. By consent of the Board of Managers, the donor may suggest who shall occupy the bed, subject to the rules of the Hospital; it being understood that this amount does not support a free patient. The cost of placing such a memorial bed is estimated to be \$175. If this amount be sent to the Treasurer of the Hospital, the Committee on Memorial Beds will attend to the purchasing, making and marking of all necessary articles. Persons so desiring can furnish their own supplies.

II. Any church, association, or individual contributing \$3,000 is entitled to control one bed for thirty-three years; and, if this amount be increased to \$5,000 within two years after the original payment is made, said control is made perpetual.

III. Any church, association or individual contributing \$5,000 is entitled to control one bed perpetually, or in lieu thereof, may name a room of one or more beds, and such room shall be known thereafter by such name.

All beds must be supplied annually with necessary furnishings. It has been estimated that the cost of such furnishings is

about twenty-five dollars. Donors of beds, so desiring, may send the sum of twenty-five dollars to the Treasurer of the Hospital, and the Committee in charge of "Memorial Beds" will see that all articles are supplied and marked.

Notice will be sent to all donors annually, stating the condition of furnishings.

### LIST OF ARTICLES REQUIRED.

Bedstead.	3 spreads.
Panel.	3 pairs 10-4 blankets (double,
12 sheets, $2\frac{3}{4} \times 1\frac{1}{2}$ yards.	white).
12 pillow-cases, 30 x 18 inches.	2 bath towels.
12 towels (hemmed).	1 hot-water bag.
	1 rubber sheet.

Bedding to be marked in red French cotton with name of bed.

## Report of Training School for Nurses.

---

*To the President and Board of Lady Managers of the Children's Hospital and Training School for Nurses.*

It is with pleasure that we record the increase of applicants since the adoption of the three years course.

In order that the unquestioned advantage of the longer course to both Hospital and patients may be accompanied by a corresponding advantage to the nurses, every effort is being made to improve the teaching methods and to broaden the practical experience.

A diet kitchen has been placed in the hands of a graduate of the Domestic Science Department of the Drexel Institute in Philadelphia, and the nurses are being taught practical cooking, and also being given a thorough course in dietetics.

The massage is being most satisfactorily taught by a professional masseuse.

We are indebted to the Staff of Lecturers for an excellent course of instruction. A schedule of these lectures will be printed in the Annual Report.

Nurses who have been ill have been most kindly and attentively treated by the Visiting Staff and Chief Resident Physician, and we beg to tender them our thanks.

A class of twenty-one nurses was graduated this year, their names being as follows:

Mabel Amelia Pavey.	Guenllian Blethen.
Lydia Grayce Gould.	Mary MacLymont.
Christine Marie Anderson.	Ruth Drake.
Helen Knight Smith.	Ednabelle Consuelo Falkenburg.
Lena Monroe.	Louise Fraser.
Ellen Joachim.	Elsie Atkins.
Florence Janet Carthew.	Cecilia Margaret Linn.
Adeline Alden Kelsey.	Mabel Phares.
Helen Harper.	Bertha Wilcoxon.
Margaret Maison Pollock.	Edith Bellam.

Madge Trowbridge.

The Training School at present comprises the following, in officers and pupils:

Superintendent . . . . .	1
Assistant Superintendent . . . . .	1
Head Nurse of Maternity Cottage . . . . .	1
Diet Instructor . . . . .	1
Seniors . . . . .	19
Intermediates . . . . .	13
Juniors and Probationers . . . . .	20
<hr/>	
Total . . . . .	56
Applications for admission to school . . . . .	210
Probationers admitted . . . . .	25
Probationers accepted . . . . .	24
Resigned . . . . .	1
Away on leave of absence . . . . .	2

Respectfully submitted,

KATHARINE BROWN,

Supt. of Nurses.

## Regulations for Training School for Nurses.

---

The Directors of the Training School for Nurses connected with the Children's Hospital have made arrangements for giving a three years' training to women desirous of becoming trained nurses.

Those wishing to obtain this course of instruction must apply personally, or by letter, to the Superintendent of the Training School, 3700 California Street, San Francisco, Cal. The letter of application should be accompanied by a physician's certificate of sound health and unimpaired faculties, and two certificates of good character. Applicants must be between the ages of twenty-one and thirty-one years and of at least average height and physique. They must at least be graduates of a Grammar School. They must be able to read aloud well; to write legibly and accurately from dictation; to understand arithmetic, including fractions and percentage; and to take notes at lectures. This amount of education is *indispensable*, but women of superior education will be given the preference.

Candidates, if approved, will be received on probation for three months. During these months of probation, the pupils are boarded and lodged at the Hospital, but if not accepted, receive no other compensation. They are not permitted to join the school formally until the end of the third month, when, if accepted by the Superintendent and the Training School Committee, they must sign an agreement to complete the prescribed course of three years and to conform to all rules.

At the end of the first year, the record of each pupil is carefully scrutinized and the right is reserved to terminate then, or at any time, the connection of any pupil with the school, or to prescribe a longer course, for inefficiency, misconduct, a generally unsatisfactory record, or for any other reason which may be deemed sufficient by the Hospital authorities.

The pupils are employed on day and night duty in the wards, operating rooms, or any other department of the Hospital to which they may be assigned. They are on duty from 7 A. M., to 7 P. M. They are allowed an afternoon (12:30—10:30 P. M.) each week, and part of Sunday, and additional time for study, rest or recreation. A vacation of three weeks is allowed at the end of the first and second years.

In addition to board, lodging and a reasonable amount of laundry work, the pupils are given a monthly allowance of five dollars. This allowance is not given as payment for services rendered (the training and teaching given, and the profession acquired being considered an ample equivalent), but is given for the purchase of the required uniform dress and text-books, and to meet other expenses incidental to the training.

In sickness the pupils will be cared for, but the time so lost must be made up.

The course includes practical and theoretical instruction in the nursing of children; the nursing of medical, surgical, obstetrical and gynecological cases; massage; the application of electricity; and sick-diet cooking. The instruction is given by the Visiting and Resident Physicians and Surgeons in the Lecture Room and at the bed-side of the patients, and by the Superintendent of Nurses and her assistants.

Examinations are held at stated intervals, and pupils cannot pass to more advanced work unless they obtain on critical marking, an average of at least 70 per cent. On satisfactorily passing the final examinations the pupil-nurses will be awarded the diploma of the Hospital Training School.

As the Institution is non-sectarian, there are no religious services connected with it, but all nurses are given the opportunity of attending the place of worship they prefer on Sunday.

**QUESTIONS FOR APPLICANTS.**

This paper is to be filled out (in the candidate's own handwriting) and sent to the Superintendent of Nurses, Children's Hospital, California Street, San Francisco, California.

1. What is your full name?.....
2. What is your age?.....
3. State date and place of your birth?.....
4. What is your height?.....
5. Weight? .....
6. Are you single, married, divorced or widowed?.....
7. Have you anyone dependent on you for support?.....
8. Are you otherwise free from responsibility, so that you are liable to be called away during the term of three years?.....
9. Are your eyesight and hearing perfect?.....
10. Have you any tendency to pulmonary disease?.....
11. Have you any physical defects?.....
12. What illness have you had?.....
13. In what schools were you educated?.....
14. What is your present occupation, and what have been your previous pursuits? .....
15. Have you ever been in a training school, or employed in a hospital or asylum? If so, when, where, and how long at each place?.....
16. Give the names and addresses of one person, not your relative, also of your physician, and state how long each has known you?.....
17. Give home address of your parents, or your nearest relative. If accepted, when would you be ready to enter the school?.....

I, the undersigned, having read the conditions of admission and clearly understanding and agreeing to them, do declare the above statement to be correct. And, if accepted as a candidate, I will, in all respects, comply with the rules and regulations of the School and Hospital.

.. Signed.....  
 (Name of candidate in full.)

OPERATING ROOM OF THE GYNECOLOGICAL WARD.

## **Course of Study.**

### **FIRST YEAR.**

#### **INSTRUCTION GIVEN BY SUPERINTENDENT OF NURSES AND ASSISTANTS.**

**Bed-making**—for bed-patients, for convalescents.

**Preparation of bed for an operation-patient, fracture-beds, pads, head-rests, lifting, moving.**

**Hygiene of sick-room and ward**—Ventilation, methods of ventilation, temperature of sick-room, disposal of excreta and soiled dressings.

**Care and cleanliness of ward utensils.**

**Care of new patients, of bed-patients, of convalescent patients.**

**Baths**—Classification and temperature, baths for cleanliness, baths as therapeutic agents; hot-air, steam, mustard, salt baths; sponge and tub baths in typhoid fever; the cold pack; prevention and treatment of bed sores.

**Disinfectant solutions**—Disinfection of rooms, clothing, excreta and vessels.

**Bacteriological notes.**

**Care of appliances**—Douches, catheterization.

**Enemata**—Kinds, preparation, methods and frequency of administration.

**Temperature**—Pulse, respiration, care of clinical thermometer, charting.

**Counter-irritants**—Cups, mustard plasters and leaves, cantharides, turpentine, iodine, liniments, the cautery.

**External and local applications**—Dry-heat, moist-heat, fomentations, poultices.

**Medicines**—Methods of administration, dosage, weights and measures, symbols and abbreviations.

**How to observe, report and record symptoms.**

## **Preparatory Lessons on Anatomy and Physiology.**

---

### **FIRST YEAR.**

#### **BANDAGING.**

**S. J. HUNKIN, M. D.**

1. Extremities.
2. Trunk and Head.
3. Orthopedic Appliances.
4. Review.

Operating Room Technique—(Geo. J. McChesney, M. D.)

### **SECOND YEAR.**

#### **ANATOMY.**

**W. B. LEWITT, M. D.**

1. Connective tissue, Bones.
2. Muscular tissue, Muscles.
3. Circulatory System.
4. Respiratory Apparatus.
5. Nervous System.
6. Alimentary Canal, Accessory Organs.
7. Urinary Organs; Skin; Nails and Hair.

#### **PHYSIOLOGY.**

1. The Vascular System.
2. Alimentation.
3. Elimination.
4. Nervous System.

#### **ORTHOPEDICS.**

**DR. JAMES T. WATKINS.**

1. Club Foot.
2. Flat Foot.
3. Diseases of Spine.
4. Hip Disease.
5. Disease of Knee Joint.
6. Examination.

DIETETICS.

MISS CAROLINE L. GILBERT.

OBSTETRICAL NURSING.

ADELAIDE BROWN, M. D.

1. Anatomy of Pelvis and its Organs.
2. Hygiene of Pregnancy.
3. Labor—(1) Normal; (2) Abnormal.
4. Preparations for and Nursing during Labor.
5. The new born infant and its care.
6. The Puerperium—(1) Normal; (2) Abnormal.
7. The nursing of the Puerperium.
8. The nurse in private work in Obstetrics.

SURGICAL AND GYNECOLOGICAL NURSING.

HAROLD BRUNN, M. D.

1. Bacteriology.
2. General and Special Preparation of Patient for Examination and Operation.
3. Care of Patient after Major and Minor Operations.
4. Surgical Operating-rooms, and How to Prepare for Operations in Private Homes.
5. Hemorrhages; Shock and Surgical Emergencies.
6. Dislocations, Sprains, Contusions, Burns, Scalds, Frost Bites.

MEDICAL AND SURGICAL PEDIATRICS.

EMMA SUTRO MERRITT, M. D.

FRANCES R. SPRAGUE, M. D.

1. Feeding in Health and Sickness during the First Twelve Months.
2. Feeding in Health and Sickness after the First Twelve Months.
3. Development and Care of Children.
4. Nursing in the Non-contagious Diseases of Childhood.
5. Nursing in Some of the Contagious Diseases of Childhood.
6. Surgical Nursing of Children; Fractures; Splints.
7. Nursing in Diseases of the Skin.

## THIRD YEAR.

## MEDICAL NURSING.

WM. WATT KERR, M. D.

1. Zymotic Diseases.
2. Local Diseases.
3. Constitutional Diseases.

## MATERIA MEDICA AND THERAPEUTICS.

EMMA K. WILLITS, M. D.

1. How Drugs Produce Their Effects, Methods of Administration, Elimination, Dosage.
2. Antispasmodics, Depresso-motors, Somnifacients, Anæsthetics.
3. Excito-motors, Delirifacients.
4. Cardiac Stimulants, Cardiac Depressants.
5. Tonics, Alteratives, Antiperiodics, Antipyretics, Astringents, Emetics, Cathartics, Diuretics, Diaphoretics, Expectorants.

## HYGIENE.

LUCY M. WANZER, M. D.

ALICE M. WOODS, M. D.

1. Air.
2. Water.
3. Habitations.
4. Personal Hygiene.
5. Hygiene in Relation to Disease.
6. Sanitary Laws.

## MASSAGE.

1. Practical Demonstrations.

## EYE, EAR AND THROAT.

WILLIAM E. HOPKINS, M. D.

1. Anatomy of the Eye and Ear.
2. The Treatment and Nursing of Injuries and Diseases of the Eye and Ear.
3. Anatomy of the Throat; Nursing of Croup, Diphtheria, etc.

## Dispensary Report.

*To the Board of Managers of the Hospital for Children and Training School for Nurses.*

The Dispensary Staff respectfully submits the report for the year ending December 31, 1903.

Number of women registered.....	270
Number of children registered.....	410
<hr/>	
Total number registered . . . . .	680
Number of patients treated.....	3,223
Number of prescriptions filled.....	2,387
Number of out-visits by staff.....	429
Number of out-visits by nurses.....	518
Number of obstetrical cases.....	15

### NATIONALITIES.

## Announcement.

---

### OBJECTS OF THE HOSPITAL.

*First.* To provide medical and surgical aid for sick children; this being the main charity. No deserving case is ever refused as long as there is a bed vacant.

In the "Little Jim" Ward twenty-five beds have been set apart for incurable cases. The "Little Jim" is a *hospital* not a home for crippled children who are otherwise well. It is intended for those little unfortunates whose pain and suffering can be relieved by medical care and attention.

*Second.* To provide medical and surgical aid for sick women. This is one source of revenue, and is a most important branch of the work. In the main building there are pleasant sunny rooms for adult patients, and in the Eye and Ear Building on Sacramento Street, the lower floor of which is occupied by the Eye and Ear Ward, the upper floor is devoted entirely to adult cases. The rooms are bright and attractive, and the dainty "Sun Room" for convalescents is a most inviting spot. The operating room is fitted up with every modern appliance. The best of care and attention is guaranteed.

Outside physicians desiring to place their patients in the Hospital and to attend them are invited to do so, and may feel assured that their patients will receive every attention.

The adult cases admitted into the Hospital are divided into three classes.

1st. *Those who are destitute and unable to pay anything.* For such cases there are three free hospital beds, a medical, a surgical and an obstetrical; besides these there are the "Henry C. Merrill" endowed free surgical bed, and the "Susan Holbrook" endowed free surgical bed.

2d. *Those who are able to pay hospital charges only.* To such cases, the services of the Hospital staff are given free of charge.

3d. *Those who are able to pay hospital charges and also for medical attendance.* Such patients desiring to enter the Hospital may make their arrangements with any member of the Hospital Staff or any outside physician whom they desire.

*Third. To educate nurses;* the design being to fit healthy young women to engage intelligently in this work by a three years' course of reading, lectures and practical nursing. The nurses are thoroughly trained in every department of the work.

The Resident Physician will be constantly in attendance at the Hospital to receive applications for admission.

Daily clinics are held at the Hospital at 9 o'clock a. m., also at the Dispensary, 741-743 Brannan street, near Seventh, from 9 to 12 a. m. and 1 to 4 p. m., for the sick poor, free of charge. District nursing has been established, and nurses detailed for duty at the Dispensary will answer calls from the sick poor in their homes.

A Nurses' Directory for the graduate nurses of the Children's Hospital has been established at the Hospital. Telephone numbers, West 1126.

## **Rules and Regulations.**

---

I. The institution shall be under the charge of the Resident Physician, and of the Matron.

II. PATIENTS shall be admitted and discharged by the Resident Physician, subject to the approval of the Attending Physician.

No Patient shall leave the Hospital except by permission of the Resident or the Attending Physician. NO Patient allowed out after nightfall.

III. Meals for Patients served punctually at hours designated. Breakfast, 7 a. m.; Dinner, 12 m.; Supper, 5 p. m. Children allowed lunch morning and afternoon.

IV. Visitors are not allowed to distribute food, fruit, confectionery or liquors to patients.

V. Visiting days for children: Tuesdays, Thursdays and Sundays from 2 to 4 p. m. On Sundays parents only are admitted. Adult patients may have visitors any afternoon from 2 to 4 o'clock; at other times special permit must be obtained from the Resident Physician. No person admitted in the evening except by special permission. Children under fifteen years of age will not be admitted as visitors.

VI. Lights in the Wards must be out at 8 p. m. All lights in the Hospital must be out at 10 p. m. From 9 p. m. to 6 a. m. the Hospital must be kept perfectly quiet.

VII. All complaints must be made to the Attending, or to the Resident Physician, and in case of their inability to remove the difficulty, they shall report to the Board of Managers.

- VIII. A kind and courteous demeanor is expected on the part of the Nurses and Inmates toward all with whom they come in contact.
- IX. Neatness and punctuality are expected from all inmates of the Hospital.
- X. Bills are payable weekly, in advance, or when presented by the clerk.
- XI. Adult patients' washing is not included in weekly rates. It must be sent out.
- XII. Patients discharged should have a certificate signed by the Resident Physician.
- XIII. The Resident Physician has the exclusive power to admit or exclude visitors. No patient may have more than TWO visitors on the same day, except by special permission.
- XIV. A record must be kept of all patients entering the Hospital. Applications may be made to the Resident Physician for examination and treatment at the Hospital. Inquiries regarding the Medical Department may be answered only by Resident Physician or Internes.  
*No incurable adult cases will be admitted.*

## Hospital Rates.

---

BILLS ARE PAYABLE WEEKLY IN ADVANCE, OR WHEN PRESENTED  
BY THE CLERK.

Single Room for Adults.....	\$25.00 to \$35.00 per week
Two Adult Patients in room (each) .	15.00   “   “
Three Adult Patients in room (each) .	10.50   “   “
Five Adult Patients in room (each) .	7.50   “   “
Case in Contagious Cottage.....	25.00   “   “

(The Contagious Cottage is only for use by the Hospital Staff.)

Obstetrical Cases . . . . .	From \$15.00 to \$30.00 per week
Confinement Fee . . . . .	25.00
Children in Wards (full rates) ....	25.00 per month

Special arrangements made by Chairman of Committee on  
Admission of Children.

Children in room containing two beds.....	\$35.00 per month
Special nurse . . . . .	20.00 per week
Operating Room Fee for Minor Operations...	5.00
Operating Room Fee for Major Operations..	10.00
Special Anæsthetist . . . . .	10.00
Laboratory Service . . . . .	1.00

Drugs and Dressings, Medical and Surgical Supplies extra.

## President's Address.

---

### *Friends and Ladies of the Board of Managers:*

The work of the year just ended has confirmed and strengthened the opinion which I took occasion to express in my last annual address of the necessity of replacing our main Hospital Building by a modern structure, better adapted to our present and prospective requirements.

Completed in 1887, at that time the edifice was thought to be fully equal to any demands likely to arise during the next half century. The surprising growth of our city of late years, however, has so widened the field we are expected to cover that we find ourselves hampered and quite unable with our present facilities to do justice to the increasing calls made upon us.

To effect such an improvement will require a large sum, and the question how it shall be raised is one demanding careful consideration. Eighteen years since, when funds and materials were secured from the public-spirited citizens of San Francisco for the erection of the present building, this onerous task fell mainly upon our Board of Trustees. I feel sure that when the gentlemen now constituting that body understand the necessities of the institution which they so honorably and efficiently represent, they will feel imbued with the same energetic and philanthropic spirit and render all the aid in their power toward the accomplishment of this worthy object.

While the Hospital received a considerable sum from bequests during the year, a larger proportion than usual was expressly given to the endowment fund, which now aggregates some \$50,000. It is unnecessary to say that we are profoundly grateful for gifts for this purpose or for any sums that we are per-

mitted to use toward defraying our current expenses. These are increasing not only from year to year by the growth of our institution but have been of late greater by some 15 per cent than formerly, due to the increase in cost of provisions, wages, etc.

There are very few institutions in the country having endowment funds the interest of which is equal to their current expenses, and our hospital is no exception to this rule. We are therefore compelled to resort to all laudable expedients to keep our treasury replenished. This explanation of our conditions is due to our friends, who may sometimes feel that our calls are too frequent.

The report of your Treasurer shows in detail our revenue and the sources from whence it was derived. It is pleasing to note that the gifts of money and supplies received on Donation Day show no decline from previous years, despite the fact that the calls upon the charitable public are pressing at that season, and not always easy to satisfy.

The Tay Memorial annex to the Hospital at Elmhurst experienced a banner year, so to speak. This was due almost wholly to the philanthropic action of the *Chronicle* which carried on a public subscription by which over \$4,000 was realized for carrying on the work for the season and leaving a handsome sum for next year. In this labor of love all connected with the *Chronicle*, from the proprietor to the humblest employee, united, and they are entitled to our best thanks.

The Alexander Maternity Cottage has had a successful year, and at times could have cared for more patients had accommodations been available. Its worthy founder has maintained her interest and continued, as in past years, to lend material aid toward its support.

The Training School for Nurses continues to flourish. The extension of the period of instruction from two to three years, as is now the rule in the leading nurses' training schools of the country, has been a marked success. There has been no falling

off in the number of applicants seeking admission. It is safe to say that the reputation of this school, already of the best, will be improved by the new standard. The change in the location of our Dispensary, now situated on Brannan street, has much enlarged its sphere of usefulness, and the work there has been well and cheerfully done.

Our thanks are due to all connected with the operating department of the hospital. Its success, after all, depends chiefly upon the skill and faithfulness of its physicians, surgeons and nurses. In this respect we need fear no comparison with any Californian institution, public or private. Those employed in other capacities are entitled to high commendation. Their attention to their duties has been steady and unremitting.

Our Trustees have lent their aid at all times when desired. Their counsel has been of much value, and they have rendered loyal support.

It is with profound regret that I am forced to record the decease, during the year, of a founder and staunch supporter of the hospital, "the beloved physician," Charlotte Blake Brown. What this noble woman did for the profession she adorned, and for the elevation of her sex it would take an abler pen than mine to recite. The annals of this institution show in some measure the work she accomplished, and while they last her memory will survive.

Dr. Brown was the pioneer woman physician in San Francisco: in fact, there were few others in the country when she entered the profession. She lived to see opposition and prejudice overcome, and to see the ability of members of her sex to successfully pursue this noble vocation publicly recognized.

A former president and two estimable women, at one time members of the Board, entered into rest during the year. Mrs. A. L. Stone was among the founders of the hospital and its second president nearly thirty years since. Owing to the infirmity of years her active interest in its affairs ceased some time ago, but she ever remained its friend and supporter.

SUN ROOM OF THE "LITTLE JIM" WARD.

W. R. A. Johnson and Miss Fannie Lent were our fellow members for several years. During the period they were connected with us they were faithful and conscientious workers. We regretted their retirement and sorrow at their untimely departure.

These events, dear friends, particularly to us the elder members of this Board, are not without significance. They warn us that our period of work and usefulness has its bounds, bounds which the passing years are bringing nearer and nearer. May we and our successors fulfill our trust as faithfully and as well as those who have gone to their reward.

Respectfully submitted,

MRS. WILLARD B. HARRINGTON, President.

## Recording Secretary's Report.

---

*To the Board of Managers, the Board of Trustees and Members of the Association of the Hospital for Children and Training School for Nurses.*

FRIENDS: To-day we are holding our Twenty-ninth Annual Meeting. We are closing our books upon another twelvemonth of active work, and are again called upon to give an account of our stewardship.

Your Secretary's report would of necessity be a long one, if it but gave a bald statement of the chief business transactions by the Board of Managers at their monthly or special meetings; but it is our custom that each department of our hospital work should come in review, at this season, that we may know what progress is being made, what needs are apparent, and that in the pages of our printed Annual Report, the record of good work done may reach the eyes and hearts of all who read; and that the appreciation and thanks of the Board of Managers may officially reach the "Workers" and the "Givers" who make our institution possible.

The Board of Managers has held 20 meetings—the annual, 12 regular, 1 adjourned, and 7 special, with a good average attendance at each.

There have been many changes in the personnel of the Board. Resignations have been received from Mrs. H. B. Montague and Mrs. Robert Oxnard, while removal from the city has taken Mrs. Andrew S. Rowan from active work; and toward the end of our year, Mrs. T. L. Miller, our energetic and faithful Corresponding Secretary, was again obliged to leave California and resign her position. Her place awaits her, should her lot in life again be cast among us.

We have, however, welcomed back Mrs. Helen Hecht, and added Mrs. Walter Cope to our depleted ranks.

The work of the Corresponding Secretary has been cheerfully accepted for the unexpired term by Mrs. Henry Bothin, who for so long a period held that official position.

At the Annual Meeting of 1904, Mr. W. F. Whittier tendered his resignation from our Board of Trustees after many years of service, and in his stead Mr. Rolla V. Watt was elected, from whom and our remaining Trustees we are assured of hearty co-operation in all that concerns the best interests of our Hospital.

The following additions have been made to our Visiting Staff:

At our January meeting, Dr. Alice M. Woods, who for so long had assisted Dr. L. M. F. Wagner, was appointed associate with her in the medical service, and Dr. Edward K. Hopkins was appointed associate oculist and aurist with his brother, Dr. Wm. E. Hopkins, while Dr. Howard Morrow's past services as dermatologist were recognized by placing him upon the Visiting Staff.

Dr. R. Leona Ashe has been appointed pathologist, and Dr. Amy G. Bowman dentist, in place of Dr. Mary L. Baird, whose resignation was accepted after a faithful service of seven years.

The resignation of Dr. Harold Brunn from the Assistant Visiting Staff was also received and accepted with regret.

At the Pacific Dispensary, Dr. Emma K. Willits was elected to the staff of dispensing clinicians, also Dr. Silvia Harris, Dr. Martha Thorwick and Dr. Mary A. Sperry, and resignations were received from Dr. Helen J. Waterman and Dr. Anna M. Mosgrove.

As Assistant Clinicians, Dr. Theodora Vassault was elected in place of Dr. Julia Larsen, resigned, and Dr. Mary F. Kavanagh's resignation was accepted owing to her removal from the city.

Our Resident Physician, Dr. H. T. Crabtree is still with us after four years of faithful service, but owing to the need of retrenchment wherever possible, the position of Assistant Resident has been abolished. Dr. Crabtree will read her own report for the year, on behalf of the Medical Staff of the Hospital, from which we would emphasize the following items:

Twelve hundred patients have been cared for in 1904, of whom 494 were women and 706 children.

This makes an average of 19 adults and of 84 children in our Hospital each day of the year.

Of this number 33 children and 4 adults daily were absolutely free patients, while a large proportion of the remaining percentages paid greatly reduced charges.

The number of internes necessary for our work have been with us during the year, and the list of applicants for this position assures us of the recognized benefit to them of the experience gained at our Hospital, while faithful service during their twelve-months' term has again been given to us, and is appreciated by their Committee and the Board.

Our young Matron, Miss Muller, has given most efficient care to each department of her work, having fully earned her appointment by so capably filling the place of Acting Matron during a portion of last year. Such satisfaction in her management was expressed that it was unnecessary to look for an older person. Miss Muller filling all other requirements, having grown into the work from long experience in subordinate positions in our household.

The report of the Alexander Maternity Cottage will be read in full, showing a gratifying continuance of public confidence in the excellent care received under its roof, and a yearly increasing number of those who take advantage of this efficient branch of the Hospital Service. One hundred and forty-five births have been registered during the year.

Our Training School for Nurses maintains its high standard, and nurses graduating from our three-years' course are, we firmly believe, well grounded and equipped for their profession, and are so recognized by the best physicians. This year our Training School has won the honor of being the first in San Francisco and the second from the Pacific Coast to receive the recognition of registration in New York State, and our nurses there are entitled to wear the badge R. N., "Registered Nurse." a testimonial to the standing of our school.

Miss Katharine Brown has remained with us as Superintendent of Nurses, and a Night Superintendent, Miss Fecheimer, has

also been appointed, so that supervision, instruction and responsibility can be relied upon night and day.

There were 22 nurses in the Graduating Class of 1904, and the Graduating Exercises held at the Nurses' Home on September 29th, will be remembered by all present. Artistic decorations had been generously given and excellent addresses were made by Dr. Sherman, Rev. Dr. Thomas, and our President; music and refreshments adding to the pleasure of the evening.

Our Hospital Clinic continues to be maintained for outside cases, and the increasing number of operations, dressings, examinations and treatments proves its usefulness.

At our Pacific Dispensary the work has been extended by the establishment of five additional clinics thus reaching and benefiting an ever increasing number of the poor of our city, who come to it from widely scattered districts, while in the immediate neighborhood it is an acknowledged blessing.

It is a matter of regret to the Board of Managers that they cannot see their way financially to further extend this department of our work, and respond to the wishes and appeals of our energetic Dispensary Staff, who could ably maintain a model dispensary with out service day and night, if accommodations and facilities could be increased, an interne and more nurses spared for the work.

We cannot, however, afford to extend our charity in this direction, in a city already helped by many other clinics, when our main charity, our Hospital for Children, needs far more than our present finances are equal to, to properly maintain and extend, to meet the constant demands of our growing community.

The Secretary of the Dispensary Staff will present to you her own report giving statistics for the year, from which we emphasize the following: Three thousand one hundred and ten patients have been treated, 3,540 prescriptions filled, 401 nurses' out visits, 330 doctors' out visits, 18 obstetrical cases and 38 poor families helped.

The Memorial Bed Committee reports with pleasure the establishment of two new beds—the "Agnes," placed by the Hospital's constant friend, Mrs. Mary Halleck Foote, in memory of her

little daughter, and the "Phoebe Lowenthal" bed, to the memory of one who had herself shown her appreciation of this enduring form of holding in grateful remembrance her own departed dear one.

Maintenance of the "Phoebe Lowenthal" and the "Edgar S. Hochstadter" beds has been provided in advance for a period of ten years.

As a fitting tribute to the memory of Dr. Charlotte Blake Brown, for so long the foremost of the women physicians on this Coast, and the chief of our Visiting Staff for so many years, the Board of Managers unanimously voted to establish a free adult bed for the use of women surgeons, as soon as we are financially able. It was well known that the placing of such a bed had long been the ardent wish of Dr. Brown, and the Board felt that it was but honoring our Hospital to permanently connect with the special work of our women surgeons the name of Dr. Charlotte Blake Brown.

The family of Dr. Brown, in recognition also of her interest and connection with the Children's Hospital, have generously donated \$1,000 as a memorial gift, which has been received with appreciation and gratitude.

To the list of our benefactors the name of Mr. Charles R. Bishop has been added, and the Hospital will be constantly reminded of his generous gift of \$5,000 by the naming of a room in his honor, to be permanently known as the "Charles R. Bishop Room."

Separate reports will be read from each of our three Auxiliaries, showing their work for the year just closed. Each year their special beds are maintained, and we have learned to depend upon their annual gifts at Easter, Thanksgiving and Xmas, making these festal days of special feasting and rejoicing in our household.

We are indebted to the San Francisco Branch of the Needlework Guild of America for 439 new articles; to the San Mateo Branch for 25; and to the Ross Valley Branch for 11.

So much for the progress made in our work—now for the needs that were apparent.

In May when our lovely summer weather turned our thoughts to our country home, the Tay Memorial Annex at Elmhurst, our Treasurer plainly showed us in black and white that we could not afford to incur the increased expense of keeping up two households for the same number of patients, in the depleted state of our treasury.

And yet there stood the country home, and here lay the expectant children eagerly longing for that outdoor life which some of them had tasted last season, and all had heard of and longed for. Our President said "have faith" and send the children; the Board hesitated, knowing the heavy burden of added debt, and our Treasurer reluctantly but firmly voted "No." A committee was appointed to try and raise a "Fresh Air Fund" through the San Francisco press, and the next we knew of the matter was seeing in the following Sunday edition of the *Chronicle* the bold headlines of a strong appeal to the people of San Francisco to share the pleasures of their summer outings with the little sufferers at the Children's Hospital. The public heart was touched, returns came in quickly, and by June 4th, the first ambulance-load of little patients was moved to Elmhurst, where kind friends in the neighborhood had prepared a feast of welcome—strawberries, oranges, books, garden toys, and more substantial gifts of clothing.

Before the summer was over the *Chronicle* "Fresh Air Fund" had reached over \$4,000, in sums large and small, in proportion to the purses of parents and children. One little "Dorothy" was our mascot, and when this was pointed out every little "Dorothy" in the land must have heard of it, for all who could, helped, and the fund grew daily.

The children remained at Elmhurst till the end of October, and when June comes next year, there is a fund on hand to ensure the summer out-door life.

But our Hospital treasury was still at low tide, and most careful economy has been exercised; so that this year no improvements have been made to our buildings beyond the very necessary repairs to roofs, a small amount of new plumbing, and a bulk-head built in our grounds to permanently protect our boundary

line near the Contagious Cottage. Our only luxury—long a pressing necessity—was the placing of a cold storage plant, and that had been arranged for in the preceding year.

All summer the need of giving a large entertainment to raise funds was apparent to our Board, yet we hesitated, knowing that the Children's Hospital is constantly accused of being "always before the public."

Many offers of small entertainments to be given for our benefit come to the Managers, but it is now our policy to allow none such, endorsed or advertised by the Board, as the returns—over and above expenses—are too small to offset the public criticism of these constant appeals. But where is our income to come from, for our charity patients? Interest from our Endowment Fund as yet pays but the taxes on our property.

We must come before the public, but the appeal must be a strong, dignified one for systematic, not spasmodic, support. It is for the people of our city to say if San Francisco is to keep up a Children's Hospital.

There is no provision in the present City and County Hospital for the separate care of the children of this city, victims of the numerous accidents, the incurable diseases and deformities, the unfortunate inheritance of so many. The majority of these cases come to the Children's Hospital, our free beds are always filled, one "case" replacing another as soon as room can be made for it.

The expense of giving a large entertainment, in spite of generous donations, absorbs so much of the returns that the net profit is not satisfactory, in proportion to the labor expended, and this year the Board had its first failure, when an entertainment given at the Mechanics' Pavilion, following the Knights Templar Conclave, produced only \$55 clear of expenses, after three days of hard work.

We were discouraged over this lost opportunity, but it has taught us a lesson.

We know our cause is worthy of help, and that the help will come when our needs are plainly set forth, as shown by the response to our appeal on our Annual Donation Days, which has

cheered us, \$4,253.96 having been received, besides generous donations of provisions, books, toys and clothing.

So our Christmas again was a bountiful one. Each ward had its tree, and in the Little Jim, 40 small trees, one for each bed, sent by a kind friend who telephoned to ask how many incurable children we had; Santa Claus came in person, and joy reigned supreme.

A gracious act was the invitation extended by the management of Fischer's Theatre, asking as guests to any one matinee during the holiday week, as many of our children as could attend. Such a happy day they had—17 of them. It will long be remembered. And another afternoon when Mr. Adelstein and his pupils gave a concert in the sun-room of the "Little Jim" to such a pathetic audience, each on stretcher, cot or wheeled chair, with crutches or splints always in evidence.

We have said that the "Workers" and the "Givers" make our institution possible. We thank them all! Our Visiting Staff and their assistants, our Dispensary Staff and their assistant clinicians, our Resident Physician, Superintendent of Nurses, Pharmacist, Matron, Office Staff, our Board of Trustees, and our Legal Advisers, our three Auxiliaries, the generous San Francisco public, and especially the San Francisco daily press, to whom we turn many times each year for notices, advertisements and appeals and never turn in vain.

We thank our President, who has added another year of her life's interest to the cause of the Children's Hospital, and whose unbounded faith in our darkest moments should be an inspiration and encouragement to us all.

The Treasurer will read her financial statement and will urge hard work for the ensuing year, she herself willing, as always, to take a lion's share.

May the key-note of our work for 1905 be individual effort to make united strength.

Respectfully submitted,

HARRIET G. HOLMES,  
Recording Secretary.

## Cresurer's Annual Report.

## **Treasurer's Financial Statement.**

---

1904.

While the figures speak for themselves, it has been thought best that your Treasurer make a short detailed statement in addition to her report, and it is herewith presented. Our largest source of income for the year, aside from that received from patients, came from bequests which amounted to \$11,994.33. From the estate of Mrs. Clara Meyer, deceased, we received \$250, from that of Mrs. Gerlach, deceased, an additional sum of \$111.13, from that of Mrs. Susanna Brown, deceased, an additional sum of \$1,000, from that of Mrs. Emily F. Pope, deceased, \$6,000, from that of Mrs. Ellen E. Felton, deceased, \$1,183.20, from that of Mrs. Eliza Gwither, deceased, \$250, from that of Mr. Chas. F. Doe, deceased, \$2,700 and from that of Mr. George Goodman, deceased, \$500. As Mrs. Pope's bequest was left to our Endowment Fund, it was immediately turned over to the Treasurer of the fund, Mr. James D. Phelan. In addition to Mrs. Pope's bequest, 100 shares of the capital stock of the Gas Consumers' Association, U. S. A., donated by Mr. Chas. R. Bishop and valued by him at \$2,000, were placed in the Endowment Fund and \$350, the balance due on account of loan from the Endowment Fund, was also paid up. Our old friends, and we are glad to say, many new ones, contributed generously to our Donation Day Fund, which amounted to the goodly sum of \$4,253.96. Our kind friends, Mrs. Wm. Kohl and Mr. James L. Flood, remembered us with their usual generous Christmas offerings of \$500 each and a "Thank offering" of \$500 was received from Mr. Jacob Barth in gratitude for the restoration to health of a dearly beloved nephew. While our receipts from monthly subscriptions fell behind somewhat, our receipts from donations were larger than those of last year. The fund raised by the *San Francisco Chronicle*, amounting to \$4,733.40, for the convalescent home at Elmhurst relieved us of the expense of carrying

the home and was most gratefully received. We regret exceedingly to report that we were compelled to drop behind one month in the payment of bills, and that we close the year with October. November and December bills unpaid. We have examined the year's accounts carefully to ascertain where and why we fell short and find that, while our expenses have increased but slightly, if at all, our income has not been quite so large, that we have placed a larger amount in our Endowment Fund and that we started the year with \$3,000 less in our bank account than the year previous.

While, of course, we realize the fact that it is the proper business principle to store up treasure for the future, at the same time we must recognize the fact that bills must be paid and that if merchants are compelled to wait, we are the losers in the end; that cash payments would mean a discount on our bills. It is our earnest desire to have an Emergency Fund of say \$10,000 each year earning interest, but which we may draw upon when necessary to keep, if not exactly "the wolf," at least worry from our doors, and then at the close of the year to place what we can spare, permanently in our Endowment Fund, thus building up this fund but not at the expense of our Current Expense Fund.

We have heard it said that a church or hospital so endowed as to no longer feel the necessity for work loses its usefulness, but we, I am sure, would like to prove the statement by our own experience. We are hopeful, however, and have an abundance of faith, if not of funds, and feel sure that we shall not be forgotten in the coming year.

Respectfully submitted,

JENNIE M. DUNBAR, Treasurer.

*Mrs. W. B. Harrington, President Hospital for Children and  
Training School for Nurses:*

DEAR MADAM: Enclosed you will please find Cash Account from January 9, 1904, to December 31, 1904, showing a balance in bank of \$6,793.77. During the year I have received for the Endowment Fund \$6,000, a bequest from the late Mrs. Emily F. Pope, and one hundred (100) shares of the Gas Consumers' Association of the United States, the gift of Charles R. Bishop, valued at \$2,000, and yielding \$120 per year.

The Trustees invested \$6,297.50 for the purchase of six 5 per cent bonds of \$1,000 each of the Pacific Electric Railway Company.

The Securities on hand, held by the Trustees for the Sinking Fund, are as follows:

2 Bonds Alameda, Oakland & Piedmont Elect. R. R. ....	\$ 2,000 00
17 Bonds S. F. & S. J. Valley R. R. ....	17,000 00
5 Bonds Los Angeles Lighting Co. ....	5,000 00
5 Bonds Los Angeles Railway Co. ....	5,000 00
6 Bonds Pacific Electric Railway Co. ....	6,000 00
25 Shares Phoenix Savings & Loan Association. ....	2,500 00
100 Shares Gas Consumers' Association. ....	2,000 00

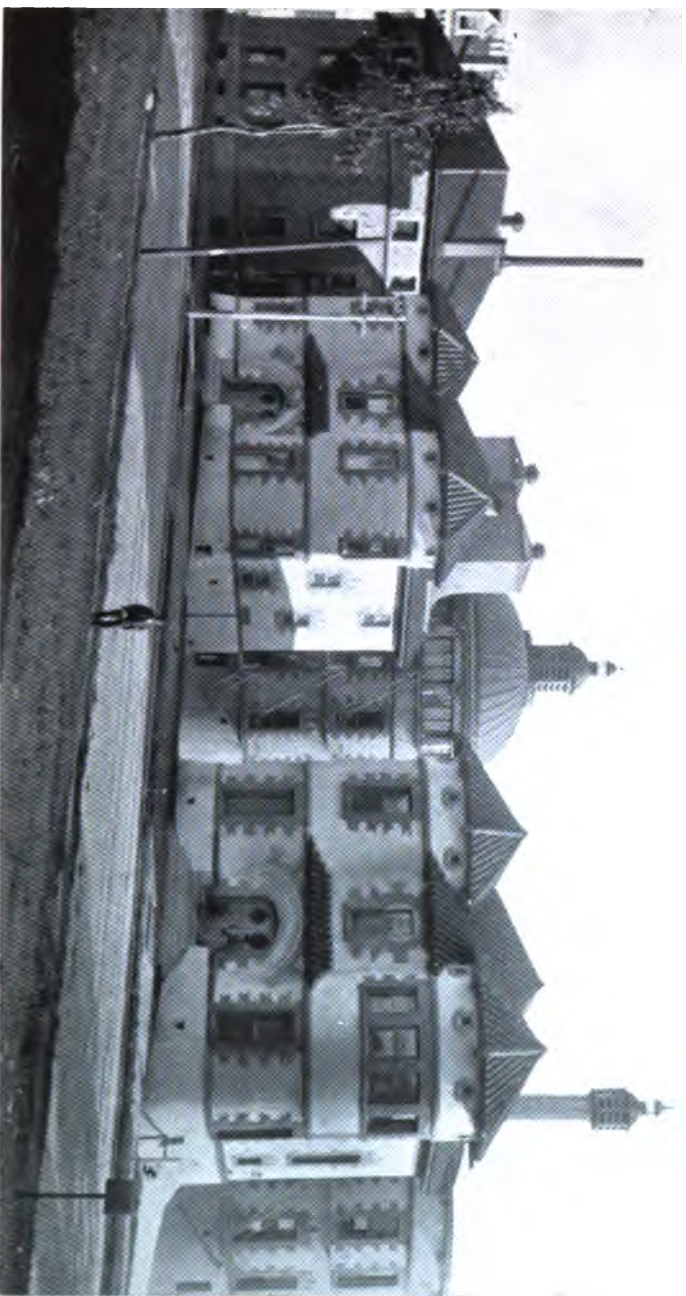

Therefore, the par value of these Bonds and Stocks is. ....	\$39,500 00
Add Cash in San Francisco Savings Union. ....	6,793 77

Total Endowment . ....	\$46,293 77
Last year I reported. ....	\$38,285 33

Which shows an increase this year of. ....	\$ 8,008 44

## The Crutch and Splint Fund.

### TRUSTEES.

SIDNEY V. SMITH.

J. LEONARD ABBOTT, JR.

The Fund has continued to supply, for the use of the Hospital, the X-ray plates needed and has in addition paid for many small alterations and readjustments necessary in the X-ray apparatus. The usefulness of the Fund is therefore continuing and widening, for none of its previous activities have been abandoned.

HARRY M. SHERMAN, M. D.,  
Orthopedic Surgeon to the Children's Hospital.

### **Berkeley Surgical Ward.**

---

The fund in the German Savings and Loan Society remains, as by previous reports, \$2,144.84, plus the uncollected July, 1901, 1902, 1903 and 1904 dividends. The account in the Berkeley Bank of Savings is as in my last report, \$381.05, to which is to be added the uncollected July, 1901, 1902, 1903 and 1904 dividends and the commercial account of \$71.45, which I have transferred to the savings account, as there has not existed a need of a commercial account for some time.

ANITA D. S. BLAKE, Treasurer.

## Annual Report of the Children's Hospital Auxiliary— Auxiliary No. 1.

*To the Board of Managers of the Children's Hospital and Training School for Nurses:*

During the year 1904 eight monthly and three special meetings of the Children's Hospital Auxiliary were held.

No new members were elected during the year.

In Lent weekly sewing meetings were held, and fifty-four white cotton flannel nightgowns were completed and sent to the Hospital.

During the summer months no meetings were held, but fifty-four blue gingham aprons were made by the Auxiliary members and sent to the Hospital.

At Easter candy and fresh eggs were supplied for each child.

At Thanksgiving ice cream and apples were sent, and at Christmas trees and tree ornaments, toys for each child, three gallons of ice cream, and a Santa Claus were provided by the Auxiliary members for the children's entertainment.

The Auxiliary bed was also replenished. A child was supported during the year, a pair of braces being bought for the occupant of the bed.

### FINANCIAL REPORT FOR THE YEAR.

January, 1905, cash on hand.....	\$134.58
Received during year subscriptions, dues, etc.....	341.19
Total . . . . .	\$475.77

### EXPENDITURES.

Auxiliary bed for year.....	\$300.00
Donations, wedding presents, supplies, etc.....	116.75
Total . . . . .	\$416.75
Balance in Bank . . . . .	59.02

Respectfully submitted,

MISS MINNIE HOUGHTON,	THERESE MORGAN DAVIS.
President.	Secretary.

MRS. JOHN F. MERRILL, Honorary President.

## **Annual Report of the Chrysanthemum Auxiliary— Auxiliary No. 2.**

---

### *To the Board of Managers:*

MADAM PRESIDENT: During the present year there have been six regular meetings and one special meeting, with an average attendance of ten members.

Two members and four substitutes have been elected. One resignation received.

Treasurer reported \$277.55 proceeds from the Chrysanthemum Fete held in April.

Christmas donation to the Hospital consisted of twenty-eight turkeys and 150 balloons for the children.

Respectfully submitted,

MISS GEORGIA SPIEKER,

President.

ZELDA TIFFANY,

Recording Secretary.

MRS. JOHN F. MERRILL, Honorary President.

# **Treasurer's Report of the Chrysanthemum Auxiliary.**

FOR THE YEAR ENDING DECEMBER 31, 1904.

RUTH GEDNEY, Treasurer.

## **Annual Report of the Marguerite Auxiliary— Auxiliary No. 3.**

---

FOR THE YEAR 1904.

---

*To the Board of Managers of the Hospital for Children and  
Training School for Nurses:*

During the year 1904 eight regular meetings were held by the Auxiliary, there being no meetings during the months of June, July, August and September. By amendment the annual meeting was transferred from the second Monday in October to the second Monday in January. Two resignations have occurred during the year, and one new member admitted to the Auxiliary.

The Auxiliary has supported a child at the Hospital at the rate of \$10 a month. It also gave \$25 as usual to maintain the Memorial Bed. Cakes were given at Christmas for the children's Christmas dinner. Owing to the absence of eight members, who are away from home and will not return until the following summer, the Auxiliary was not able to accomplish as much as it would have otherwise, but with the return of the absent members next year we hope to continue our work and do better than ever.

This year no sewing meetings were held during Lent as formerly, but the members took home and completed 110 night-gowns, which were given to the Hospital as an Easter offering

Respectfully submitted,

EDNA DAVIS,  
President.

LOUISE STONE,  
Secretary.

MRS. JOHN F. MERRILL, Honorary President.

## Memorial Beds

---

### INFORMATION AS TO THE FOUNDING AND MAINTENANCE OF BEDS.

In response to numerous inquiries, the managers of the Hospital for Children and Training School for Nurses beg to state as follows:

I. By furnishing bed and bedding and an additional gift of one hundred dollars, the donor will be entitled to name a bed, the name to be continued so long as the necessary furnishings are kept in order. By consent of the Board of Managers the donor may suggest who shall occupy the bed, subject to the rules of the Hospital, it being understood that this amount does not support a free patient. The cost of placing such a memorial bed is estimated to be \$175. If this amount be sent to the Treasurer of the Hospital the Committee on Memorial Beds will attend to the purchasing, making and marking of all necessary articles. Persons so desiring can furnish their own supplies.

II. Any church, association or individual contributing \$5,000 is entitled to control one child's bed perpetually, or in lieu thereof, may name a room of one or more beds, and such room shall be known thereafter by such name.

III. Any church, association or individual contributing \$10,000 is entitled to control one adult bed perpetually.

All beds must be supplied annually with necessary furnishings. It has been estimated that the cost of such furnishings is about twenty-five dollars. Donors of beds, so desiring, may send the sum of twenty-five dollars to the Treasurer of the Hospital, and the Committee in charge of "Memorial Beds" will see that all articles are supplied and marked.

Notice will be sent to all donors annually, stating the condition of furnishings.

**LIST OF ARTICLES REQUIRED.**

Bedstead.	3 pairs 10-4 blankets (double
Panel.	white).
12 sheets, 2¾ x 1½ yards.	2 bath towels.
12 pillow cases, 30 x 18 inches.	1 hot-water bag.
12 towels (hemmed).	1 rubber sheet.
3 spreads.	

Bedding to be marked in red French cotton with name of bed.

## Report of Training School for Nurses.

---

*To the President and Board of Lady Managers of the Children's Hospital and Training School for Nurses:*

It is with satisfaction that we report the school, at the close of its twenty-third year, in a position to give a broad, thorough three years' course of training and instruction.

That such is the case is testified to by the registration of our school by the Board of Regents of the State of New York. This makes our graduates eligible for registration as "Registered Nurses" under the new law of that State. We have several graduates practicing their profession in New York City who will avail themselves of this privilege.

Although gratified with the past attainments of the School, we are fully conscious that much may yet be done in the way of improving the work of each department, and it does not seem too sanguine to hope by the adoption of some system shortening the nurses' working hours and providing a preparatory course of instruction.

We feel that the good of both patients and pupils has been furthered by the addition of a Night Superintendent to our nursing corps, and the position has been most satisfactorily filled by Miss Minnie Fechimer of the Class of 1904.

It was with regret that we parted with Miss Ethel Steeves, who had done such good work in the Alexander Maternity, but we were most fortunate in securing Miss Mary Murry to fill the vacancy.

But few changes have been made in the curriculum this year, and we wish again to express our appreciation of the work of the Staff of Lecturers.

The Alumnae Association has been most active during the year and is now putting forth every effort to endow a bed for nurses. We bespeak the interest of every friend of the School in this matter.

The Graduating Class this year numbered twenty-two.

Jessie Lezette Beard.	Ethel May Middleton.
Ida Emma Dawson.	Bertha Ernestine Nowottny.
Ora Farmer.	Leona Offield.
Minnie Fechimer.	Alice May Olney.
Elise Ruth Fechimer.	Clara Louise Parsons.
Alfreda Lawton Gardner.	Cecil Purvis.
Ethel Blanche Grundy.	Ida Marie Sanderson.
Olive Evelyn Hanna.	Maud Clark Stone.
Hadee L. Johnson.	Gertrude A. Townsend.
Mildred E. Kitto.	Rose Trumpler.
Augusta Menke.	Ethel Ashley Webster.

The Training School at present comprises the following in officers and pupils:

Superintendent .....	1
Assistant Superintendent .....	1
Head Nurse Alexander Maternity .....	1
Night Superintendent .....	1
Diet Instructor .....	1
Seniors .....	11
Intermediates .....	20
Juniors and Probationers .....	19
Total .....	55
Applicants for admission .....	224
Probationers admitted .....	34
Probationers accepted .....	25
Resigned and dismissed .....	6

Respectfully submitted,

KATHARINE BROWN.  
Supt. of Nurses.

## Regulations for the Training School for Nurses.

---

The Directors of the Training School for Nurses connected with the Children's Hospital have made arrangements for giving a three years' training to women desirous of becoming trained nurses.

Those wishing to obtain this course of instruction must apply personally, or by letter, to the Superintendent of the Training School, 3700 California street, San Francisco, Cal. The letter of application should be accompanied by a physician's certificate of sound health and unimpaired faculties, and two certificates of good character. Applicants must be between the ages of twenty-one and thirty-one years and of at least average height and physique. They must at least be graduates of a Grammar School. They must be able to read aloud well; to write legibly and accurately from dictation; to understand arithmetic, including fractions and percentage; and to take notes at lectures. This amount of education is *indispensable*, but women of superior education will be given the preference.

Candidates, if approved, will be received on probation for three months. During these months of probation, the pupils are boarded and lodged at the Hospital, but if not accepted, receive no other compensation. They are not permitted to join the school formally until the end of the third month, when, if accepted by the Superintendent and the Training School Committee, they must sign an agreement to complete the prescribed course of three years and to conform to all rules.

At the end of the first year, the record of each pupil is carefully scrutinized and the right is reserved to terminate then, or at any time, the connection of any pupils with the school, or to prescribe a longer course, for inefficiency, misconduct, a generally unsatisfactory record, or for any other reason which may be deemed sufficient by the Hospital authorities.

The pupils are employed on day and night duty in the wards, operating rooms, or any other department of the Hospital to

which they may be assigned. They are on duty from 7 a. m., to 7 p. m. They are allowed an afternoon (12:30—10:30 p. m.) each week, and part of Sunday, and additional time for study, rest or recreation. A vacation of three weeks is allowed at the end of the first and second years.

In addition to board, lodging and a reasonable amount of laundry work, the pupils are given a monthly allowance of five dollars. This allowance is not given as payment for services rendered (the training and teaching given, and the profession acquired being considered an ample equivalent), but is given for the purchase of the required uniform dress and text-books, and to meet other expenses incidental to the training.

In sickness the pupils will be cared for, but the time so lost must be made up.

The course includes practical and theoretical instruction in the nursing of children; the nursing of medical, surgical, obstetrical and gynecological cases; massage; the application of electricity; and sick-diet cooking. The instruction is given by the Visiting and Resident Physicians and Surgeons in the Lecture Room and at the bed-side of the patients, and by the Superintendent of Nurses and her assistants.

Examinations are held at stated intervals, and pupils cannot pass to more advanced work unless they obtain on critical marking, an average of at least 70 per cent. On satisfactorily passing the final examinations the pupil-nurses will be awarded the diploma of the Hospital Training School.

As the Institution is non-sectarian, there are no religious services connected with it, but all nurses are given the opportunity of attending the place of worship they prefer on Sunday.

---

### QUESTIONS FOR APPLICANTS.

This paper is to be filled out (in the candidate's own handwriting) and sent to the Superintendent of Nurses, Children's Hospital, 3700 California Street, San Francisco, California.

1. What is your full name?.....
2. What is your age?.....

3. State date and place of your birth?.....
4. What is your height?.....
5. Weight? .....
6. Are you single, married, divorced or widowed?.....
7. Have you anyone dependent on you for support?.....
8. Are you otherwise free from responsibility, so that you are not liable to be called away during the term of three years?.....
9. Are your eyesight and hearing perfect?.....
10. Have you any tendency to pulmonary disease?.....
11. Have you any physical defects?.....
12. What illness have you had?.....
13. In what schools were you educated?.....
14. What is your present occupation, and what have been your previous pursuits? .....
15. Have you ever been in a training school, or employed in a hospital or asylum? If so, when, where, and how long at each place?....
16. Give the names and addresses of two (2) persons, not your relatives, and also of your physician, and state how long each has known you .....
17. Give home address of your parents, or your nearest relative.....  
If accepted, when would you be ready to enter the school?.....

I, the undersigned, having read the conditions of admission, and clearly understanding and agreeing to them, do declare the above statement to be correct. And, if accepted as a candidate, I will, in all respects, comply with the rules and regulations of the School and Hospital.

Signed.....  
(Name of candidate in full.)

Post office address.....

Nearest telegraph address .....

Date .....

## Course of Study.

---

### FIRST YEAR.

#### INSTRUCTION GIVEN BY SUPERINTENDENT OF NURSES AND ASSISTANTS.

Bed-making—for bed-patients, for convalescents.

Preparation of bed for an operation-patient, fracture-beds, pads, head-rests, lifting, moving.

Hygiene of sick-room and ward—Ventilation, methods of ventilation, temperature of sick-room, disposal of excreta and soiled dressings. Care and cleanliness of ward utensils.

Care of new patients, of bed-patients, of convalescent patients.

Baths—Classification and temperature, baths for cleanliness, baths as therapeutic agents; hot-air, steam, mustard, salt baths; sponge and tub baths in typhoid fever; the cold pack; prevention and treatment of bed sores.

Disinfectant solutions—Disinfection of rooms, clothing, excreta and vessels.

Bacteriological notes.

Care of appliances—Douches, catheterization.

Enemata—Kinds, preparation, methods and frequency of administration.

Temperature—Pulse, respiration, care of clinical thermometer, charting.

Counter-irritants—Cups, mustard plasters and leaves, cantharides, turpentine, iodine, liniments, the cautery.

External and local applications—Dry-heat, moist-heat, fomentations, poultices.

Medicines—Methods of administration, dosage, weights and measures, symbols and abbreviations.

How to observe, report and record symptoms.

## **Preparatory Lessons on Anatomy and Physiology.**

### **FIRST YEAR.**

#### **BANDAGING.**

S. J. HUNKIN, M. D.

1. Extremities.
2. Trunk and Head.
3. Orthopedic Appliances.
4. Review.

#### **OPERATING ROOM TECHNIQUE.**

GEO. J. MCCHESENEY, M. D.

### **SECOND YEAR.**

#### **ANATOMY.**

W. B. LEWITT, M. D.

1. Connective tissue, Bones.
2. Muscular tissue, Muscles.
3. Circulatory System.
4. Respiratory Apparatus.
5. Nervous System.
6. Alimentary Canal, Accessory Organs.
7. Urinary Organs; Skin; Nails and Hair.

#### **PHYSIOLOGY.**

1. The Vascular System.
2. Alimentation.
3. Elimination.
4. Nervous System.

#### **ORTHOPEDICS.**

DR. JAMES T. WATKINS.

1. Club Foot.
2. Flat Foot.
3. Diseases of Spine.
4. Hip Disease.
5. Disease of Knee Joint.
6. Examination.

## DIETETICS.

MISS CAROLINE L. GILBERT.

(12 Lessons.)

## OBSTETRICAL NURSING.

ADELAIDE BROWN, M. D.

1. Anatomy of Pelvis and its Organs.
2. Hygiene of Pregnancy.
3. Labor—(1)—Normal; (2) Abnormal.
4. Preparations for and Nursing during Labor.
5. The new born infant and its care.
6. The Puerperium—(1) Normal; (2) Abnormal.
7. The nursing of the Puerperium.
8. The nurse in private work in Obstetrics.

## SURGICAL AND GYNECOLOGICAL NURSING.

T. G. RUSSELL, M. D.

1. Bacteriology.
2. General and Special Preparation of Patient for Examination and Operation.
3. Care of Patient after Major and Minor Operations.
4. Surgical Operating-rooms, and How to Prepare for Operations in Private Homes.
5. Hemorrhages; Shock and Surgical Emergencies.
6. Dislocations, Sprains, Contusions, Burns, Scalds, Frost Bites.

## MEDICAL AND SURGICAL PEDIATRICS.

EMMA SUTRO MERRITT, M. D.

FRANCES R. SPRAGUE, M. D.

1. Feeding in Health and Sickness during the First Twelve Months.
2. Feeding in Health and Sickness after the First Twelve Months.
3. Development and Care of Children.
4. Nursing in the Non-contagious Diseases of Childhood.
5. Nursing in Some of the Contagious Diseases of Childhood.
6. Surgical Nursing of Children; Fractures; Splints.
7. Nursing in Diseases of the Skin.

**THIRD YEAR.**

**MEDICAL NURSING.**

WM. WATT KERR, M. D.

1. Zymotic Diseases.
2. Local Diseases.
3. Constitutional Diseases.

**MATERIA MEDICA AND THERAPEUTICS.**

EMMA K. WILLITS, M. D.

1. How Drugs Produce Their Effects, Methods of Administration, Elimination, Dosage.
2. Antispasmodics, Depresso-motors, Somnifacients, Anaesthetics.
3. Excito-motors, Delirifacients.
4. Cardiac Stimulants, Cardiac Depressants.
5. Tonics, Alteratives, Antiperiodics, Antipyretics, Astringents, Emetics, Cathartics, Diuretics, Diaphoretics, Expectorants.

**HYGIENE.**

LUCY M. WANZER, M. D.

ALICE M. WOODS, M. D.

1. Air.
2. Water.
3. Habitations.
4. Personal Hygiene.
5. Hygiene in Relation to Disease.
6. Sanitary Laws.

**MASSAGE.**

MRS. M. NEVINS, MASSEUSE.

Ten Practical Demonstrations.

**EYE, EAR AND THROAT.**

WILLIAM E. HOPKINS, M. D.

1. Anatomy of the Eye and Ear.
2. The Treatment and Nursing of Injuries and Diseases of the Eye and Ear.
3. Anatomy of the Throat; Nursing of Croup, Diphtheria, etc.

**BEQUESTS.**

*By the law of California (C. C., Sec. 1313) no estate shall be bequeathed or devised to any charitable or benevolent society or corporation, except the same be done by will duly executed at least thirty days before the decease of testator.*

**FORM OF BEQUEST.**

*"I give and bequeath to the 'Hospital for Children and Training School for Nurses,' a corporation of the State of California, the sum of ————— dollars."*
